Russia Proposes Unification Plan To West Germany

BONN, Germany, Feb. 8 (UP)—Soviet Russia Friday made "concrete proposals" for settling its differences with West Germany and improving overall East-West relations in a long personal note from Soviet Premier Nikolai A. Bulganin to West German Chancellor Konrad Adenauer.

Ike And Saud Give Details On New Pact

WASHINGTON, Feb. 8 (AP)—President Eisenhower and Saudi Arabia's King Saud coupled announcement of a long-heralded air base-for-arms deal today with a pledge to oppose any use of force in the Middle East.

These were the salient points in a joint communique summing up talks which started Jan. 30. The communique, about 600 words long, was issued after Eisenhower had flown to Thomasville, Ga., and Saud had gone to Blair House following a final 95-minute meeting at the White House between the two heads of state.

TO LEAVE CAPITOL The 55-year-old King flies out of Washington tomorrow aboard the Columbine III, the same plane Eisenhower took today to Thomasville.

The communique applauded "the atmosphere of cordiality" in which Eisenhower and Saud, together with aides, held their consultations. Their announcement incorporated a boost for Saud as a Middle East leader, a bow in the direction of the "Bandung principles" and applause for Eisenhower's Middle East resolution. But the core of the announcement was the agreement on the Dhahran air base and military assistance.

FIVE YEAR LEASE This agreement has been an open secret for a week. Under it, the U. S. Air Force will continue using the Dhahran airfield for "five more years, and Saudi Arabia will get "military equipment, services and training."

Further, Eisenhower agreed to "consider the provision of economic facilities." Officials said this means Saudi Arabia is slated to get economic aid for development projects. As for arms aid, the announcement said, "Plans are being made by representatives of both countries for the supply of military equipment, services and training, for the purposes of defense and the maintenance of internal security in the kingdom."

SAUDI ARMS Saudi Arabia buys its guns, tanks and planes from the United States. It wants more, especially jet planes, and hopes to double its 15,000-man force.

No mention was made in the communique of a number of sore points between the two countries. Presumably, these were covered by the final sentence which said, "The two chiefs of state exchanged views on a number of other matters of common interest."

Some of these touchy matters include Saud's refusal to let American soldiers of Jewish origin.

Noted Doctor At Greenville Dies At Age 74

GREENVILLE, Miss., Feb. 8 (AP)—Dr. Paul G. Gamble, 74-year-old surgeon and member of the State Board of Health, died today after a heart attack Wednesday. Dr. Gamble was one of three physicians who founded the Gamble Brothers and Archer Clinic in 1915. The other two were the late Dr. Hugh A. Gamble and Dr. John Archer.

Dr. Paul Gamble was past president of the Mississippi and Delta Medical Assns. and was a member of the Southern and American Medical Assn. and the Southeastern section of American Osteological Assn. and a fellow in the American College of Surgeons. He was a native of Safford, Ga. Gamble studied at Vanderbilt University, the University of Tennessee, the University of Texas and Tulane University and interned at Touros Infirmary at New Orleans.

Adenauer promptly told newsmen that a "turning point" in the Soviet attitude toward the West was likely in the near future. But he refused to disclose the contents of the message. "You can make me stand on my head, but I still won't say anything," the 81-year-old chancellor told his news conference with a smile. He said that was his agreement with Soviet Ambassador Andrei Smirnov who delivered the message.

MAY RELEASE SATURDAY Reliable Soviet embassy sources said it may be what they called "concrete proposals" on: 1. German reunification. 2. World disarmament. 3. A German-Soviet trade treaty.

4. The entire field of Soviet-German relations which have become increasingly colder since Adenauer visited Moscow in September, 1955, and re-established diplomatic relations.

The note was the first personal message from Bulganin to the recently anti-Communist German chancellor, Soviet Ambassador Smirnov, who left Bonn for Moscow Dec. 22 and returned Thursday, handed the message to Adenauer at a 50-minute conference Friday morning. It was the second time Adenauer and Smirnov had met.

Soviet sources emphasized that the note stressed the importance of improved Russian-German relations in bringing about a general relaxation in the cold war.

Trade appeared to be the key to the note on the basis of what the Soviet sources said.

Amendments Questioned By Georgia

ATLANTA, Feb. 8 (AP)—The Georgia Senate today raised another legal point in its continuing battle for segregation with a resolution asking Congress to declare null and void the 14th and 15th amendments to the U. S. constitution.

In a privileged resolution, which was adopted unanimously with no fanfare or debate, the body declared that the two amendments were improperly constituted and never legally adopted. The 14th amendment, the so-called due process amendment and the 15th, which deals with voting rights, have been used in efforts to break down segregation in the South.

FIRST OF TYPE Sen. Peyton Hawes of Elberton, administration floor leader who introduced the resolution, said it was the first direct attempt by any state to invalidate actions of the post-civil war congresses. "This is an offensive action," Hawes said. "We've been on the defensive long enough. And we hope other southern states will follow."

The Senate resolution was sent to President Eisenhower, Chief Justice Earl Warren, congressional leaders and all Georgia congressmen. It declared that "hostile majorities" of the "improperly constituted" 39th, 40th and 41st Congresses.

21 FLOORS

Workmen Survive Fall Into Shaft Of New York Elevator

NEW YORK, Feb. 8 (AP)—Two workmen tumbled into an elevator shaft in West Harlem today. One saved himself four floors down with a trapeze-like maneuver. The other plunged 21 floors to the bottom but walked away alive.

Elevator cables installed by the pair saved their lives. Explained one of them, Donald McKeon, 23: "Whenever we go on a job, we always look to see what we can grab if anything happens, so I had the cables in mind. I started grabbing for the cables and when I grabbed one I held."

CRACK JACKPOT—W. B. Goza, circulation manager, (center) presents checks to winners of the Morning World puzzle jackpot this week. At left is Duke Rogers, of Route 2, Farmerville. The winner at right is Mrs. W. E. Taylor, of 903 South Seventh street, Monroe. (World photo by John Fogleman)

2 Contestants Crack Puzzle Jackpot For Payload Of \$475

By BONANZA BILL A Monroe woman and a Farmerville man cracked the \$475 Monroe Morning World puzzle jackpot this week with their two entries, by contestants out of over 16,000 submitted.

Mrs. W. E. Taylor, of 903 South Seventh street, shared jackpot winnings with Duke Rogers of Route 2, Farmerville. The woman said that she would use her \$237.50 portion of the jackpot "to pay a few bills with."

Rogers, a Rocky Branch farmer, said he didn't know what he was going to do with his prize money, but he figured he could find good use for it.

PERSISTANT TESTAMENT

Rogers said he usually sends in a number of entries each week, but this week only sent in two. Mrs. Taylor said she always sends in two entries.

Next week's jackpot sum will start off at \$100.

For those wondering why they weren't the winners, here are explanations of the more difficult clues to this week's solution:

CLUES ACROSS: 3. The fact that the clue says it's a "store" that wants it good favors STUFF since STUFF is a store's stock in trade. Any firm would want a good STAFF.

6. Highly PRIZED, certainly, but it doesn't follow that they are PRICED AT ALL. Even when for sale, they are often auctioned, with no special PRICE asked.

7. SCARE is best. It cannot be said of a boxer simply that he does, or does not, SCORE easily, since it all depends on the relative quality of the opposition. Many a boxer, regardless of what he is up against, does not SCORE easily however.

13. An "extremely CRITICAL" moment is one involving grave risk, favoring SPRING. A STRING

Soggy Weather Weekend Fare

Scattered showers and warm temperatures are in prospect for the Twin Cities area this weekend, according to a forecast issued last night.

The Arkansas forecast calls for partly cloudy and warm with widely scattered showers today and tomorrow.

is apt to break at an extremely INCONVENIENT moment.

14. SLIP, yes; but ostentatiously to SLAP it into his hand may be the act of a man who wants to LOOK generous to those around.

FAN MORE APT

17. Of the two words, FAN and

TAN, FAN is the more apt. It links excellently with "Spain."

She may get a TAN in her own backyard; also, the sun does not ALWAYS shine in Spain, but she can surely buy a FAN there. CAN, MAN or PAN are too remote.

19. HOUSE, yes; but so many HORSES have ridiculous names that these cease to be "inappropriate."

CLUES DOWN:

1. MATCH, certainly, since babies are always apt to put such things in their mouths. It's safe enough to let baby get hold of your WATCH, if it is a pocket WATCH, and you keep it on its chain. CATCH, LATCH or PATCH are not as good.

2. LEERS is the stronger answer. It is the CROWD that would in certain circumstances, JEER at the PLAYER. TO PEER is unlikely to cause trouble.

3. SPRAIN, yes; but mountain-climbing inevitably involves STRAIN hence the effects of this are anticipated.

FEED IS BEST

4. FEED is best. Note the clue

Jes' Ramblin'

Toastmaster clubs are girding the world it would appear and this is highly interesting news for the Monroe club by that name. What evidence is there to prove the assertion?

President E. T. Nichols, of the Monroe Toastmaster club has just received a letter of unusual interest. It was written by Lt. Colonel A. L. Peters, Jr., U.S. Navy attaché, who told of the active Toastmaster club in far off Bangkok, Thailand, where this man, native of Monroe and well known here is now stationed.

This club is believed to be the most distant in location from Monroe of any similar club. Also it is told in the letter that the following countries are represented in the membership: United States, England, Denmark, Sweden, Norway, Israel, Scotland and China. Twenty-six are now in the club membership.

Colonel Peters wrote that the government of the country is solidly back of the organization. The club named plans to sponsor student clubs in Singapore, Penang and Laos. It is reported that Hong Kong has a large and active

World Headlines

BATON ROUGE—Louisiana tax collections gain \$19 million in first seven months of fiscal year over same period last year.

UNITED NATIONS—Israel rejects Ike's personal plea to pull out of Egypt.

WASHINGTON—Ike and Saud in full agreement on air base lease, aid for another five years.

BONN—Russia offers German unification proposals.

WASHINGTON—Federal grand jury ordered to probe oil price hikes for anti-trust violations.

BATON ROUGE, Feb. 8 (AP)—Revenue collector James S. Reilly said today tax collections the first seven months this fiscal year amounted to 209 million dollars for a gain of nearly 19 million.

January collections, he added, amounted to \$45,581,622, up \$4,349,835 compared with January a year ago.

DETAILS LIST

For the first seven months, beginning last July 1, here is the tax picture:

1. Severance tax, mostly based on oil, amounted to \$38,407,120, gaining \$4,862,381 compared with the corresponding period seven months ago.

2. Sales tax levy totaled \$47,042,830, up \$4,000,580.

3. Gasoline tax amounted to \$32,635,159, up \$2,453,421.

4. Income tax, \$12,730,065, was up \$3,069,918.

5. Gas gathering levy, \$10,977,850, climbed \$1,507,162.

For January, compared with the same month a year earlier:

1. Severance tax, \$20,677,081, an all-time high, up \$2,055,967.

2. Sales tax, \$7,656,157, up \$631,866.

3. Gasoline tax, \$4,569,424, up \$95,937.

4. Income tax, \$1,599,351, up \$475,656.

5. Gas gathering, \$3,876,231, up \$518,741.

Tax losers included the soft drink levy, amounting to \$88,519 for January, down \$17,294.

CAUTIONOUS NOTE

Reilly sounded a cautious note about expecting too much extra tax income from the severance tax on oil. The Louisiana daily oil production allowable since November has been set at record levels, mean greater state revenue during the European oil shortage.

But the collector explained that the severance tax is collected on a quarterly, not monthly basis, and during the balance of this fiscal year ending June 30 only the increased oil revenue for January, February and March will be reflected in this fiscal year's tax income.

Collections for the April, May and June quarter, he added, will not be received until in July, which marks the first month of the next fiscal year.

King Receives Gifts From Ike WASHINGTON, Feb. 8 (AP)—President Eisenhower today presented King Saud with a 16-piece bronze desk set and an Eisenhower oil painting of an outdoor Colorado scene.

Israel Rejects Ike's Plea For Withdrawal

U.S. Grand Jury Ordered To Probe Hike In Oil Price

WASHINGTON, Feb. 8 (UP)—The Justice Department Friday ordered a federal grand jury investigation of alleged anti-trust violations in the recent round of oil and gasoline price increases.

The Justice Department filed a motion for the inquiry in federal district court at nearby Alexandria, Va. Federal Judge Albert V. Bryan said he would order a special grand jury to meet March 4.

The department said the investigation would cover "alleged violations of anti-trust laws by companies, corporations and persons engaged in the distribution, production, storage, purchase and sale of petroleum and petroleum products."

CHECK ON CONSPIRACY Assistant attorney general Victor R. Hansen head of the anti-trust division, had announced last month that the department was investigating to find out whether conspiracy was involved in the price increases.

Most major oil companies raised crude oil prices by 35 cents a barrel after the Suez Canal closure had blocked oil shipments to Europe. This resulted in a cent-a-gallon boost in gasoline prices

(Continued On Second Page)

Liveright Is Found Guilty Of Contempt

WASHINGTON, Feb. 8 (AP)—Herman Liveright, 45, former New Orleans television executive, was convicted today on 14 charges of contempt of Congress.

A U. S. District Court jury deliberated only about 30 minutes before returning a verdict that Liveright unlawfully refused to answer questions concerning alleged Communist connections before the Senate Internal Security subcommittee.

SENTENCE SLATED U. S. Dist. Judge Richmond B. Keck, who received the verdict, said he would pronounce sentence in two or three weeks. The trial lasted four days.

The maximum penalty for contempt of Congress is a year in jail and a \$1,000 fine.

After hearing the verdict, Liveright told reporters he still "believes very fervently in the principles on which I stood last March when I withheld the answers to certain questions."

Liveright, without invoking the Fifth Amendment privilege against self-incrimination, challenged the power of a one-man subcommittee consisting of Sen. Eastland (D-Miss.) to inquire into his political beliefs, into any other personal and private affairs, and into his associational activities.

"I feel quite convinced that ultimately higher courts of this country and the people will agree with me," he said.

UN Move To Vote Penalty Is Expected

UNITED NATIONS, N. Y., Feb. 8 (UP)—Israel Friday rejected President Eisenhower's personal appeal to get its forces out of Egypt.

In another development the powerful Afro-Asian bloc informed Secretary-General Dag Hammarskjöld it would demand sanctions against the Israelis by the United Nations general assembly.

A government spokesman in Tel Aviv said Prime Minister David Ben Gurion, in a three-page letter sent Friday, had rejected Mr. Eisenhower's "polite but firm" request that Israel withdraw its forces behind the 1949 armistice demarcation line. The president sent his appeal to Ben-Gurion Sunday.

ISRAEL UNCHANGED

Walter Eytan, director of Israel's foreign ministry, issued a statement indicating a deadlock between the U.N. and the Israelis on the withdrawal issue. He said Israel's determination to remain in the Gaza and Aqaba strips remained unchanged despite the man of the Afro-Asian group, informed Hammarskjöld Friday morning of the 27-nation bloc's intention to seek sanctions against Israel at a meeting of the general assembly expected to be called next Tuesday.

The United States, holding the key to the two-thirds vote required for assembly approval of

(Continued On Second Page)

Jobholders' Census Shows Sharp Plunge

WASHINGTON, Feb. 8 (UP)—The number of American jobholders dropped by 1,660,000 last month for the biggest December-to-January decline since 1949, the government reported Friday.

At the same time, the number of persons looking for work rose by 461,000.

A Labor-Commerce Department survey showed that 62,890,000 persons held jobs in January while 2,940,000 were listed as seeking employment. These were about the same levels as in January, 1956.

FIRST LOSS SINCE MARCH

This marked the first time since March, 1955, that the number of jobholders for one month failed to show a gain over the same month of the previous year.

The report said "substantially lower" farm employment kept the total from rising above the January, 1956 total. Non-farm employment was at a record level for the month, although sharply down from December.

Employment normally declines between December and January because of the layoff of extra workers hired by retail stores and the postal service during the Christmas rush.

The report said the seasonal decline was "accentuated somewhat" this year because the December survey was taken closer to Christmas than usual and therefore included a large number of temporary holiday workers.

Ike And Saud Give Details On New Pact

WASHINGTON, Feb. 8 (AP) — President Eisenhower and Saudi Arabia's King Saud coupled announcement of a long-heralded air base-for-arms deal today with a pledge to oppose any use of force in the Middle East.

Those were the salient points in a joint communique summing up talks which started Jan. 30. The communique, about 600 words long, was issued after Eisenhower had flown to Thomasville, Ga., and Saud had gone to Blair House following a final 95-minute meeting at the White House between the two heads of state.

TO LEAVE CAPITOL
The 55-year-old King flies out of Washington tomorrow aboard the Columbus III, the same plane Eisenhower took today to Thomasville.

The communique applauded "the atmosphere of cordiality" in which Eisenhower and Saud, together with aides, held their consultations.

Their announcement incorporated a boost for Saud as a Middle East leader, a bow in the direction of the "Bandung principles" and applause for Eisenhower's Middle East resolution. But the core of the announcement was the agreement on the Dhahran air base and military assistance.

FIVE YEAR LEASE
This agreement has been an open secret for a week. Under it, the U. S. Air Force will continue using the Dhahran airfield for five more years, and Saudi Arabia will get "military equipment, services and training."

Further, Eisenhower agreed to "consider the provision of economic facilities." Officials said this means Saudi Arabia is slated to get economic aid for development projects.

As for arms aid, the announcement said, "Plans are being made by representatives of both countries for the supply of military equipment, services and training, for the purposes of defense and the maintenance of internal security in the kingdom."

BUYS ARMS
Saudi Arabia buys its guns, tanks and planes from the United States. It wants more, especially jet planes, and hopes to double its 15,000-man force.

No mention was made in the communique of a number of sore points between the two countries. Presumably, these were covered by the final sentence which said, "The two chiefs of state exchanged views on a number of other matters of common interest."

Some of these touchy matters include Saud's refusal to let American soldiers of Jewish origin.

Noted Doctor At Greenville Dies At Age 74

GREENVILLE, Miss., Feb. 8 (UP)—Dr. Paul G. Gamble, 74-year-old surgeon and member of the State Board of Health, died today after a heart attack Wednesday.

Dr. Gamble was one of three physicians who founded the Gamble Brothers and Archer Clinic in 1915. The other two were the late Dr. Hugh A. Gamble and Dr. John Archer.

Dr. Paul Gamble was past president of the Mississippi and Delta Medical Assns. and was a member of the Southern and American Medical Assn. and the southeastern section of the American College of Surgeons.

A native of Sallito, Dr. Gamble studied at Vanderbilt University, the University of Tennessee, the University of Texas and Tulane University and interned at Touro Infirmary at New Orleans.

He was active until his heart attack, which felled him shortly after he performed an operation Wednesday morning.

Survivors include his son, Paul Gamble Jr.; his daughter, Mrs. Dudley Conley Miller; and a grandson, all of Greenville; and two sisters, Mrs. Joe McInnis of Handsboro and Mrs. Harris Crenshaw of Guntown.

Funeral services will be held here Sunday.

MAY RELEASE SATURDAY
Reliable Soviet embassy sources said it made what they called "concrete proposals" on:
1. German reunification.
2. World disarmament.
3. A German-Soviet trade treaty.

4. The entire field of Soviet-German relations which have become increasingly colder since Adenauer visited Moscow in September, 1955, and re-established diplomatic relations.

The note was the first personal message from Bulganin to the ardently anti-Communist German chancellor, Soviet Ambassador Smirnov, who left Bonn for Moscow Dec. 22 and returned Thursday, handed the message to Adenauer at a 50-minute conference Friday morning. It was the second time Adenauer and Smirnov had met.

Soviet sources emphasized that the note stressed the importance of improved Russian-German relations in bringing about a general relaxation in the cold war.

Trade appeared to be the key to the note on the basis of what the Soviet sources said. It was reported that a separate (Continued On Second Page)

Amendments Questioned By Georgia

ATLANTA, Feb. 8 (UP)—The Georgia Senate today raised another legal point in its continuing battle for segregation with a resolution asking Congress to declare null and void the 14th and 15th amendments to the U. S. constitution.

In a privileged resolution, which was adopted unanimously with no fanfare or debate, the body declared that the two amendments were improperly constituted and never legally adopted.

The 14th amendment, the so-called due process amendment and the 15th, which deals with voting rights, have been used in efforts to break down segregation in the South.

FIRST OF TYPE
Sen. Peyton Hawes of Elberton, administration floor leader who introduced the resolution, said it was the first direct attempt by any state to invalidate actions of the post-civil war congresses.

"This is an offensive action," Hawes said. "We've been on the defensive long enough. And we hope other southern states will follow."

The Senate resolution was sent to President Eisenhower, Chief Justice Earl Warren, congressional leaders and all Georgia congressmen.

It declared that "hostile majorities" of the "improperly constituted" 39th, 40th and 41st Congresses (Continued On Second Page)

21 FLOORS
NEW YORK, Feb. 8 (UP)—Two workmen tumbled into an elevator shaft in West Harlem today. One saved himself four floors down with a trapeze-like maneuver. The other plunged 21 floors to the bottom but walked away alive.

The elevator cables installed by the pair saved their lives. Explained one of them, Donald McKee, 23:

"Whenever we go on a job, we always look to see what we can grab if anything happens, so I had the cables in mind. I started grabbing for the cables and when I grabbed one I held."

Fellow-workers on the job were amazed that the two men survived.

McKee and William Vessialiades, 35, were installing elevator cables on the 21st floor of a building under construction. One of the cables suddenly whiplashed away from them.

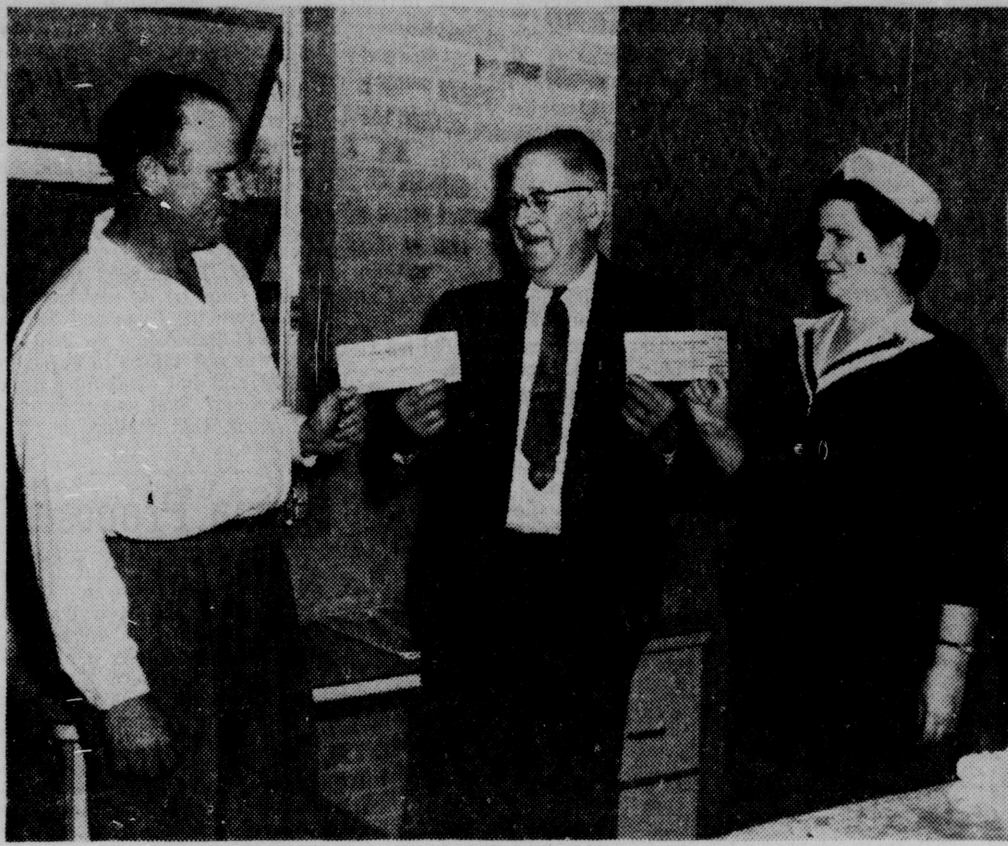

Vessialiades was jerked forward into McKee, who plunged into the shaft. An instant later Vessialiades toppled in, too.

McKee grabbed one of the fixed cables in the shaft and swung himself to safety on the 17th floor. Vessialiades fell past him head first, frantically opening with his hands for the cables.

Farther down, Vessialiades managed to wrap his legs around a cable and slow his fall. Just before he hit the bottom of the shaft he got his hands on a second cable, righted himself and eased the rest of the way down. He suffered leg and thigh lacerations.

Vessialiades was taken to a hospital and put under sedatives, his nerves shaken by the narrow escape from death. However, McKee stayed on the job, remarking:

"If I went home today, I might not come back tomorrow."

BECK ARRIVES IN ENGLAND; DENIES AVOIDING SENATE
LONDON, Feb. 8 (UP)—American Teamsters Union chief Dave Beck angrily denied on his arrival here from Nassau Friday that he was dodging a U. S. Senate labor racketeering investigation.

Beck said that he planned to return to the United States at the end of March. "I'll be only too ready to appear before the committee" at that time, he said. "Why should I dodge?" he asked newsmen at London Airport. "I've got nothing to hide."

ANGERED BY QUESTION
Beck was angered by the questions fired at him and shot back his answers during the brief news conference.

The Senate Racketeering Investigation subcommittee under the chairmanship of John L. McClellan (D-Ark.) was upset when it learned Beck had left the country for Nassau en route to Britain.

McClellan said in Washington that union spokesmen promised that the \$50,000-a-year teamster chief would return for questioning.

His trip abroad is paid for by his union under terms of the teamsters constitution approved at the 1952 union convention which elected Beck president.

Beck said he had "a lot of work to do" in London, Paris, Rome and Geneva.

"If I waited for them (Senate investigators) I might be sitting down doing nothing for six weeks," he said.

U.S. GRAND JURY ORDERED TO PROBE HIKE IN OIL PRICE
WASHINGTON, Feb. 8 (UP)—The Justice Department Friday ordered a federal grand jury investigation of alleged anti-trust violations in the recent round of oil and gasoline price increases.

The Justice Department filed a motion for the inquiry in federal district court at nearby Alexandria, Va. Federal Judge Albert V. Bryan said he would order a special grand jury to meet March 4.

Twenty-six are now in the club membership.

Colonel Peters wrote that the government of the country is solidly back of the organization. The club named plans to sponsor student clubs in Singapore, Penang and Laos. It is reported that Hong Kong has a large and active (Continued On Fifth Page)

SENTENCE SLATED
U. S. Dist. Judge Richmond B. Keck, who received the verdict, said he would pronounce sentence in two or three weeks. The trial lasted four days.

The maximum penalty for contempt of Congress is a year in jail and a \$1,000 fine.

After hearing the verdict, Liveright told reporters he still "believes very fervently in the principles on which I stood last March when I withheld the answers to certain questions."

Liveright, without invoking the Fifth Amendment privilege against self-incrimination, challenged the power of a one-man subcommittee consisting of Sen. Eastland (D-Miss.) to inquire into his political beliefs, into any other personal and private affairs, and into his associational activities.

"I feel quite convinced that ultimately higher courts of this country and the people will agree with (Continued On Second Page)

BECK ARRIVES IN ENGLAND; DENIES AVOIDING SENATE
LONDON, Feb. 8 (UP)—American Teamsters Union chief Dave Beck angrily denied on his arrival here from Nassau Friday that he was dodging a U. S. Senate labor racketeering investigation.

Beck said that he planned to return to the United States at the end of March. "I'll be only too ready to appear before the committee" at that time, he said. "Why should I dodge?" he asked newsmen at London Airport. "I've got nothing to hide."

ANGERED BY QUESTION
Beck was angered by the questions fired at him and shot back his answers during the brief news conference.

The Senate Racketeering Investigation subcommittee under the chairmanship of John L. McClellan (D-Ark.) was upset when it learned Beck had left the country for Nassau en route to Britain.

McClellan said in Washington that union spokesmen promised that the \$50,000-a-year teamster chief would return for questioning.

His trip abroad is paid for by his union under terms of the teamsters constitution approved at the 1952 union convention which elected Beck president.

Beck said he had "a lot of work to do" in London, Paris, Rome and Geneva.

"If I waited for them (Senate investigators) I might be sitting down doing nothing for six weeks," he said.

U.S. GRAND JURY ORDERED TO PROBE HIKE IN OIL PRICE
WASHINGTON, Feb. 8 (UP)—The Justice Department Friday ordered a federal grand jury investigation of alleged anti-trust violations in the recent round of oil and gasoline price increases.

The Justice Department filed a motion for the inquiry in federal district court at nearby Alexandria, Va. Federal Judge Albert V. Bryan said he would order a special grand jury to meet March 4.

The department said the investigation would cover "alleged violations of anti-trust laws by companies, corporations and persons engaged in the distribution, production, storage, purchase and sale of petroleum and petroleum products."

CLUES DOWN:
1. MATCH, certainly, since babies are always apt to put such things in their mouths. It's safe enough to let baby get hold of your WATCH, if it is a pocket WATCH, and you keep it on its chain. CATCH, LATCH or PATCH are not as good.

2. LEERS is the stronger answer. It is the CROWD that would, in certain circumstances, JEER at the PLAYER. To PEER is unlikely to cause trouble.

3. SPRAIN, yes; but mountain-climbing inevitably involves STRAIN hence the effects of this are anticipated.

Liveright

(Continued From First Page)

these principles," he said.

In his instructions to the jury, Judge Keech said "no inference of guilt" was to be drawn from the fact Liveright did not testify in his own behalf.

Also, he said, Liveright's motive for not answering questions was not material—"whether done in good faith or in bad faith."

The judge's rulings on points of law left only these questions for the jury to consider: (1) whether the questions mentioned in the indictment were asked; (2) whether Liveright refused to answer; (3) if so, was his refusal deliberate and intentional.

Keech told the jury Eastland was "a duly constituted subcommittee," and that the questions put to Liveright were pertinent. Pertinency is an essential element in a contempt prosecution.

Contempt of Congress in the legal sense, Keech told the jury, "does not mean a personal dislike or animosity toward Congress or any of its members."

Only one witness was called by the government, none by the defense. For the most part the trial consisted of legal arguments with the jury excused from the courtroom.

Robert Morris, chief counsel of the Senate internal security subcommittee, testified a "confidential informant" gave information that Liveright had been a secret Communist in New York and that party "overlords" sent him on a mission to the South.

The jury did not hear this testimony, since it dealt with legal issues. And Keech told the jury: "There is no evidence before the court that the defendant has been connected with the Communist Party at any time or at any place."

After the jury of seven women and five men filed out of the courtroom, Liveright's attorney, Harry I. Rand, asked that Liveright be allowed to make a statement. Judge Keech suggested the appropriate time for that will be when he is up for sentencing.

"I'll be glad to hear him at that time," Keech said.

In his closing argument to the jury, Rand said Liveright's refusal to answer some of the questions put to him—"are you now an active Communist?" for example—was on "grounds of principle and conscience—deep convictions of conscience."

Judge Keech yesterday acquitted Liveright on a charge of unlawfully refusing to say whether his wife, Betty, was a Communist. He did this, he said, "because of the confidential relationship between husband and wife."

Tigers Taking Many Lives In West Vietnam

SAIGON, Feb. 8 (UP)—Tigers have killed 42 persons since September on farms in West Central Vietnam, reports reaching here said Friday. The reports said the tigers had turned paths leading from villages and rice paddies in the high plains region into a death trap for farm workers.

Snow is expected through Rockies and mountains of Northwest and in higher elevations of Pacific coast ranges, while rain is due along Pacific coastal plain from central California northward. It will continue warm through the Southeast while some colder air may move into northern Plains. (AP Wirephoto Map)

U.S. Grand Jury

(Continued From First Page)

along with increases in fuel oil and other petroleum products.

Three congressional committees—one in the House and two in the Senate—also are studying the price increases.

Hansen has emphasized that the Justice Department has no jurisdiction over prices as such but wants to determine whether producers made an under-the-table agreement to raise prices in unison.

He said collusion to raise prices on an industry-wide basis would constitute illegal price-fixing in violation of anti-trust laws.

The National Oil Marketers Association, representing middlemen in oil production and distribution, had requested such an inquiry last month.

The House Commerce Committee, one of the congressional groups investigating the oil industry, plans to question Interior Department officials next week about an administration "gag" on official discussion of the price rises.

Hugh Stewart, director of the department's office of oil, revealed the gag instructions late Thursday when he refused to say whether the increases were justified.

Stewart said the instructions were issued by Interior Secretary Fred A. Seaton and assistant secretary Felix E. Wormser. He indicated however, that it was a namesake as Franklin Delano Perkins and Truman Bentley.

Woman, Four Students Killed

FORT GAY, W.Va., Feb. 8 (AP)—A passenger train, running late, struck an automobile rushing four children back to school after noon recess today. All four and the mother of one of the youngsters were killed.

Forty-five miles further east, at Chatterbox, W.Va., the same locomotive, pulling the Norfolk and Western's eastbound Powhatan Arrow, pulled into a truck loaded with cinder block.

The truck was demolished. Anderson Hager, 65, of McCarr, Ky., suffered a broken nose and face cuts. He was admitted to a Williamson hospital.

The driver, Ralph Dotson, 50, also of McCarr, escaped injury.

The dead in the crash here, identified by Principal Noval A. Smith of Fort Gay High School, were: Mrs. Beatrice Higgins, 39, her daughter Deloris, 17, a junior and drum major in the high school band; Lois Ann Ratcliff, 13, and David Carroll, 17.

The accident occurred at a crossing 300 yards from the high school.

Amendments

(Continued From First Page)

gresses which proposed and adopted the controversial amendments, refused to seat duly elected representatives from the former Confederate States.

The congresses were "nothing more than private assemblies unlawfully attempting to exercise the legislative power of the United States," the resolution said.

"Therefore, be it resolved," it continued, "that the Congress of the United States is hereby urged to declare that the exclusion of the southern senators and representatives from the 39th, 40th and 41st Congresses were malignant acts of arbitrary power and rendered those Congresses invalidly constituted."

The Senate postponed until Monday consideration on the last of the administration's four segregation bills—a compromise House measure to suspend the compulsory school attendance law in case of an emergency.

Hawes predicted the bill would get quick passage Monday. He had objected to the original bill but agreed to a substitute which permits the governor to suspend the law in any portion of the state where a school integration attempt is made.

There was no comment in Washington legal circles on the Georgia Senate's action.

The 20th Congress, which submitted the 14th amendment to the various states June 16, 1866, was essentially a war Congress. The amendment was frankly designed to slow the re-admission of the Southern states and contained the conditions under which Congress was willing to let the seceding states return.

The Southern states upon defeat had re-organized and by December, 1865, had re-elected congressmen to serve in Congress.

The rapidly with which the Southern states acted angered the Northern "radicals" in Congress and they set up a 15-man committee to screen the returning states' credentials.

Historians say that this committee clearly did not intend to let the Southern states return until the 14th amendment had been ratified.

Meanwhile, by proclamation Presidents Lincoln and Johnson agreed to let states return when 10 per cent of the population had taken a loyalty oath.

Even so, Congress had said that those who fought on the Southern side could not vote or hold office.

This situation, according to historians, gave rise to the so-called "carpet bagger" governments dominated in large measure by white men exercising influence over votes of newly freed Negroes.

By 1868 the 14th amendment had been approved by 23 Northern states though Kentucky, Maryland and 10 Southern states had taken no action. On July 28 of this year the secretary of state proclaimed the amendment ratified.

In time the Southern states under "carpetbag" governments ratified the amendment and returned to the union.

As for the 15th amendment substantially the same situation prevailed. Such congressmen as the South had were the products of the carpetbag regimes.

The 15th amendment as submitted to the states by the 40th Congress Feb. 26, 1869. It was ratified by 31 of the 37 states and was declared a part of the constitution March 30, 1870.

MICKEY

MEXICO CITY (AP)—A final night cap almost put a young worker to sleep for keeps. He picked up a bottle he thought contained rum; took a deep drink. It was DDT, a powerful insecticide.

Two Trains Collide; One Man Is Dead

RIPLEY, N.Y., Feb. 8 (AP)—An eastbound New York Central passenger train ran into the side of a westbound freight crossing in front of it late today. The passenger engineer was killed, two train crewmen were injured slightly, and one passenger was shaken up.

Wreckage blocked the Central's main line just west of the station in this village in southwestern New York near the Pennsylvania state line.

The railroad said J. V. Miller of Cleveland died in the cab of his diesel locomotive.

The injured crewmen did not require hospital treatment.

Police said one passenger, Edmund A. Crowe, 26, of Wesleyville, Pa., was shaken up.

The three passenger cars on the five-car train, the Easterner bound from Cleveland to New York City, remained upright. Two mail cars and the two-unit diesel overturned.

The chief dispatcher at Erie, Pa., said the freight was crossing from the track on which the passenger train was approaching to the other track of the two-track line. The Easterner plowed into the side of the freight at an angle, he said, spilling about a dozen freight cars over the right-of-way.

First reports by police had been that the train hit an open switch.

UN Move To

(Continued From First Page)

sanctions—military, economic or diplomatic discipline of Israel—said it was not aware of any move in that direction.

A U.S. spokesman said the delegation was "waiting for a report from the secretary-general on the next steps in the Middle East."

Rifai told Hammarik that it was hoped he would have such a report by the beginning of the week.

"It is not correct," the U.S. spokesman said, "to describe us as taking any initiative. In order to do that, we would have to have more official information than we do."

He referred all inquiries on the Eisenhower-Ben-Gurion exchange to the White House and said he had no indication that the President had sent a message to Egypt similar to that dispatched to Israel.

In Israel, Eytan said the government stood by its position that retreat from the Gaza and Aqaba strips was impossible so long as Egypt was not willing to agree to "mutual and full abstention from belligerency." That was the stumbling block that stalled negotiations here.

Russia Proposes

along with increases in fuel oil and other petroleum products. Three congressional committees—one in the House and two in the Senate—also are studying the price increases.

Hansen has emphasized that the Justice Department has no jurisdiction over prices as such but wants to determine whether producers made an under-the-table agreement to raise prices in unison.

He said collusion to raise prices on an industry-wide bases would constitute illegal price-fixing in violation of anti-trust laws.

The National Oil Marketers Association, representing middlemen in oil production and distribution, had requested such an inquiry last month.

The House Commerce Committee, one of the congressional groups investigating the oil industry, plans to question Interior Department officials next week about an administration "gag" on official discussion of the price rises.

Hugh Stewart, director of the department's office of oil, revealed the gag instructions late Thursday when he refused to say whether the increases were justified.

Stewart said the instructions were issued by Interior Secretary Fred A. Seaton and assistant secretary Felix E. Wormser. He indicated, however, that it was a White House decision.

GARDEN CITY, Kan. (AP)—Two men arraigned here on federal charges of driving a stolen car across a state line gave their names as Franklin Delano Perkins and Truman Bentley.

Amendments

(Continued From First Page)

gresses which proposed and adopted the controversial amendments, refused to seat duly elected representatives from the former Confederate States.

The congresses were "nothing more than private assemblages unlawfully attempting to exercise the legislative power of the United States," the resolution said.

"Therefore, be it resolved," it continued, "that the Congress of the United States is hereby urged to declare that the exclusion of the southern senators and representatives from the 39th, 40th and 41st Congresses were malignant acts of arbitrary power and rendered those Congresses invalidly constituted."

The Senate postponed until Monday consideration on the last of the administration's four segregation bills—a compromise House measure to suspend the compulsory school attendance law in case of an emergency.

Haves predicted the bill would get quick passage Monday. He had objected to the original bill but agreed to a substitute which permits the governor to suspend the law in any portion of the state where a school integration attempt is made.

There was no comment in Washington legal circles on the Georgia Senate's action.

The 39th Congress, which submitted the 14th amendment to the various states June 16, 1866, was essentially a war Congress. The amendment was frankly designed to slow the re-admission of the Southern states and contained the conditions under which Congress was willing to let the seceding states return.

The Southern states upon defeat had re-organized and by December, 1865, had re-elected congressmen to serve in Congress.

The rapidity with which the Southern states acted angered the Northern "radicals" in Congress and they set up a 15-man committee to screen the returning states' credentials.

Historians say that this committee clearly did not intend to let the Southern states return until the 14th amendment had been ratified.

Meanwhile, by proclamation Presidents Lincoln and Johnson agreed to let states return when 10 per cent of the population had taken a loyalty oath.

Even so, Congress had said that those who fought on the Southern side could not vote or hold office.

This situation, according to historians, gave rise to the so-called "carpetbagger" governments dominated in large measure by white men exercising influence over votes of newly freed Negroes.

By 1868 the 14th amendment had been approved by 23 Northern states though Kentucky, Maryland and 10 Southern states had taken no action. On July 28 of this year the secretary of state proclaimed the amendment ratified.

In time the Southern states under "carpetbagger" governments ratified the amendment and returned to the union.

As for the 15th amendment substantially the same situation prevailed. Such congressmen as the South had were the products of the carpetbagger regimes.

The 15th amendment as submitted to the states by the 40th Congress Feb. 26, 1869. It was ratified by 31 of the 37 states and was declared a part of the constitution March 30, 1870.

MICKEY
MEXICO CITY (AP)—A final night cap almost put a young worker to sleep for keeps. He picked up a bottle he thought contained rum; took a deep drink. It was DDT, a powerful insecticide.

Two Trains Collide; One Man Is Dead

RIPLEY, N.Y., Feb. 8 (AP)—An eastbound New York Central passenger train ran into the side of a westbound freight crossing in front of it late today. The passenger engineer was killed, two train crewmen were injured slightly, and one passenger was shaken up.

Wreckage blocked the Central's main line just west of the station in this village in southwestern New York near the Pennsylvania state line.

The railroad said J. V. Miller of Cleveland died in the cab of his diesel locomotive.

The injured crewmen did not require hospital treatment.

Police said one passenger, Edmund A. Crowe, 26, of Wesleyville, Pa., was shaken up.

The three passenger cars on the five-car train, the Easterner bound from Cleveland to New York City, remained upright. Two mail cars and the two-unit diesel overturned.

The chief dispatcher at Erie, Pa., said the freight was crossing from the track on which the passenger train was approaching to the other track of the two-track line. The Easterner plowed into the side of the freight at an angle, he said, spilling about a dozen freight cars over the right-of-way.

First reports by police had been that the train hit an open switch.

UN Move To

(Continued From First Page)

sanctions—military, economic or diplomatic discipline of Israel—said it was not aware of any move in that direction.

A U.S. spokesman said the delegation was "waiting for a report from the secretary-general on the next steps in the Middle East."

Rifai told Hammarskjold it was hoped he would have such a report by the beginning of the week.

"It is not correct," the U.S. spokesman said, "to describe us as taking any initiative. In order to do that, we would have to have more official information than we do."

He referred all inquiries on the Eisenhower-Ben-Gurion exchange to the White House and said he had no indication that the President had sent a message to Egypt similar to that dispatched to Israel.

In Israel, Eytan said the government stood by its position that retreat from the Gaza and Aqaba strips was impossible so long as Egypt was not willing to agree to "mutual and full abstention from belligerency." That was the stumbling block that stalled negotiations here.

Russia Proposes

British Deny Rumors Of Rift In British Royal Family

LONDON, Feb. 8 (AP)—Rumors printed in the United States of discord between Queen Elizabeth II and her husband brought denials tonight from Buckingham Palace.

Cmdr. Richard Colville, press secretary, was asked about a dispatch to the Baltimore Sun by its London correspondent — report that the Duke and Duchess of Edinburgh were “talking openly of a rift” between the royal couple.

Colville replied: “It is quite untrue that there is any rift between the Queen and the Duke of Edinburgh.”

The Sun’s correspondent, Joan Graham, said in her dispatch: “The whisper started last summer. It was then hinted by the know-it-alls that the Duke of Edinburgh had more than a passing interest in an unnamed woman and was meeting her regularly in the private apartment of Baron, the court photographer who died of heart trouble at the age of 46 last fall.”

The story said fuel was added to the talk when it was planned for Baron to go with the Duke on a four-month, round-the-world tour, and that some gossips thought Edinburgh was being sent away “to cool down.”

It added that “the rumors are now percolating down to the British masses” though nothing had appeared in the British press.

Whispered rumors that was not perfect in the marriage of the 31-year-old Queen and the dashing Duke have been current in some circles in London for two years and more. None of the rumors has been supported by tangible evidence.

For example, one London journalist speculated privately on discord between the Queen, and her 35-year-old husband after having watched the couple in the royal box at the Ascot race course. The Duke, he told friends, devoted himself almost exclusively to guests and had hardly a word for his wife.

Gossip about friction between the couple gained currency when the Duke’s equerry, Lt. Cmdr. Michael Parker, resigned unexpectedly last Monday.

Parker quit after his wife disclosed that she and her 36-year-old husband had been separated for several months.

The palace, with the prestige and dignity of the monarchy at stake, apparently felt it could not be linked in any way with a man who might soon be in the divorce courts.

Parker’s resignation led to fresh talk to the effect that the Duke, as well as his equerry, was having domestic trouble.

There have been no reports in the British press of discord in the royal family, but newspapers have given more than usual prominence to stories concerning Parker’s resignation.

Parker and the Duke are close personal friends. The equerry, an Australian, met Edinburgh during World War II when both were on active naval service.

There has been some private speculation that the Queen may have commanded the Duke, against his will, to accept Parker’s resignation. This talk, too, lacked supporting evidence.

Parker and the Duke were both aboard the royal yacht Britannia in the Mediterranean, near the end of the Duke’s world tour when Parker’s resignation was disclosed. The Queen was in London. The announcement followed radio telephone talks between the Britannia and the palace.

The Duke and the Queen have been apart since Edinburgh started on his tour last Oct. 15. He opened the Olympic games at Melbourne and then called at several outposts of the British Empire, including New Zealand, New Guinea, Gambia and the Falkland Islands.

The royal couple are to be reunited next weekend in Lisbon at the start of an official visit to Portugal, one of Britain’s traditional allies.

In the Duke’s absence the British press has centered some attention on the couple’s 1-year-old son, Prince Charles. There has been talk about hardships for a young boy deprived of the company of his father.

Camellia Show Will Continue Through Today

The second annual camellia show currently being held in the lobby of the Central Savings Bank at 300 DeSiard street held hundreds of visitors awed by the beauty of the blossoms yesterday.

The lobby is filled with over 1,000 blooms from pure white to a new hybrid purple. A new camellia was named for the wife of the bank’s president, Mrs. John M. Breard.

Breard said yesterday afternoon that the bank is proud of the acclaim given the show last year and the interest the people of Monroe have shown. All the camellias in the show are “home grown,” he said, and perhaps if one would drive through Monroe he could see many of the same type blooms in gardens throughout the city.

The lobby of the bank will remain open again this afternoon making it possible for the public to see the extraordinary array of beauty.

Northwest Area Leaders Attend Fire Conference

MINDEN, Feb. 8 (Special) — More than 420 Northeast Louisiana business and public leaders at Caney Lake tonight were told they hold the key to forestry success in their hands.

The occasion was the Northwest Louisiana Forest Fire Conference, which drew leaders from a six-parish area, including several persons from Ouachita.

A similar conference will be held in West Monroe early in March.

Afternoon activities included forestry tours enroute to the lake area, displays of fire fighting and reforestation equipment and a barbecue followed by short speeches.

Heading the list of speakers was State Forester James E. Mixon, who named the most important advancement in forest fire control the fact that land owners have made available 10 additional forest fire crews for use at any time.

He reported that one out of every five forest fires in Northwest Louisiana were investigated and two out of three ended up in arrests.

Also speaking were C. H. Jeter, chairman of the Louisiana Forest Commission, and Warren E. Dierich of Minden.

Conference chairman C. O. Holland minced no words in challenging the leaders “to take a more active part in the forestry program of this area and stand up for justice and forest fire prosecution.”

Man Is Sentenced In Homicide Case

A 19-year-old Eros Negro was sentenced in Fourth District Court yesterday to four years in Angola after an earlier negligent homicide conviction.

The youth, Audley M. Johnson, was found guilty by a five-man jury Tuesday in the death of Abraham Vallery, Sr., on August 19, 1956. He was remanded for sentencing until yesterday.

State officials in the case contended that Johnson caused the head-on collision which took the life of Vallery. The smashup occurred about 11 miles west of West Monroe on U.S. Highway 80.

The Negro was indicted on the negligent homicide charge by the Ouachita parish grand jury in October of 1956.

February 10-16 is Crime Prevention Week. Please observe it by preventing a crime or two if you can, or at least by not committing any crimes.

British Deny Rumors Of Rift In British Royal Family

LONDON, Feb. 8 (AP)—Rumors printed in the United States of discord between Queen Elizabeth II and her husband brought denials tonight from Buckingham Palace.

Cmdr. Richard Colville, press secretary, was asked about a dispatch to the Baltimore Sun by its London correspondent reporting that cafe society folk were "talking openly of a rift" between the royal couple.

Colville replied: "It is quite untrue that there is any rift between the Queen and the Duke of Edinburgh."

The Sun's correspondent, Joan Graham, said in her dispatch: "The whisper started last summer. It was then hinted by the know-it-alls that the Duke of Ed-

inburgh had more than a passing interest in an unnamed woman and was meeting her regularly in the private apartment of Baron, the court photographer who died of heart trouble at the age of 46 last fall."

The story said fuel was added to the talk when it was planned for Baron to go with the Duke on a four-month, round-the-world tour, and that some gossips thought Edinburgh was being sent away "to cool down."

It added that "the rumors are now percolating down to the British masses" though nothing had appeared in the British press.

Whispered rumors that all was not perfect in the marriage of the 31-year-old Queen and the dashing Duke have been current in some circles in London for two years and more. None of the rumors has been supported by tangible evidence.

F. B. I. Head Wants To Print Juveniles' Names

The proposal by J. Edgar Hoover, long-time head of the Federal Bureau of Investigation and long regarded as one of the nation's foremost authorities on crime prevention, to publish the names of juvenile offenders in newspapers came as something of a surprise and undoubtedly will meet mixed reaction.

There is no doubt that Hoover's proposal will get a lot of applause and plenty of facts will be brought forward to strengthen his position.

As the F. B. I. chief points out, publicity is one of the things offenders and criminals fear most. If drunk drivers would not have one-half as much dread of arrest and conviction, payment of a fine, while hard on the pocketbook, is nothing to compare with the humiliation and embarrassment suffered by an offender when his crime becomes known to the public.

Hoover's own words in describing the situation were as follows:

"Are we to stand idly by while fierce young hoodlums—too often and too long harbored under the glossy misnomer of juvenile delinquents—roam our streets and desecrate our communities? If we do, America might well witness a resurgence of the brutal criminality and mobsterism of a past era."

"Gang-style ferocity—once the evil domain of hardened adult criminals—now centers chiefly in cliques of teenage brigands. Their individual and gang exploits rival the savagery of the veteran desperadoes of by gone days."

"... No longer can we tolerate the 'tender years' alibi for youthful lawbreaking. This is certainly no time for police to be shackled by illogical restraints based on unreasoned sympathy for these young thugs."

"Publishing the names as well as crimes for public scrutiny, release of past records to appropriate law enforcement officials and fingerprinting for future identification are all necessary procedures in the war on the flagrant violator, regardless of age. Local police and citizens have a right to know the identities of the potential threats to public order within their communities."

As far as Louisiana is concerned, however, Hoover's proposal, regardless of how good it might be, could be extremely difficult to put into effect.

Under present Louisiana statutes, a juvenile cannot be taken into open court unless he is accused of a capital crime, such as murder or rape. Law specifically provides that the juvenile must appear before a judge in privacy if he is accused of an offense. The judge is forbidden to allow persons not connected with the court to be present when the hearings are held.

Some legal authorities take this to mean that the judge is prohibited from revealing the names of any of the young offenders and that the same ban applies to other law enforcement officers.

BASCOM TIMMONS REPORTS

High Ranking Army Officers Again Have Bear By Tail And Can't Let Go

High ranking army officers once again have a bear by the tail and can't let go. They have taken out after the National Guard, long held in secret contempt by most regular army brass, using Secretary of Defense Charles E. Wilson as their spokesmen.

"This is a controversy so old that it may be said to extend almost back to the Revolutionary War, which was fought by troops with no more training — and in many instances not as much — as is now given the National Guardsmen in the 11 weeks basic period which figures in the argument."

The unusual part of it this time is that in some respects Secretary Wilson is right, if his remarks are viewed in the light of certain circumstances. Undoubtedly some young men figured out that they had a better chance of staying home during the Korean war by joining the Guard; on the other hand several divisions bearing guard members — such as the famed 45th — made outstanding records in Korea.

Wilson's remarks about the guard delivered with his usual bluntness, brought an immediate defense from National Guard leaders, whose case by a coincidence received timely support in a report from the Continental Army Command, prepared by regular army officers, which revealed that tests of both National Guard and regular army units put their records about on a par. That is, expected to kill or hold up the Wilson dictum that the Guard recruits, beginning April 1, must take six months basic training, which now lasts 11 weeks.

The present law adopted by Congress in 1955 was admittedly an all-round compromise. Like previous legislation to establish a "ready reserve" of trained troops for an emergency, it represented a detour around universal military training, which has too much or organized opposition to become law. The President, on giving it, expressed dislike of provisions pertaining to the National Guard. He also said the bill should have authorized a draft to fill up Guard regiments which did not have enough volunteers.

The House defeated an amendment by Rep. Adam C. Powell (Dem., N. Y.) to ban segregation in Guard units. The state character of its units was thus preserved, since non-segregated organizations could not exist in most southern states.

The debate now settles down to whether guard enlistees need six months of basic training, which is the regular army's idea, despite the recent report indicating that they do well under the present 11 weeks system with one night a week after that and 15 days summer field exercises for a two year period.

Members of Congress who have discussed the question incline to the view of National Guard leaders that six months basic would reduce enlistments to a point where the overall strength would be short of the 400,000 authorized.

The National Guard is as American as ham and eggs, and some-times about as informal, and its fighting record doesn't brook much criticism. In all three wars

If this position is correct, it would require a change in the Louisiana statutes before any general publishing of the names of juvenile offenders could be put into effect.

Some offenses have occurred in Louisiana which would seem to justify release of the names of those responsible. One such offense occurred when a bolt from a "bump" gun was fired recently through a window of the home of a prominent resident. On the whole, however, smaller cities are more fortunate than the larger ones in that there is scant opportunity for organized gangs to operate for any length of time.

Druggists' Position On Advertising Is Explained

Clarification of their position regarding the advertising of drugs was asked Thursday by local pharmacists following publication of an editorial in Thursday's Monroe Morning World.

Druggists pointed out that they have no objection to the advertising of any drugs other than prescription drugs. On the other hand, they favor the advertising of non-prescription drugs, or those that can be sold over the counter without a doctor's prescription.

The druggists stated that their objection to advertising the prices of prescription drugs involves the matter of substitutions. They said that in many instances drugs of virtually the same kind, but cheaper in price and lower in quality, can be substituted for the ingredients prescribed by the physician.

Objection was also made to the advertising of such prescription drugs as pheno-barbital and other habit-forming preparations requiring prescriptions. One druggist said that non-certified pheno-barbital tablets can be purchased at one-tenth the cost of the certified tablets. Druggist conforming to the code of conduct calling for the use of only certified drugs believe it is unfair to allow druggists selling the non-certified drugs to advertise them at a price far below those that must be charged for the certified drugs.

Druggist pointed out that the elimination of such a practice is important to the welfare of the people who need the drugs for sickness. They pointed out that the uncertified drugs will not accomplish the job as they should.

'New Look' Screwup?

Word from Paris is that the 'new look' will soon make its return. Dior, the fashion czar, has dropped skirts four inches in spring fashions (that's more than last year's can be let out—get it?) and is alleged to have created a "long free look" the silhouette of which he compared to a spiral corkscrew.

This description is an innovation, at any rate. Instead of being willowy, angular or painfully thin, the fashionable female of 1957 will spiral her way down the avenue like a corkscrew.

Radio broadcasting may be only 37 years old, as alleged, but some of the jokes had a long running start.

How Droll!

GEORGE SOKOLSKY'S DAYS

Christians In Middle East Apparently Forgotten In Moslem, Israeli Dispute

In all the discussion concerning the Middle East, as it is now called, the assumption seems to be that the only ones involved are Moslems and the comparatively small number of Jews in Israel. The Christians who live in that part of the world have lived in that area and who have lived in that area for a long time seem to be forgotten altogether. Perhaps the current group of policy-makers in the State Department never heard of them, but in some parts of the area, the earliest Christians founded churches and Paul was on his way to Damascus when he saw the light and was converted.

There must be nearly 10 million Christians of various sects in the vast area which John Foster Dul-

les calls the Middle East. As any census of those countries is unreliable, all figures are guesses. Nevertheless, it is possible to make an appraisal. Some of the Christians who live in these areas who do not accept the Roman Catholic discipline, but belong either to the Byzantine churches, often referred to as Greek Orthodox or simply as Orthodox.

At any rate, there are quite a large number of Christians who when the Turks ruled the Middle East were not usually persecuted but who have had a very difficult time since Nasser's Moslem nationalism has prevailed, supported, as it has been, by the United States and Soviet Russia. It is understandable that Soviet Russia would forget these Christians, for that is an atheist country, but it is difficult to grasp the callousness of the United States which claims to be a Christian country.

Unbelievable production in Egypt particularly the 'Cousins' have had a most difficult time under Nasser who has placed Christian schools under Moslem control. The teaching of Christianity is apparently forbidden.

Ethiopia is a Christian country with a Moslem minority and it is not believable that the Lion of Judah will long ignore the attacks upon Christians so close to his territory. While he regards himself as a descendant of Solomon and the Queen of Sheba, the Negus of Ethiopia nevertheless is devoutly Christian as are most of the people of his country. In Lebanon, the most Western of Middle East countries, Nasser has been conducting an anti-Christian campaign which apparently is being resisted, although the Lebanese have received little support and no encouragement from the Christian West. It might be said that Lebanon has remained as neutral as possible between Egypt and the West, but geographically the country is so situated that neutrality is difficult if not impossible without Western support. Up to now, the United States has favored the Moslems rather than the Christians in the Middle East.

It perhaps is characteristic of the era in which we live that the sole consideration in international relations is a reflex to what the Russians are doing and plan to do. Russia's penetration into the Moslem world is a serious matter and its apparent success in two countries, Egypt and Syria, frightened the policymakers in Washington into an hysterical reaction. The visit of King Saud may have lessened the peril, for King Saud opposes Nasser, the Russian influence will lessen, but King Saud is the big Wahhabi, which is the most rigid sect in Islam, and therefore is not likely to recognize the right of Jew or Christian to life and liberty.

It would be interesting at this point to make inquiries into the United Nations' Declaration of Human Rights and what it amounts to in human relations. There again, there seems to be a number of blind spots, nothing applying to any nations except those which voluntarily conform to U.N. dicta. As the National Youth Organization of Lebanon put it: "We did not fight the French mandate in order to accept an Arab mandate!"

YOUR MONEY'S WORTH

Industrial Giants Build Unbelievable Production

BY SYLVIA PORTER

When are we going to be "saturated" with our own many radios, refrigerators, TV sets, etc. that we just won't enter the market except to replace things that have worn out?

Our industrial giants have, since World War II, created an unbelievable capacity to produce. Our factories and plants are turning out stupendous quantities of goods every second. Year after year, we have been spending our paychecks and borrowing the bills to buy records — smashing totals to the good. . . . Our homes and garages are jammed with things we want but don't absolutely need. . . .

More than 98 per cent of America's families own radios; more than 92 per cent own refrigerators; more than 90 per cent, electric irons.

More than 85 per cent own electric clocks; more than 80 per cent, washing machines.

More than 70 per cent own TV sets, electric toasters, cars. Just these few startling statistics explain why more and more businessmen are worrying about "saturation" and "running out of customers." At a private luncheon yesterday, I heard a nationally-known businessman forecast a "yelling slump" and a major reason for his pessimism is his conviction that we're simply loaded with goods.

Well, my answer is: You and I will never be "saturated" — unless our economy first goes into a tailspin, throws us out of jobs and slashes our buying power.

American business never will run out of customers — unless we lose our confidence in our country's good times and our own prosperity and start dashing for the financial storm cellar.

Putting it another way, the more you and I own of everything from autos to TV, the more we want of everything from autos to TV. And if by chance, you think I'm emphasizing the obvious, you couldn't be more wrong.

What I'm summarizing here is one of the most significant findings that the experts on "Economic psychology" — who are doing pioneering research into what makes the consumer tick — have turned up in modern times.

Consider radios — about as "saturated" a market as you could mention. Yet, sales of radios are running into the millions every year, year after year. Sales of radios actually top sales of most other electrical appliances.

Replacement of old or broken sets? Of course.

But also a factor is the desire of the family which owns one set to have two or three. Also a factor is the desire of the family which once was content with a simple model in the living room for a "Hi Fi" quality set instead,

The simple model is relegated to the bedroom.

Consider refrigerators, another mighty "saturated" market. Yet, sales of refrigerators go into the millions each year too. Replacement? In a good percentage of cases, sure.

But in many others, it's the wish to turn in a still satisfactory model for a bigger one or a more improved one or a more colorful box.

Once we own a product — be it a \$3 appliance or a \$3,000 car — we are a continuous "market" for that product. We may buy a new one because the old breaks down. Or because our financial setup improves or because there's a birthday in the family or because we think we can get a bargain or because we like a new model — or for no special reason at all.

As long as we feel confident, we'll be customers. Only if we become insecure, will we become saturated.

"Appetite," said Rabelais, "comes by eating." And the desire for goods comes by ownership of goods.

(Copyright 1957, The Hall Syndicate, Inc.)

Short Shorts

Authorities are sometimes heartless. In Detroit a person was jailed 90 days for begging, he had \$5.00 in the bank. The poor fellow was doubtless trying to add to his savings as fast as inflation is devaluating it.

So far this winter the weather has been highly unusual — it has been wintry.

Old — timers remember when they got a big kick out of attending Chautauqua and hearing a performer tear into the poem, "Trees," and elocute it to shreds.

"One — tenth of the population, is mentally afflicted," says a college professor who most likely has been hovering around the campus too closely.

REPORT FROM WASHINGTON

Neuberger Seeks To Bar Billboards On Highways

BY HOLMES ALEXANDER

WASHINGTON, D. C. — All you people who have followed Dick Neuberger's (D) political career since he entered the senate in 1954, will be surprised to learn that he is now in the United States to stop saying he never introduced a serious piece of legislation.

The joker a couple of years ago to save the White House squiggles from Ike's golf sticks was held against him, and not without some justification, as typical of his law-writing talents. But it's pretty hard to quarrel with his new bill (S. 963) to keep billboards and other defacements off the 41,000-mile federal highways system which congress voted last session.

He's quite right in saying that the new highways, which will be 13 years in the making, won't be relocated, dedicated to the use of Neuberger's bill is not an outright prohibition. It empowers the secretary of commerce to draw up a set of standards to be offered to the states.

This subject of ugly, inane commercialism is by no means confined to roadways which, in fact, have been systematically cleaned up over the past two decades. Anybody who drives on the modern parkways knows what a treat the landscape engineers have laid before the motorist. Still, the battle isn't entirely won, and congress is not without a duty to give the states a nudge in the right direction. The same duty carries over into the air waves, which are controlled by the federal communications commission, and into the cities where, if given half a chance, the modern version of the street — beggar will venerate you with his microphone for some organized charity. This clearly is something which citizens should deal with locally, but congress could set the best example by putting a stop to it in the federal city of Washington.

Senator Neuberger, a Social Democrat in politics and a friend to private enterprise, has a chance in promoting this bill to re-educate himself and at the same time to make some amends. The senator, who sometimes gets called in this place a day — before — yesterday thinker. He is still baying on the cold trail of robber barons who have been dead for many years. The names that set his voice trembling with emotion are Teddy Roosevelt and Gifford Pinchot who commenced saving our natural resources in the days of the Ottoman Empire and "Man of War."

The lumber company which today would waste a \$10,000 Douglas fir doesn't last long. The idea that public utility firms exist for no other reason than to reap its customers is something that belongs in the writing of Ida Tarbell and Lincoln Steffens.

I am suggesting to Senator Neuberger that this nation of businessmen and industrialists has not stood still for 50 years. Evolution is taking place in esthetics as well as technology. Professor Neuberger, a writer by profession, would be a good man to say so in occasional pieces of legislation.

DR. CRANE SAYS

Woman Is Worried When Husband Grows Secretive

Almost every wife will confront Alma's problem in some form, so women should be forewarned by this case today and try to insure their marital happiness against this menapal "Ponce de Leon Complex" of men. Paste this case in your scrapbook.

Case T-306: Alma R., aged 40, is a jolly housewife who now has a serious worry.

"Dr. Crane, my husband and I have been happily married for 22 years. We have been pals and almost constant companions in work as well as in play. But during the last year or two he has been gradually becoming more secretive.

"He would occasionally stay late at the office to work. And I noticed he didn't seem so interested in kissing me. Oh, he tried to appear the same as usual, but I could detect a subtle change coming over him.

"Finally, I learned that he has developed an infatuation for a girl in the next office. She is a slender, pretty thing just a little over 22.

"Dr. Crane, I don't know what to do. I am so upset and unhappy, my entire world seems topsy-turvy."

Man's Secret Terror
Alma has the advantage over such a temporary paramour, for she shares the civic prestige and social connections with her husband.

Besides, she also knows all his relatives and is the mother of his three children, too. But she's right fire with fire in banishing his secret terror.

For most men enter a menopausal state anywhere from 40 to 60 years of age, in which they grow panicky at the thought of impotence.

Since their hair is growing gray or thinning out on top, and they don't have quite the attractive ardor as at the age of 21, they become frightened.

Then they may flirt with the idea of an affair with another woman. For the very strangeness of the paramour is a tonic to their sexual vigor.

These accusations haven't been true since Dick Neuberger's voice changed, and yet it's a dull afternoon in the senate when he and-or Wayne Morse aren't whooping along the warpath in pursuit of non-existent robber barons at the time as wild Injuns. Even in the long speech to introduce S. 963, the senatorial senator from Oregon could not resist this touch of the Biblical Pharisee:

"I am proud to say that when I ran for the senate in 1954, I practiced what I preached. . . . Not a single billboard was ever purchased in my behalf by the committee backing my candidacy. Signboards advertising my name dotted Oregon from the Snake River to the sea, but not one such sign heralded the candidacy of Richard L. Neuberger."

Well, it's my opinion that Richard L. Neuberger ought to stop being Little Lord Fauntleroy and bring himself up to date. A man with Neuberger's energy and access to the public attention could leave a mark on his generation as Gifford Pinchot did on his. Neuberger could begin by accentuating the positive instead of the negative in American progress. We are in a time when robber companies play us concert music in our homes, when aluminum firms bring us Shakespeare and when brewers of malt liquors provide us with the wholesome American sport of baseball on our TV screens. It's true that many — but not all — do so at the terrible price of deflating tripe in our faces between acts and innings. But the progress that these indoor hucksters have achieved in less than a decade is stupendous.

Why can't the outdoor advertisers go and do likewise? If I were the author of S. 963, I would think a great opportunity was beckoning. For instance, the mileposts and historical markers along the highways are generally paid for by the state out of the gasoline tax dollar. Why not sell this space to advertisers? The shrubbery, the sod, the trees and the flowers along the highways are there at public expense. Why should they not be there at public profit? It is possible to note tastefully and unobtrusively that the speed limit is 50 miles per hour, by courtesy of an oil company rather than by order of the state roads commission.

I am suggesting to Senator Neuberger that this nation of businessmen and industrialists has not stood still for 50 years. Evolution is taking place in esthetics as well as technology. Professor Neuberger, a writer by profession, would be a good man to say so in occasional pieces of legislation.

Editorials

F. B. I. Head Wants To Print Juveniles' Names

The proposal by J. Edgar Hoover, long-time head of the Federal Bureau of Investigation and long regarded as one of the nation's foremost authorities on crime prevention, to publish the names of juvenile offenders in newspapers came as something of a surprise and undoubtedly will meet mixed reaction.

There is no doubt that Hoover's proposal will get a lot of applause and plenty of facts will be brought forward to strengthen his position.

As the F. B. I. chief points out, publicity is one of the things offenders and criminals fear most. If drunk drivers could escape with nothing but a fine they would not have one-half as much dread of arrest and conviction. Payment of a fine, while hard on the pocketbook, is nothing to compare with the humiliation and embarrassment suffered by an offender when his crime becomes known to the public.

Hoover's own words in describing the situation were as follows:

"Are we to stand idly by while fierce young hoodlums—too often and too long harbored under the glossy misnomer of juvenile delinquents—roam our streets and desecrate our communities? If we do, America might well witness a resurgence of the brutal criminality and mobsterism of a past era."

"Gang-style ferocity—once the evil domain of hardened adult criminals—now centers chiefly in cliques of teenage brigands. Their individual and gang exploits rival the savagery of the veteran desperadoes of by gone days.

"... No longer can we tolerate the 'tender years' alibi for youthful lawbreaking. This is certainly no time for police to be shackled by illogical restraints based on unreasoned sympathy for these young thugs.

"Publishing the names as well as crimes for public scrutiny, release of past records to appropriate law enforcement officials and fingerprinting for future identification are all necessary procedures in the war on the flagrant violator, regardless of age. Local police and citizens have a right to know the identities of the potential threats to public order within their communities."

As far as Louisiana is concerned, however, Hoover's proposal, regardless of how good it might be, could be extremely difficult to put into effect.

Under present Louisiana statutes, a juvenile cannot be taken into open court unless he is accused of a capital crime, such as murder or rape. Law specifically provides that the juvenile must appear before a judge in privacy if he is accused of an offense. The judge is forbidden to allow persons not connected with the court to be present when the hearings are held.

Some legal authorities take this to mean that the judge is prohibited from revealing the names of any of the young offenders and that the same ban applies to other law enforcement officers.

If this position is correct, it would require a change in the Louisiana statutes before any general publishing of the names of juvenile offenders could be put into effect.

Some offenses have occurred in Monroe which would seem to justify release of the names of those responsible. One such offense occurred when a bolt from a "barp" gun was fired recently through a window of the home of a prominent resident. On the whole, however, smaller cities are more fortunate than the larger ones in that there is scant opportunity for organized gangs to operate for any length of time.

Druggists' Position On Advertising Is Explained

Clarification of their position regarding the advertising of drugs was asked Thursday by local pharmacists following publication of an editorial in Thursday's Monroe Morning World.

Druggists pointed out that they have no objection to the advertising of any drugs other than prescription drugs. On the other hand, they favor the advertising of non-prescription drugs, or those that can be sold over the counter without a doctor's prescription.

The druggists stated that their objection to advertising the prices of prescription drugs involves the matter of substitutions. They said that in many instances drugs of virtually the same kind, but cheaper in price and lower in quality, can be substituted for the ingredients prescribed by the physician.

Objection was also made to the advertising of such prescription drugs as pheno-barbital and other habit-forming preparations requiring prescriptions. One druggist said that non-certified pheno-barbital tablets can be purchased at one-tenth the cost of the certified tablets. Druggist conforming to the code of conduct calling for the use of only certified drugs believe it is unfair to allow druggists selling the non-certified drugs to advertise them at a price far below those that must be charged for the certified drugs.

Druggist pointed out that the elimination of such a practice is important to the welfare of the people who need the drugs for sickness. They pointed out that the uncertified drugs will not accomplish the job as they should.

'New Look' Screw?y

Word from Paris is that the "new look" will soon make its return. Dior, the fashion czar, has dropped skirts four inches in spring fashions (that's more than last year's can be let out—get it?) and is alleged to have created a "long free look" the silhouette of which he compared to a spiral corkscrew.

This description is an innovation, at any rate. Instead of being willowy, angular or painfully thin, the fashionable female of 1957 will spiral her way down the avenue like a corkscrew.

Radio broadcasting may be only 37 years old, as alleged, but some of the jokes had a long running start.

BASCOM TIMMONS REPORTS

High Ranking Army Officers Again Have Bear By Tail And Can't Let Go

High ranking army officers once again have a bear by the tail and can't let go. They have taken out after the National Guard, long held in secret contempt by most regular army brass, using Secretary of Defense Charles E. Wilson as their spokesmen.

This is a controversy so old that it may be said to extend almost back to the Revolutionary War, when was fought by troops with no more training — and in many instances not as much — as is now given the National Guardsmen in the 11 weeks basic period which figures in the argument.

The unusual part of it this time is that in some respects Secretary Wilson is right, if his remarks are viewed in the light of certain circumstances. Undoubtedly some young men figured out that they had a better chance of staying home during the Korean war by joining the Guard; on the other hand several divisions bearing guard members — such as the famed 45th — made outstanding records in Korea.

Wilson's remarks about the guard delivered with his usual bluntness, brought an immediate defense from National Guard leaders, whose case by a coincidence received timely support in a report from the Continental Army Command, prepared by regular army officers, which revealed that tests of both National Guard and regular army units put their records on a par. That is expected to kill or hold up the Wilson dictum that the Guard recruits, beginning April 1, must take six months basic training which now lasts 11 weeks.

The present law adopted by Congress in 1955 was admittedly an all-round compromise. Like previous legislation to establish a "ready reserve" of trained troops for an emergency, it represented a detour around universal military training, which has too much organized opposition to become law.

The President, on signing it, expressed dislike of provisions pertaining to the National Guard. He also said the bill should have authorized a draft to fill up Guard regiments which did not have enough volunteers.

The House defeated an amendment by Rep. Adam C. Powell (Dem., N. Y.) to ban segregation in Guard units. The state character of its units was thus preserved, since non-segregated organizations could not exist in most southern states.

The debate now settles down to whether guard enlistees need six months of basic training, which is the regular army's idea, despite the recent report indicating that they do well under the present 11 weeks system with one night a week after that and 15 days summer field exercises for a two year period.

Members of Congress who have discussed the question incline to the view of National Guard leaders that six months basic would reduce enlistments to a point where the overall strength would be short of the 400,000 authorized.

The National Guard is as American as ham and eggs, and sometimes about as informal, and its fighting record doesn't brook much criticism. In all three wars as you do.

In this century, veteran guard troops of 18 months or more experienced have had a chance to join at new draftees in regular army units. Their morale has also been as high or in some cases better than the regulars.

The Guard's strength so far as Congress is concerned is its strength among the home folks. Anchored between federal and state control — state in peacetime, federal in wartime, but always with supervisory congressional instruction — it swings a big stick politically, and will continue to do so.

As one congressman joked, "You can speak disparagingly of mother, you can run down religion, but you can't pick on the National Guard."

The Country Parson

"Ask yourself what kind of a world we would have if everybody gave the same attention to moral mind and spiritual matters for a 'Hi Fi' quality set instead.

GEORGE SOKOLSKY'S DAYS

Christians In Middle East Apparently Forgotten In Moslem, Israeli Dispute

In all the discussion concerning the Middle East, as it is now called, the assumption seems to be that the only ones involved are Moslems and the comparatively small number of Jews in Israel. The Christians who live in this area and who have lived in that part of the world a long time seem to be forgotten altogether. Perhaps the current group of policymakers in the State Department never heard of them, but in some parts of the area, the earliest Christians founded churches and Paul was on his way to Damascus when he saw the light and was converted.

There must be nearly 10 million Christians of various sects in the vast area which John Foster Dul-

les calls the Middle East. As any census of those countries is unreliable, all figures are guesses. Nevertheless, it is possible to make an appraisal. Some of the Christian sects are very ancient. The Copts, for instance, date back to the earliest days of Christianity. If Egypt and Ethiopia are included among Middle Eastern countries there must be perhaps as many as 6 million Christians in North Africa. It will be recalled that St. Augustine came from North Africa.

The earliest Christian fathers came not only from Palestine but also from Syria and from what is now Lebanon. In this area a number of Christian sects remain, among them the Melkite, Syrian-

Catholic, Maronite and Armenian-Catholic. These sects accept the authority of the Roman Catholic Church but pursue Eastern rites. There are also Christians in these areas who do not accept the Roman Catholic discipline, but belong either to the Byzantine churches, often referred to as Greek Orthodox or simply as Orthodox.

At any rate, there are quite a large number of Christians who when the Turks ruled the Middle East were not usually persecuted but who have had a very difficult time since Nasser's Moslem nationalism has prevailed, supported, as it has been, by the United States and Soviet Russia. It is understandable that Soviet Russia would forget these Christians, for that is an atheist country but it is difficult to grasp the callousness of the United States which claims to be a Christian country. In Egypt particularly the Copts have had a most difficult time under Nasser who has placed Christian schools under Moslem control. The teaching of Christianity is apparently forbidden.

Ethiopia is a Christian country with a Moslem minority and it is not believable that the Lion of Judah will long ignore the attacks upon Christians so close to his territory. While he regards himself as a descendant of Solomon and the Queen of Sheba, the Negus of Ethiopia nevertheless is devoutly Christian as are most of the people of his country. In Lebanon, the most Western of Middle East countries, Nasser has been conducting an anti-Christian campaign which apparently is being resisted, although the Lebanese have received little support and no encouragement from the Christian West. It might be said that Lebanon has remained as neutral as possible between Egypt and the West, but geographically this country is so situated that neutrality is difficult if not impossible without Western support. Up to now, the United States has favored the Moslems rather than the Christians in the Middle East.

It perhaps is characteristic of the era in which we live that the sole consideration in international relations is a reflex to what the Russians are doing and plan to do. Russia's penetration into the Moslem world is a serious matter and its apparent success in two countries, Egypt and Syria, frightened the policymakers in Washington into an hysterical reaction. The visit of King Saud may have lessened the peril, for if King Saud opposes Nasser, the Russian influence will lessen. But King Saud is a rigid Wahhabi, which is the most bigoted sect in Islam, and therefore is not likely to recognize the right of Jew or Christian to life and liberty.

It would be interesting at this point to make inquiries into the United Nations' Declaration of Human Rights and what it amounts to in human relations.

There again, there seems to be a number of blind spots, nothing applying to any nations except those which voluntarily conform to U.N. dicta. As the National Youth Organization of Lebanon put it: "We did not fight the French mandate in order to accept an Arab mandate!"

REPORT FROM WASHINGTON

Neuberger Seeks To Bar Billboards On Highways

BY HOLMES ALEXANDER

WASHINGTON, D. C. — All you people who have followed Dick Neuberger's (D., Ore.) political career in the senates of both Oregon and the United States have got to stop saying he never introduced a serious piece of legislation.

His jokers a couple of years ago to save the White House squirrels from Ike's golf sticks was held against him, and not without some justification, as typical of his law-writing talents. But it's pretty hard to quarrel with his new bill (S. 963) to keep billboards and other defacements off the 41,000-mile federal highways system which congress voted last session.

He's quite right in saying that the new highways, which will be 13 years in the making, won't be relocated during our generation. Neuberger's bill is not an outright prohibition. It empowers the secretary of commerce to draw up a set of standards to be offered to the states.

This subject of ugly, inane commercialism is by no means confined to roadways which, in fact, have been systematically cleaned up over the past two decades. Anybody who drives on the modern parkways knows what a treat the landscape engineers have laid before the motorist. Still, the battle isn't entirely won, and congress is not without a duty to give the states a nudge in the right direction. The same duty carries over into the air waves, which are controlled by the federal communications commission, and into the cities where, if given half a chance, the modern version of the street - beggar will wheedle you with his microphone for some organized charity. This clearly is something which citizens should deal with locally, but congress could set the best example by putting a stop to it in the federal city of Washington.

Senator Neuberger, a Social-Democrat in politics and no friend to private enterprise, has a chance in promoting this bill to educate himself and at the same time to make some amends. The senator, although a thinker, is a person who sometimes gets called in this place a day - before - yesterday thinker. He is still baying on the cold trail of robber barons who have been dead for many years. The names that set his voice to trembling with emotion are Teddy Roosevelt and Gifford Pinchot who commenced saving our natural resources in the days of the Ottoman Empire and "Man of War."

The lumber company which today would waste a \$10,000 Douglas fir doesn't last long. The idea that public utility firms exist for other reason than to ream its customers is something that belongs in the writing of Ida Tarbell and Lincoln Steffens.

These accusations haven't been true since Dick Neuberger's voice changed, and yet it's a dull afternoon in the senate when he and-or Wayne Morse aren't whooping along the warpath in pursuit of non-existent robber barons as extinct as wild Indians. Even in the over - long speech to introduce S. 963, the sententious senator from Oregon could not resist this touch of the Biblical Pharisee:

"I am proud to say that when I ran for the senate in 1954, I practiced what I preached . . . Not a single billboard was ever purchased in my behalf by the committees backing my candidacy. Signboards advertising my opponent dotted Oregon from the Snake River to the sea, but not one such sign heralded the candidacy of Richard L. Neuberger."

Well, it's my opinion that Richard L. Neuberger ought to stop being Little Lord Fauntleroy and bring himself up to date. A man with Neuberger's energy and access to the public attention could leave a mark on his generation as Gifford Pinchot did on his. Neuberger could begin by accentuating the positive instead of the negative in American progress. We are in a time when rubber companies play us concert music in our homes, when aluminum firms bring us Shakespeare and when brewers of malt liquors provide us with the wholesome American sport of baseball on our TV screens. It's true that many - but not all - do so at the terrible price of flinging trips in our faces between acts and innings. But the progress that these indoor hucksters have achieved in less than a decade is stupendous.

Why can't the outdoor advertisers go and do likewise? If I were the author of S. 963, I would think a great opportunity was beckoning. For instance, the mileposts and historical markers along the highways are generally paid for by the state out of the gasoline tax dollar. Why not sell this space to advertisers? The shrubbery, the sod the trees and the flowers along the highways are there at public expense. Why should they not be there at public profit? It is possible to note tastefully and unobtrusively that the speed limit is 50 miles per hour, by courtesy of an oil company rather than by order of the state roads commission.

I am suggesting to Senator Neuberger that this nation of businessmen and industrialists has not stood still for 50 years. Evolution is taking place in esthetics as well as technocracy. Senator Neuberger, a writer by profession, would be a good man to say so in occasional pieces of legislation.

DR. CRANE SAYS

Woman Is Worried When Husband Grows Secretive

Almost every wife will confront Alma's problem in some form, so women should be forewarned by this case today and try to insure their marital happiness against this menapausal "Ponce de Leon Complex" of men. Paste this case in your scrapbook.

Case T-396: Alma R., aged 40, is a jolly housewife who now has a serious worry.

"Dr. Crane, my husband and I have been happily married for 22 years," she announced.

"We have been pals and almost constant companions in work as well as in play. But during the last year or two he has been gradually becoming more secretive.

"He would occasionally stay late at the office to work. And I noticed he didn't seem so interested in kissing me. Oh, he tried to appear the same as usual, but I could detect a subtle change coming over him.

"Finally, I learned that he has developed an infatuation for a girl in the next office. She is a slender, pretty thing just a little over 22.

"Dr. Crane, I don't know what to do. I am so upset and unhappy, my entire world seems topsy-turvy."

Man's Secret Terror

Alma has the advantage over such a temporary paramour, for she shares the civic prestige and social connections with her husband.

Besides, she also knows all his relatives and is the mother of his three children, too. But she must fight fire with fire in banishing his secret terror.

For most men enter a menapausal state anywhere from 40 to 60 years of age, in which they grow panicky at the thought of impotence.

Since their hair is growing gray or thinning out on top, and they don't have quite the amative ardor as at the age of 21, they become frightened.

get palpitation of the heart, high blood pressure and a pounding at the sound of each other over the telephone.

They may also kiss rather perfunctorily. A sweetheart kiss, however, is not perfunctory! It rearsoues almost forgotten memories of youth and courtship.

So a staid business man, bald-headed and chubby, may feel like a youth of 21, when he kisses the Follies beauty.

Because he now feels his heart pounding, and gets that youthful, giddy sensation, he imagines he actually is young again! Naturally, he is delightfully intoxicated with this new emotion which has been in cold storage maybe 10 or 20 years.

So he said he loves his paramour, and starts dusting off his old "line". Even that process is stimulating and exhilarating. For he's a real "gosh darnit" again!

Where a short time ago he was almost convinced he had one foot in the grave, he now finds that he is a young Romeo. And this tonic deludes even the best of men.

So their wives must remember that these men are simply frightened. They are frantically searching for the fountain of youth to banish their erotic sluggishness.

Ponce De Leon Complex

This reaction is what I term the "Ponce De Leon Complex", or quest of youth.

While he is a victim of this panic, a husband who is a staid pillar of society may act emotionally deranged. Because he wants to be young so intensely, he may suddenly go haywire, and act so much at variance with his previous personality that people may even doubt his sanity.

Parent-Teacher Showdown Over Jackson Today

ALEXANDRIA, La., Feb. 8 (AP)—The board of managers of the Louisiana Parent-Teachers Assn. meets here tomorrow in a showdown session with Education Supt. Shelby Jackson as a central figure.

Mrs. George Walther of Lake Charles, state president, first said she saw no reason for the meeting, then called it at the request of 12 board members.

She has resigned from her job, effective after the May convention, protesting the "running feud" between the board and Jackson that resulted in bypassing her office.

Mrs. Stringer, who ran against Jackson last year, leads a group seeking appointive rather than an elective superintendent.

The latest development came yesterday when a Lake Charles P-TA group proposed an investigation of the entry of state politics into the Louisiana P-TA. The resolution came from the St. Charles Academy - Immaculate Conception school P-TA.

Officially, the purpose of tomorrow's meeting is to "consider the situation resulting from the resignation of the president," but the agenda will be whatever the board wants to take up.

Newspaper reports indicated an effort would be made to force Mrs. Walther to make her resignation effective immediately.

The Shreveport Times, in an editorial today, insisted the issue of the appointive superintendent "brings State Superintendent Shelby Jackson into the dispute as a central figure."

Jackson will not attend the session.

The editorial points out that Mrs. Stringer and her group have been critical of Jackson's administration, but "it is as much the function of the P-TA to criticize and oppose him when the organization thinks he is wrong as to support him when the organization thinks he is right."

It terms Mrs. Walther's resignation "meaningless through her provision that it would not be effective until after her term expired."

The Times says the state P-TA began its fight for an appointive education superintendent more than 20 years ago, "long before Mr. Jackson ever was heard of."

Although he didn't pledge open support of an appointive superintendent in his first campaign, the editorial said:

"... He did make the solemn private pledge to a number of education leaders and others around the state — including the editors of the Times — to work for submission of a constitutional amendment calling for the appointive system."

"Instead, almost the moment he got into office he began working against it."

"The pledges made by Mr. Jackson — which he has since denied — had considerable to do with his support which he otherwise would not have had."

Survivors include his wife, Mrs. Aral Tippetts Sims, of Monroe; three children, Glen George Sims, Jr., Michael Sims and Jennifer Kay Sims, all of Monroe; his parents, Mr. and Mrs. George A. Sims, of Winnfield; one brother, Schallie Sims, of Eunice.

Palbearers will be Claude Whitliff, Carl Turner, Earl Spillers, Bill Haynes, Ken Vinson, Beebe Terrell.

Funeral services for Charles H. Sprague, 50-year-old Mansville, Texas, man who was electrocuted Thursday, will be held in Lawton, Oklahoma, with the Becker Funeral Home in charge. Date of the funeral had not been set.

Interment will be in the Rock Creek cemetery.

Sprague, employed by the Chicago Bridge and Iron Company, was working at the site for West Monroe's new elevated water tank when the accident occurred.

Funeral services for George Edward Felt, 66, of West Monroe, will be held at the Mulhearn Funeral Home at 2:30 p.m. Saturday with Rev. Jaroy Weber, pastor of the First Baptist Church, officiating, assisted by Rev. Mr. Turner.

The body will then be sent to Saginaw, Mich. for burial in Forest Lawn cemetery.

He is survived by his wife, Mrs. Daisy Felt, of West Monroe, two step-sons, Howard Smith of West Monroe, Sam Robert of Baton Rouge, and three step-daughters, Mrs. J. C. Hathorn, of Baton Rouge, Mrs. Robert Carpenter of Fort Lewis, Wash., and Mrs. Willie Calhoun of Pitkin, and a number of nieces and nephews.

Felt was born at Saginaw, Mich., Oct. 28, 1890 and spent most of his life there where he worked for General Motors for twenty-three years.

He retired in 1952 and moved to West Monroe to make his home.

Brooks objected, but the judges refused to rule at this time on either the request or the objection.

Judge Wright explained, "We'll make no rulings on anything this morning. We merely will take in everything that's offered and rule later."

Judge Christenberry questioned Gremillion sharply. At one point, when Gremillion was citing figures listing white students turned away because they had no certificates, Christenberry snapped:

"We read the newspapers, too." "This is not in the newspapers," Gremillion replied. "This is in my petition. I don't want to try this case in the newspapers. I want to try it according to law."

But when informed there was no record of legislative debate on

State Moves

(Continued From First Page)

ple legal staff, said act 249 of 1956 also must be considered.

Act 249, in effect, makes it a firing offense for a school official to sign a certificate for a Negro to enter a white college.

Both laws are under attack in the suits as violating the equal rights provision of the U.S. Constitution.

"We are arguing that the law places fear in state schools that they can't sign this certificate without losing their jobs," Carter said, adding:

"A number of these students obtained certificates from parochial schools where they weren't in fear of their jobs, then couldn't get signatures from parish school superintendents."

"It is clear that the certificate was intended to circumvent the decisions of the Supreme Court."

Attorney Lawrence Brooks, representing LSU, urged the suit against LSU be dropped because the plaintiff, Arnease Ludley, was scholastically ineligible and had not attempted to register for the spring term.

"She filed the suit as a class action, stating she is eligible for registration," Brooks said. "Records show she failed to maintain her scholastic average. There is no other complainant. She represents a class that hasn't made the grades and therefore is not eligible to prosecute this suit."

Attorney A. P. Tureaud of New Orleans, former NAACP state counsel, asked permission to substitute names of other plaintiffs at a later date.

Carter explained later, "we're representing a number of others but only her name is on the petition."

Brooks objected, but the judges refused to rule at this time on either the request or the objection.

Judge Wright explained, "We'll make no rulings on anything this morning. We merely will take in everything that's offered and rule later."

Judge Christenberry questioned Gremillion sharply. At one point, when Gremillion was citing figures listing white students turned away because they had no certificates, Christenberry snapped:

"We read the newspapers, too." "This is not in the newspapers," Gremillion replied. "This is in my petition. I don't want to try this case in the newspapers. I want to try it according to law."

But when informed there was no record of legislative debate on

gin serve at Dhahran, his continued practice of human slavery and his opposition to the Baghdad Defense Pact, which the United States supports.

A Spanish plane will pick up Saud in the Azores, taking him and his 75-member party to Spain. After a visit there, he heads back home.

"For instance," Gremillion said, "the Legislature could require an entrance examination for everyone."

"Suppose the Legislature passed a law saying anybody who gave an examination to a Negro could be fired," asked Judge Christenberry. "Would we have to consider that separately?"

Gremillion said he thought the laws were separate because the students could go into state court to attempt to force school officials to sign their certificates.

He began to cite registration figures again to prove the law was enforced without discrimination.

"The complaint is not that the law wasn't enforced equally," said Christenberry. "The complaint is that the law is unconstitutional."

"We must show that it does not discriminate and there never has been any discrimination," said Gremillion.

He said the law applied to everybody, "white and Negro and also people from South America, Puerto Rico and other foreign countries."

"A Puerto Rican can get it without risk the school official signing it will lose his job," replied Judge Christenberry. "A Louisiana Negro can't."

Westmoreland served on Guam, which is reported to have the highest incidence of the disease of any place in the world.

Robb served on Saipan during the Korean War. His ailment showed up within two years after his discharge.

The disease, similar to that which took the life of baseball star Lou Gehrig, ordinarily is fatal.

Both Westmoreland and Robb still are working but are uncertain how long they can continue. Both say they want the veterans disability pensions so that their families will be taken care of.

Vets Stricken By Sclerosis Appeal For Aid

WASHINGTON, Feb. 8 (AP)—Sen. Eastland (D-Miss.) took to the Veterans Administration (VA) today a second case involving a Mississippi soldier who contracted a deadly form of sclerosis while serving in the south Pacific.

He asked VA to re-open the case of Robert C. Robb, Jr., of Vicksburg, Miss., whose application for service-connected disability compensation was denied Oct. 24, 1956.

Robb's case came to light in the wake of publicity concerning the case of James T. Westmoreland, Jr., of Corinth, Miss., who likewise had been denied a disability pension because his ailment did not come to light within a year after his discharge from service.

Since news stories concerning Westmoreland's plight were circulated Eastland has received letters outlining several other cases which were similar.

"Every case that has been brought to my attention fits the pattern," Eastland said.

It is a contention of Westmoreland and Eastland that soldiers actually contracted the disease—arterio lateral sclerosis—while in service but that it remained latent until the soldiers reached their early 30s.

Westmoreland served on Guam, which is reported to have the highest incidence of the disease of any place in the world.

Robb served on Saipan during the Korean War. His ailment showed up within two years after his discharge.

The disease, similar to that which took the life of baseball star Lou Gehrig, ordinarily is fatal.

Both Westmoreland and Robb still are working but are uncertain how long they can continue. Both say they want the veterans disability pensions so that their families will be taken care of.

They can view the banks lobby and this fine display.

"How do you like your new place to work now you are up on North Fourth street?" is a question frequently asked reporters on DeSard street these days.

Most UN Debate Over 'Insoluble' Problems To Date

By J. M. ROBERTS

Associated Press News Analyst

The United Nations debates move along this year from one insoluble to another.

Hungary, Middle East, Algeria, Middle East, next Cyprus, and probably more Middle East, ad infinitum.

At the end of a week's debate on Algeria there were still 40 speakers to go, and so far not one has been brief. Cyprus was supposed to come up next Monday, but after the Algerian debate there's some more Middle East business to come first.

In the Cyprus case, Greece is accusing Britain of suppression of free determination and Britain is accusing Greece of supporting terrorism on the strategic island.

The Greeks on Cyprus want the island annexed to Greece. They are in the majority. The Turkish minority wants things as they are. So does the Turkish government, which promises to fight rather than see a weak power move onto the island, which lies athwart Turkey's southern flank and near sea connections with the North Atlantic Treaty countries.

Britain is determined not to give up the most important air base she has left in the eastern Mediterranean. Even in the midst of planning greater self-government for the island, she is starting work right away on an important naval base and port, lack of which is one of the island's great physical weaknesses now.

Britain has proposed a new constitution for Cyprus, offering limited self-government, but can find no one with whom to deal.

At the height of terrorist activity Britain exiled its leader, Archbishop Makarios. Many world diplomats and some important British experts consider that a mistake. Now, when they would like to get negotiations under way, no Cypriot leader will come forward to be the first to make a deal.

The British probably would like to bring Makarios back, but have been unable to devise a plan for doing so which would not weaken their position.

Indeed, they are not sure that Makarios, having been isolated for a year, still retains the power to stop the terrorism if he wished.

The British apparently have no intention of permitting a plebiscite on the question of self-determination, which would mean a vote to join Greece, as long as the world situation remains as it is and Russia poses a threat to the Middle East.

Thus it appears that, after all the U. N. talk, the situation will remain as is, with nobody satisfied.

Heavy Rains In West Texas Come To End

By UNITED PRESS

Skies began to clear over Texas Friday, apparently ending for the time being the biggest rains since 1949 over a large section of West Texas.

Heavy downpours — up to an unofficial 10 inches at some points — set off local floods in West Texas that were reported to have invaded homes in at least three places.

Floods washed across highways two feet deep and undercut bridges that collapsed across the streams they spanned. For the most part, these were reported to be small bridges on farm roads.

The highway department in Austin reported farm road 37 was closed in Fisher county — where the heaviest rains fell — between Sylvester and U.S. 180 because of a washed out culvert.

Warnings also were issued that overflow of the Clear Fork of the Brazos River in Jones county is expected to close farm road 126 and "other farm roads" for a short time.

Heavy rains for the most part ended Thursday and creeks and gullies in Fisher and Jones counties had drained away and farmers and ranchers were smiling.

"It's the most rain since we had around here since 1949 and 1950 when the drought started," Fisher County Judge Bruce McCain said in Roby.

He said he had unofficial reports of rainfall up to 10 inches in the western part of Fisher county. It washed out small bridges and broke terraces and some earthen dams.

McCain's house was partly flooded. Negro houses around Sylvester and houses in the south-east corner of Roby were flooded from Cottonwood Creek and Salt Creek.

Worst flood at SYLVESTER. The worst flooding was at Sylvester, where the Clear Fork spread out for a mile. The fork crested there at 2 a.m. and began dropping. Two families had to leave their homes for a while.

Only scattered reports of light rainfall were reported after 7 a.m. Friday. Temperatures began to climb after southerly winds returned and by mid-afternoon had reached the mid-60s in South Texas and near 80 degrees elsewhere across the state.

The high Friday in Fort Worth was 79, a new record high for Feb. 8. Scattered showers and warm temperatures were forecast over the state through Saturday.

PORKY PROVES PERSONABLE PAL—Or so says Floyd Van Camp, Hay Springs, Neb., who brought his pet porcine to Denver to see the sights. Porky is a 3-year-old, 38-pound ball of quills and fat. His diet is bread and milk, peanuts, and fruit. He sits on his hindquarters and begs for tidbits like a dog. Porky sharpens his long curved teeth every night but so far his disposition has been amiable, Van Camp says. (AP Wirephoto)

Clemency For Slayer Asked

AUSTIN, Feb. 8 (UP)—Attorneys for Alvaro Alcora appealed Friday to the State Board of Pardons and Paroles to commute the San Antonio man's death sentence to life imprisonment.

The plea was made by Chief Justice Earl Warren of the United States Supreme Court denied a stay of execution for Alcora, who is scheduled to be electrocuted at the Huntsville state Penitentiary shortly after midnight Monday night for the knife murder of his wife.

The pardons board took the plea for clemency under advisement and did not indicate when it would act. The plea was made at a day-long hearing before the board.

Alcora's attorneys, headed by Gus Garcia and Fred Semann, offered testimony by a trial juror who said he was "remorseful and sick at heart" for having voted the death penalty. The testimony was presented by juror Ramon C. Pina, who said he would not have voted for the death sentence if he had known he could have held out for a lesser sentence.

Bexar county district attorney Hubert W. Green, Jr. replied that Pina spoke and understood English well enough to know his rights as a juror.

Alcora was convicted of stabbing his wife to death at San Antonio June 19, 1955 when he found her in a parked car with another man.

AP Announces Job Changes In Wirephoto Net

DALLAS, Feb. 8 (AP)—Barry Stroup, Dallas Associated Press newsphoto editor, left for New York today on transfer to the general offices of the organization.

He was succeeded by Dave Taylor, night photo editor, in Dallas.

Stroup, 39, served during World War II as an Air Force B24 and B32 bomber pilot instructor. A native of Wills Point, Tex., he joined The AP in 1936.

Stroup covered most of the major news stories in the Southwest while assigned to the Dallas bureau. He is married and has two children.

Taylor, 43, was a combat photographer in North Africa and Italy during World War II. A native of Philadelphia, Taylor joined The Associated Press in 1947. He was photo editor and photographer in the New Orleans bureau prior to his transfer to Dallas in 1955.

His assignments have included the Guatemala revolution in 1954 and the Costa Rica uprising in 1955 and the Pan-American games in Mexico City in 1955. Taylor is married and has one son.

Stroup also covered a revolt in Mexico, President Truman's visit to that country, the inauguration of President Aleman of Mexico and the last two Democratic and Republican national conventions.

City Courts
MONROE
Judge W. M. Harper heard the following cases in city court Friday.

Fannie Jordan of 1606 Beaud Street was fined \$200 for selling alcoholic beverages to a person under 18 years of age.

Dennis Lee Johnson of 908 Pine Street was fined \$50 for disturbing the peace.

Three persons were fined a total of \$22 on traffic violations.

Six persons were fined \$25 each on a public drunkenness charge.

Lay 'Sleeping Giant' Begins To Awaken In U.S. Protestant, Catholic Churches

WASHINGTON, Feb. 8 (UP)—The "sleeping giant" of American church life is beginning to stir.

In thousands of Protestant and Catholic parishes across the nation, laymen are taking on "church jobs that once were left to clergymen, or left undone.

They are planning budgets, conducting fund drives, leading youth organizations, visiting the sick,

writing and editing church publications, and providing free counseling services in professional fields from law to psychiatry.

Most significant of all, increasing numbers of businessmen, doctors, lawyers, school teachers and housewives are moving into the field that Protestants call evangelism and Catholics call the apostolic mission.

"We are rapidly getting away from the old idea that propelling the faith is solely the work of the professional ministry," says federal judge Luther W. Youngdahl. A Lutheran, Youngdahl was named "layman of the year" by the Washington Federation of Churches in 1955.

Youngdahl, a former governor of Minnesota, regards the increased activity of laymen as "the most significant spiritual advance in American churches in many years."

"A dedicated layman," he said in an interview, "can serve as a witness for Christ in places that a clergyman can't reach — in offices and factories, in clubs and professional societies."

Martin Work, executive director of the National Council of Catholic Men, reported a "remarkable increase" in the number of Catholic laymen who are "actively helping the church to carry out its mission."

This increase is reflected in the growth of Catholic men's organizations since World War II. In 1946, the council had about 4,000 affiliated groups with a total membership of about 3 million. Today it has 9,000 affiliates with 7 million members.

Protestant laymen's organizations have experienced similar growth. The National Council of Presbyterian Men, for example, was organized by 370 laymen in 1948, and now has 2,700 chapters with 400,000 members.

The new importance of the laity to some degree is a result of the postwar religious revival that has pushed U.S. church membership to a record high.

While they welcome lay help in housekeeping chores, many clergymen feel laymen have an even greater service to perform.

"America will never be won to Christ by the clergy alone," Evangelist Billy Graham told a laymen's meeting recently. "It will take dedicated laymen witnessing in every sphere of life."

Charges Filed Against Negro At Brookhaven

BROOKHAVEN, Miss., Feb. 8 (AP)—Dist. Atty. Mike Carr said today he filed two charges of rape and one of attempted rape against a 21-year-old Negro who admitted attacking three white women in the last two months.

The charges, which carry a maximum penalty of death in Mississippi's gas chamber, were filed against J. C. Cameron, a slender but broad-shouldered service station operator, who told officers he attacked the women because of uncontrollable urges.

Carr said he also filed charges of accessory after the fact against Mrs. Cameron, "because she burned his bloody shirt," Cameron's aunt, Minnie Lee Demise, "because she gave his knife to Lillie Walker," and Lillie Walker, a Negro preacher who officers said hid the weapon.

Officers said one of Cameron's victims was stabbed.

All of the charges were filed with Justice of the Peace George Guess, Carr said.

Cameron, in an undisclosed jail, was arrested after officers said they found his fingerprints matched those found at the scene of one of the rapes. Cameron was fingerprinted during routine questioning earlier this week.

No Evidence Of Rules Violation Found In Crash

WASHINGTON, Feb. 8. (UP)—Civil Aeronautics Administrator James T. Pyle testified Friday there was no evidence that any air safety rules were violated in the crash of a Northeast Airlines DC-6 in New York last Friday. Twenty persons were killed when the Miami-bound airliner crashed on Rikers Island in the East River seconds after taking off from La Guardia Field.

Meantime, James R. Durfee, chairman of the Civil Aeronautics Board, said the CAB recognizes the possibility that an air crash over the Los Angeles area last Thursday involved a violation of rules prohibiting test flights over congested areas.

The two top civil air officials testified before a House Commerce Committee investigating the two crashes.

Pyle said a long inquiry was ahead in the New York crash, but pending its conclusion, he said, "we do not feel that any violations of existing regulations took place or that any new regulations are appropriate."

In the California crash, William B. Davis, a CAA airworthiness expert, testified that "it appears to us now" that the collision between a DC-8B and an Air Force F-4 fighter, both on test flights, occurred over a mountainous area.

Although the area was sparsely populated, he said, the DC-7B fell into a schoolyard at Pacoima, Calif., several miles away. Eight persons, including three school boys, died as a result of the crash.

Durfee said, however, the CAB had not ruled out the possibility the rule against flight tests over populated areas was violated.

Committee Chairman Owen Harris (D-Ark.) warned against splitting hairs on the issue, point-

ing out that mountains and cities are closely intermingled in Southern California.

Pyle said the government was working as "fast as humanly possible" to improve control of air traffic but he warned there can be no "overnight, spectacular" improvement.

Ten Power Firms Plan New Reactor

MINNEAPOLIS, Feb. 8 (UP)—Ten Midwest power companies Friday announced plans for building a radically new atomic power plant capable of producing enough energy for a city of 120,000.

The plant will cost between \$20-million and \$25-million, will have a power capacity of 60,000 kilowatts, and will probably be located on the Mississippi River somewhere in southern Minnesota, the announcement said.

It is expected to be in operation by 1962. Although officials emphasized the plant is experimental and will not compete with power plants using coal and natural gas, one spokesman said it will "permit energy produced by the atomic power plant to flow into Iowa and the systems of the participating counties."

A new type of "boiling water" nuclear reactor, perhaps the most advanced yet developed, will provide the core of the Midwest atomic power plant, it was revealed.

The reactor was developed by Allis-Chalmers Manufacturing Co. of West Allis, Wis., one of the two prime contractors and architects of the power plant.

Company officials said the new reactor will use atomic materials and super-heated steam to provide power for the plant. It will be housed in a steel and concrete building, 45 by 70 feet in diameter, and have a 5-by-5 foot core of atomic material.

C. B. Graham, chief engineer of the Allis-Chalmers nuclear power department, said "we hope this reactor will be a big step in the development of cheap atomic power."

He said the reactor will produce as much heat as a boiler burning about 20 tons of coal per hour continuously. It needs refueling only about once a year.

It will be one of 19 atomic power plants planned in the nation. They will cost a total of \$675-million and have a total generating capacity of nearly 1,500,000 kilowatts.

In a side development, the Argonne National Laboratory at Lemont, Ill., planned to put a brand new "boiling water" plant into full power operation Saturday. It will mark one of the first positive steps into harnessing atomic power for completely "peaceful" uses.

Damage Suit Filed In Accident Case

A \$658.79 suit was filed yesterday against Harvie Lee Evans and John Prestridge, both of this parish, by H. C. Mize, also a local resident.

Mize claims his automobile was damaged to the extent of \$658.79 on April 20, 1956, when it was struck at the corner of North 4th and Washington by a vehicle driven by Evans, who was employed by Prestridge.

Mrs. Mize was driving the automobile.

HE'S GOT A HAUNCH—State Rep. Tom Bolack holds a single haunch out of a portion of hundreds of pounds of wild game fed to the New Mexico legislature Thursday night. He shot the game and threw the dinner, a tradition for the man who introduces the 100th bill during the current session of the New Mexico House. (AP Wirephoto)

Four Wells Completed During Week; Three Are Abandoned

The weekly report of the Monroe office of the State of Louisiana Conservation Department yesterday listed four completions, three abandonments and 10 new applications to drill.

The Ouachita parish wildcat of Pan American Prod. Corp. (formerly Stanolind Oil and Gas Co.), T. S. Parker No. 1, Sec. 5-17-3E, was completed as a gas well. The well has been shut in officials said. The well was perforated at 9356 to 9400 feet. It made approximately 60 barrels of distillate and the open flow was estimated at 1,270 MCF.

The Robert F. Roberts Ayr Timber Co. Inc. No. 2, section 31-14-10E, in Killens Ferry field, Texas parish was completed as an oil well on January 31. It tested 234 barrels of 43 gravity oil daily on a 1/4 inch choke. Production is from perforations at 6911-54 feet with a tubing pressure of 350 pounds and casing pressure of 800 pounds. The gas-oil ratio is 300 to one and the total depth of the well is 7,004 feet.

The Jett Drilling Co. Inc. Harper state unit No. 5 section 10-10-12E, in Rodney Island field of Tensas parish was completed February 1 as an oil well. The well tested 130 barrels of 40.5 gravity daily on a 7-64 inch choke. Production is from perforations at 9612-17 feet with a tubing pressure of 2,000 pounds. The gas-oil ratio

is 1,869 to one and the total depth is 9743 feet.

David Crow Tr., Quinn No. 2, section 24-4-6E in Bee Brake field of Concordia parish was finished Jan. 22, pumping 10 barrels of 37.2 gravity oil daily. Production is from perforations at 6678-91 feet. Tubing pressure is 20 pounds and the casing pressure is 100 pounds.

The new applications to drill are in the following parishes:

CONCORDIA

Jett Drilling Co. Inc. Paul F. Barnhart et al, Hog-Expanse No. 1, section 0-8-4E, located on the southwest corner of section 8, go south 20 degrees 21 minutes east for 7661.3 feet to location.

LA SALLE

Rogers field: Nebo Oil Co. Inc. Nebo Fee No. 72, sec. 4-6-3, located 660 feet east and 642 feet north of the southwest corner of the southwest quarter of the southwest quarter. To be drilled 4,500 feet by Wolf and Magee; Nebo Oil Co. Inc. Nebo Fee No. 73, sec. 9-6-3E, 660 feet south and 600 feet east of the northwest corner of the northwest quarter of the northwest quarter; Nebo Oil Co. Inc. Nebo Fee No. 76, sec. 9-6-3E, located 660 feet south and east of the northwest corner of the southwest quarter of the southwest quarter. To be drilled 4,500 feet by Wolf and Magee; Nebo Oil Co. Inc. Nebo Fee No. 77, sec. 9-6-3E, located 660 feet south and east of the northwest corner of the northwest quarter of the southwest quarter.

Tullus-Urania field: Air Lift Oil Co. Zeigen No. 4, sec. 18-10-2E, located 2356.14 feet east and 1848.4 feet north from the southwest corner.

TENSAS

Killens Ferry field: Robert F. Roberts et al, Ayr Timber Co. Inc. No. B-1, located 420 feet north and east of the southwest corner of the northwest quarter of the southwest quarter.

Lake Formosa field: Jett Drilling Co. Inc. et al, Battle Turner Unit No. 1, sec. 23-12-10E, located 575 feet of the east line and 520 feet of the south line of the southwest quarter of the northwest quarter; Jett Drilling Co. Inc. et al, Fisher Lumber Corp. No. B-3, sec. 22-12-10E, located 660 feet of the west line and 660 feet of the south line of the southwest quarter of the southwest quarter.

Rodney Island field: Jett Drilling Co. Inc. et al Harper No. C-1, sec. 11-10-12E, located from the intersection of the east line and the meander line of 1827, go north 65 degrees 30 minutes west 1665 feet west to surface location. B. H. location, north 17 degrees 30 minutes west 2240 feet from surface location.

The following drills were abandoned during the past week.

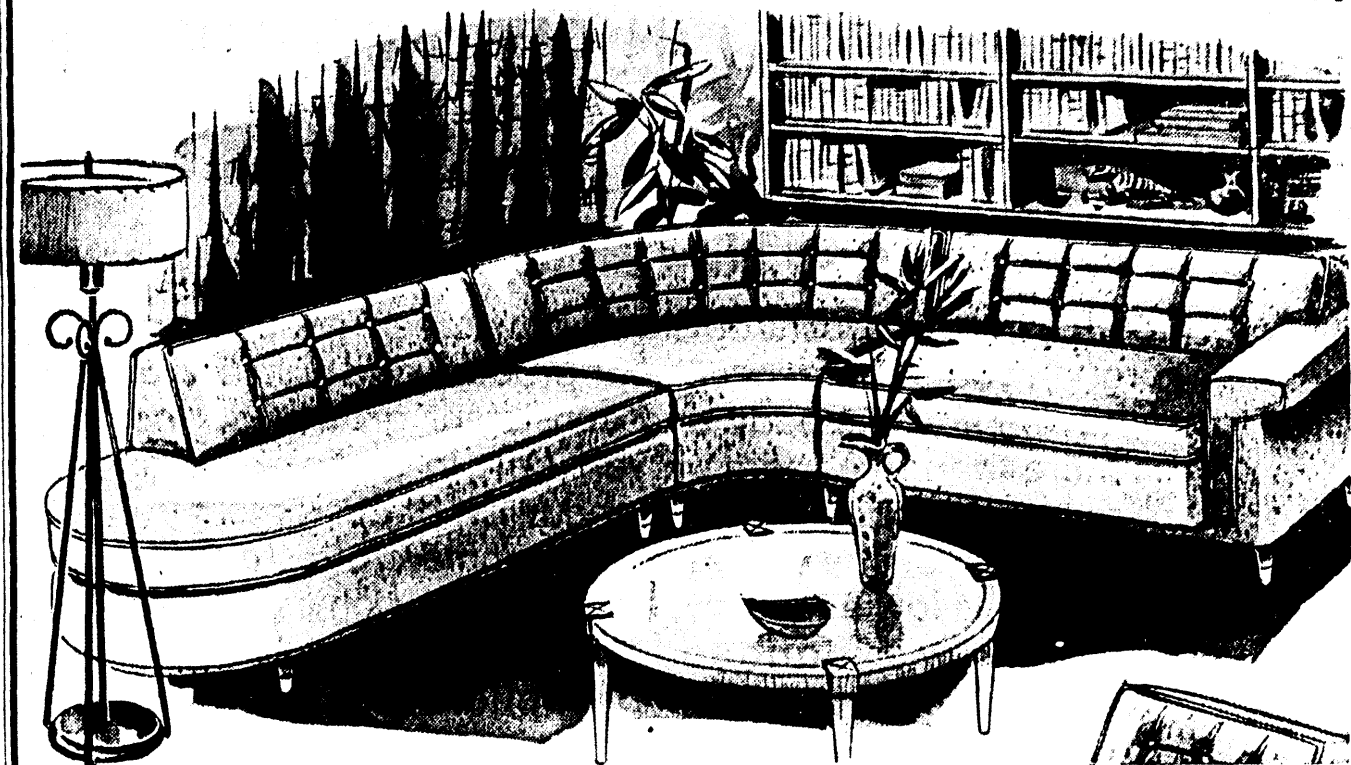

CONCORDIA
Wildcat field: H. L. Rowley Columbus Allen, No. 1, sec. 16-7-7E, was abandoned February 2 at a depth of 5850 feet.

South Esperance Point field: Jett Drilling Company Inc. Olin Gas Trans Corp. A. H. Campbell No. B-6 was plugged at 6726 feet on February 4th.

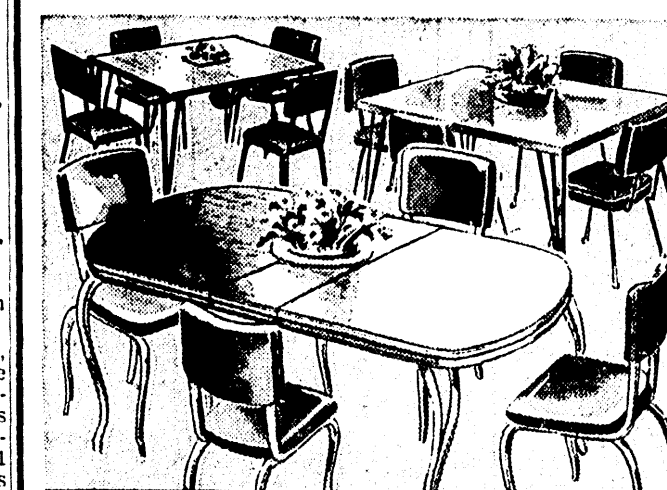

UNION
Wildcat field: The Carter Oil Co. H. P. Calvin et al No. 1, section 8-21-3W was plugged and abandoned February 1 at a depth of 11,520 feet.

This decade, which might well be called "The Fantastic Fifties," will be followed by a decade that will probably be aptly called, "The Spellbound Sixties."

No Evidence Of Rules Violation Found In Crash

WASHINGTON, Feb. 8. (UP)—Civil Aeronautics Administrator James T. Pyle testified Friday there was no evidence that any air safety rules were violated in the crash of a Northeast Airlines DC-6 in New York last Friday.

Twenty persons were killed when the Miami-bound airliner crashed on Rikers Island in the East River seconds after taking off from La Guardia Field.

Meantime, James R. Durfee, chairman of the Civil Aeronautics Board, said the CAB recognizes the possibility that an air crash over the Los Angeles area last Thursday involved a violation of rules prohibiting test flights over congested areas.

The two top civil air officials testified before a House Commerce Committee investigating the two crashes.

Pyle said a long inquiry was ahead in the New York crash but pending its conclusion, he said, "we do not feel that any violations of existing regulations took place or that any new regulations are appropriate."

In the California crash, William B. Davis, a CAA airworthiness expert, testified that "it appears to us now" that the collision between a DC-8B and an Air Force jet fighter, both on test flights, occurred over a mountainous area.

Although the area was sparsely populated, he said, the DC-7B fell into a schoolyard at Pacoima, Calif., several miles away. Eight persons, including three school boys, died as a result of the crash.

Durfee said, however, the CAB had not ruled out the possibility the rule against flight tests over populated areas was violated.

Committee Chairman Oren Harris (D-Ark.) warned against splitting hairs on the issue, pointing out that mountains and cities are closely intermingled in Southern California.

Pyle said the government was working as "fast as humanly possible" to improve control of air traffic but he warned there can be no "overnight, spectacular" improvement.

Ten Power Firms Plan New Reactor

MINNEAPOLIS, Feb. 8 (UP)—Ten Midwest power companies Friday announced plans for building a radically new atomic power plant capable of producing enough energy for a city of 120,000.

The plant will cost between \$20-million and \$25-million, will have a power capacity of 60,000 kilowatts, and will probably be located on the Mississippi River somewhere in southern Minnesota, the announcement said.

It is expected to be in operation by 1962. Although officials emphasized the plant is experimental and will not compete with power plants using coal and natural gas, one spokesman said it will "permit energy produced by the atomic power plant to flow into Iowa and the systems of the participating counties."

A new type of "boiling water" nuclear reactor, perhaps the most advanced yet developed, will provide the core of the Midwest atomic power plant, it was revealed.

The reactor was developed by Allis-Chalmers Manufacturing Co. of West Allis, Wis., one of the two prime contractors and architects of the power plant.

Company officials said the new reactor will use atomic materials and super-heated steam to provide power for the plant. It will be housed in a steel and concrete building, 45 by 70 feet in diameter, and have a 5-by-5 foot core of atomic material.

C. B. Graham, chief engineer of the Allis-Chalmers nuclear power department, said "we hope this reactor will be a big step in the development of cheap atomic power."

He said the reactor will produce as much heat as a boiler burning about 20 tons of coal per hour continuously. It needs refueling only about once a year.

It will be one of 19 atomic power plants planned in the nation. They will cost a total of \$675-million and have a total generating capacity of nearly 1,500,000 kilowatts.

In a side development, the Argonne National Laboratory at Lemont, Ill., planned to put a brand new "boiling water" plant into full power operation Saturday. It will mark one of the first positive steps in harnessing atomic power for completely peaceful uses.

Damage Suit Filed In Accident Case

A \$658.79 suit was filed yesterday against Harvie Lee Evans and John Prestridge, both of this parish, by H. C. Mize, also a local resident.

Mize claims his automobile was damaged to the extent of \$658.79 on April 20, 1956, when it was struck at the corner of North 4th and Washington by a vehicle driven by Evans, who was employed by Prestridge.

Mrs. Mize was driving the automobile.

Four Wells Completed During Week; Three Are Abandoned

The weekly report of the Monroe office of the State of Louisiana Conservation Department yesterday listed four completions, three abandonments and 10 new applications to drill.

The Ouachita parish wildcat of Pan American Prod. Corp. (formerly Stanolind Oil and Gas Co.) T. S. Parker No. 1, Sec. 5-17-3E, was completed as a gas well. The well has been perforated at 9356 to 9400 feet. It made approximately 60 barrels of distillate and the open flow was estimated at 1,270 MCF.

The Robert F. Roberts Ayer Timber Co. Inc. No. 2, section 31-14-10E, in Killens Ferry field, Tensas parish was completed as an oil well on January 31. It tested 234 barrels of 43 gravity oil daily on a 1/4 inch choke. Production is from perforations at 6911-54 feet with a tubing pressure of 350 pounds and casing pressure of 800 pounds. The gas-oil ratio is 300 to one and the total depth of the well is 7,004 feet.

The Jett Drilling Co. Inc. Harper state unit No. 5, section 10-12-12E, in Rodney Island field of Tensas parish was completed February 1 as an oil well. The well tested 130 barrels of 40.5 gravity oil daily on a 7-64 inch choke. Production is from perforations at 9612-17 feet with a tubing pressure of 2,000 pounds. The gas-oil ratio is 1,869 to one and the total depth is 9743 feet.

David Crow Tr., Quinn No. 2, section 24-4-6E in Bee Brake field of Concordia parish was finished Jan. 22, pumping 10 barrels of 37.2 gravity oil daily. Production is from perforations at 6678-91 feet. Tubing pressure is 20 pounds and the casing pressure is 100 pounds.

The new applications to drill are in the following parishes:

CONCORDIA
Jett Drilling Co. Inc. Paul F. Barnhart et al, Hog-Esperance No. A-8, sectio 0-5N-9E. Located from the southwest corner of section 8, go south 20 degrees 21 minutes east for 7661.3 feet to location.

LA SALLE
Rogers field: Nebo Oil Co. Inc. Nebo Fee No. 72, sec. 4-6-3, located 660 feet east and 642 feet north of the southwest corner of the southwest quarter of the southwest quarter. To be drilled 4,500 feet by Woolf and Magee; Nebo Oil Co. Inc. Nebo Fee No. 73, sec. 9-6-3E, 660 feet south and 600 feet east of the northwest corner of the northwest quarter of the northwest quarter; Nebo Oil Co. Inc. Nebo Fee No. 76, sec. 9-6-3E, located 660 feet south and east of the northwest corner of the southwest quarter of the northwest quarter. To be drilled 4,500 feet by Woolf and Magee; Nebo Oil Co. Inc. Nebo Fee No. 77, sec. 9-6-3E, located 660 feet south and east of the northwest corner of the northwest quarter of the southwest quarter.

Tullos-Urania field: Air Lift Oil Co. Zeigen No. 4, sec. 18-10-2E, located 2356.14 feet east and 1848.4 feet north from the southwest corner.

TENSAS
Killens Ferry field: Robert F. Roberts et al Ayer Timber Co. Inc. No. B-1, located 420 feet north and east of the southwest corner of the northwest quarter of the southwest quarter.

Lake Formosa field: Jett Drig. Co. Inc. et al, Battle Turner Unit No. 1, sec. 23-12-10E, located 575 feet of the east line and 520 feet of the south line of the southwest quarter of the northwest quarter; Jett Drig. Co. Inc. et al, Fisher Lumber Corp. No. B-3, sec. 22-12-10E, located 660 feet of the west line and 660 feet of the south line of the southwest quarter of the southwest quarter.

Rodney Island field: Jett Drilling Co. Inc. et al Harper No. C-1, sec. 11-10-12E, located from the intersection of the east line and the meander line of 1827, go north 65 degrees 30 minutes west 1665 feet west to surface location. B. H. location, north 17 degrees, 30 minutes west 2240 feet from surface location.

The following drillsites were abandoned during the past week.

CONCORDIA
Wildcat field: H. L. Rowley Columbus Allen, No. 1, sec. 16-7-7E, was abandoned February 2 at a depth of 5850 feet.

South Esperance Point field: Jett Drilling Company Inc. Olin Gas Trans Corp. A. H. Campbell No. B-4 was plugged at 6726 feet on February 4th.

UNION
Wildcat field: The Carter Oil Co. H. P. Colvin et al No. 1, section 8-21-3W was plugged and abandoned February 1 at a depth of 11,520 feet.

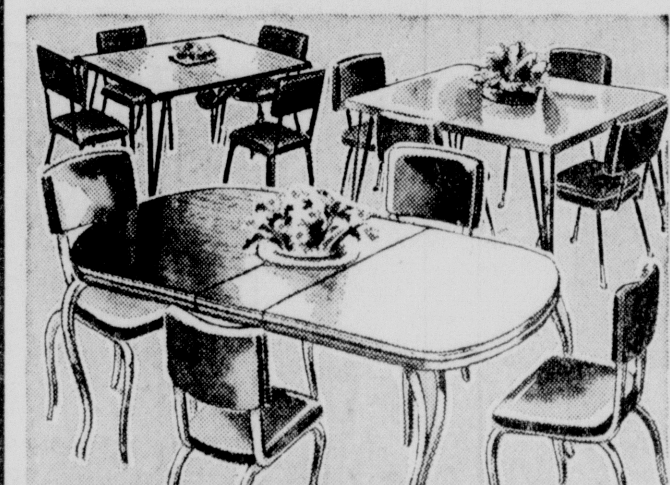

This decade, which might well be called "The Fantastic Fifties," will be followed by a decade that will probably be aptly called, "The Spellbound Sixties."

Last Rites For Richland Clerk At 10 A.M. Sat.

RAYVILLE, Feb. 8 (Special)—Funeral services will be held at 10 a.m. tomorrow for James Cook Boies, 57, Richland parish clerk of court who died today in a Monroe hospital.

Services are slated at the First Baptist Church of Rayville. Interment, under the direction of Mulhearn Funeral Home, will be in the Gwin Cemetery at Mangham. Boies was born and raised at Mangham. He served as deputy clerk of court prior to his election as clerk of court. He had served about one year on his sixth term as clerk at the time of his death.

Survivors include his wife, Mrs. Suzie Frey Boies of Rayville; one daughter, Mrs. George Bolton, Jr. of Rayville; one son, Lannie Cook Boies, of Rayville; one sister, Mrs. Dan McKay of Mangham; one brother, Reese C. Boies of Mangham; three grandchildren and several nieces and nephews.

Billy Graham was safe in saying that man is the master of the home. He was several thousand miles from home when he said it.

EYE TEST—Lt. Cdr. John L. Murphy, USN (right), skipper of the USS Outpost, YARG-10, newly converted radar picket ship which was commissioned at the Philadelphia Naval Base this week, watches as crew technicians demonstrate marking of simulated radar contact. They are Harry Cheyney, ETI (left), and Chris Hooper, RD-SN. The Outpost, a Liberty ship in World War II, has a crew of 112 men and 11 officers. Holds once filled with cargo are now jammed with myriads of electronic equipment, making the vessel a floating radar platform. (AP Wirephoto)

NAACP Says Coleman Has 'Wrong Facts'

JACKSON, Miss., Feb. 8 (Special)—The Mississippi chapter of the National Assn. for the Advancement of Colored People said today Gov. J. P. Coleman "must have been misinformed . . . when he said there is no intimidation of Negroes in Mississippi."

Coleman made the statement Wednesday before a House judiciary subcommittee studying proposed civil rights legislation. Coleman was invited to attend the meeting in Washington.

The NAACP said in a mimeographed statement: "We deplore the statement (by the governor) that Negroes are not intimidated when teachers had to sign an oath that they were not members of the NAACP. Negroes who seek their civil and human rights are subject to economic reprisals."

"We are sure that he (Coleman) was not referring to Mississippi when he said the civil rights proposal was aimed at a patriotic section of the country. He has constantly stated that there will be no integration in Mississippi under his administration."

The NAACP said the civil rights legislation "may be late" for some Negroes, but it will not be too late for 995,000 Negroes who still live in a state where police brutality is on the increase. It will not be too late for Negroes in the state who cannot get justice in the courts, and where white people take the law in their own hands."

the Negroes were convicted for the killing of white people."

Air-Conditioning Course Is Slated

Earl Lee Hammett, coordinator for the Ouachita Valley Vocational School, late yesterday announced a class in automobile air-conditioning, which will be held on Slack street in West Monroe. W. S. Desha will be instructor.

While the course is designed primarily to teach maintenance men how to effectively service air conditioners in customer's cars, the course will also teach advanced procedures of maintenance and service upkeep. Students must attend the course

for ten weeks, two nights a week. Each session will last about two and one-half or three hours each night, Hammett pointed out. Anyone interested in enrolling in a second class, which is being drawn up now, may call Hammett at 3-3491 or visit the Ouachita Valley Vocational School in West Monroe.

Crossett Home For War Bride

CROSSETT, Feb. 8 (Special)—A better understanding between people of different religious customs, and racial backgrounds is being made by G. L.'s stationed in countries around the world.

Take, for instance, the young Japanese bride living in Crossett. Mitsu Fukagawa Wilber has lived most of her life in Japan, and never expected to live anywhere else. And then she fell in love with a tall American Staff Sgt. named Claude Wilber. Now, three years after her marriage she is alone in a furnished room in Crossett, waiting for her husband, who is stationed near Casablanca, North Africa, to reach a point in rotation where he can rate a "base dependent." Then she will fly to Casablanca.

Meantime, more and more people are growing to know this tiny Japanese girl. She appears willingly before groups of young people in the churches and wherever asked. Her costume thrills the children with its color and Oriental styling. And her background religions are explained to the young people. Both the Shinto and Buddhist faiths are practiced in her home.

Japan is brought down to a next-door level in Crossett. She loves pretty clothes, all sports, children, housekeeping, mechanics, dancing, and the climate of Arkansas.

Mitsu is a graduate nurse, but was working in the Johnson Air Base garage near Tokyo when she met Claude. So, as he studies his correspondence courses in radio to prepare for a career after the service, she, with her background in mechanics, studies with him and is of frequent help.

Mitsu is studying books on American naturalization and citizenship and hopes to make the United States her home when her husband leaves the air force in two more years. And her English is constantly improving. She carries her little Japanese-English dictionary with her at all times, and refers to it whenever she is faced with a new word.

Of Crossett she says, "I am surprised to find it so very clean town!" When asked what she would take back to Japan if she returned there to live, she said, "The automatic washing machine!"

The few months that Mitsu Wilber has spent in Crossett have made the world smaller for a large number of people.

Man Is Found Dead At Home

PURVIS, Miss., Feb. 8 (Special)—A circuit court jury found F. D. Conn of Hattiesburg guilty of simple assault and Judge Sebe Dale sentenced him to six months in jail and \$500 fine.

Judge Dale deferred the jail sentence until July. The jury returned the verdict late yesterday. Conn's attorneys said they would appeal to the Mississippi Supreme Court.

Conn was indicted on a charge of assault and battery with intent to kill. The matter stemmed from a labor dispute at Pontiac Refinery construction site last August when Conn pointed a pistol at picket H. L. Boone, the state's attorney said.

They added that no shots were fired and that Lamar County Sheriff C. H. Hickman disarmed Conn without trouble.

Real Estate Transfers

The following real estate transfers were recorded in the office of the Ouachita parish clerk of court Friday:

George N. Venable sold to J. T. Hinkle lot 53 of block 2 of the Lakeshore subdivision for \$2,000. Nathaniel B. Bubb sold to William McCain, Sr., lot 7 of block 10 of extension, 2 of the Lakeshore subdivision for \$1,000.

Gordon L. Jiles sold to James E. Jones lot 2 of block 17 of the Ouachita Cotton Mills Second addition to the City of Monroe for \$1,000.

Vincey W. Tidwell sold to James Robert Henry lot 6 of block 5 of the Broadmoor Place addition to Monroe for \$11,225.

Mrs. Bobbie A. Reis sold to Stanley Harding Bryant the south 65 feet of lot 8 of block 1 of a subdivision of blocks 15 and 16 of the Crescent Bend addition to the City of Monroe for \$10,150.

Ursley Lumber Supply Company, Inc., sold to Edward J. Naquin, Jr., lot 4 of block 3 of the Westwood subdivision for \$15,750.

Last Rites For Richland Clerk At 10 A.M. Sat.

RAYVILLE, Feb. 8 (Special)—Funeral services will be held at 10 a.m. tomorrow for James Cook Boies, 57, Richland parish clerk of court who died today in a Monroe hospital.

Services are slated at the First Baptist Church of Rayville. Interment, under the direction of Mulhearn Funeral Home, will be in the Gwin Cemetery at Mangham. Boies was born and raised at Mangham. He served as deputy clerk of court prior to his election as clerk of court. He had served about one year on his sixth term as clerk at the time of his death.

Survivors include his wife, Mrs. Suzie Frey Boies of Rayville; one daughter, Mrs. George Bolton, Jr. of Rayville; one son, Lannie Cook Boies, of Rayville; one sister, Mrs. Dan McKay of Mangham; one brother, Reese C. Boies of Mangham; three grandchildren and several nieces and nephews.

Billy Graham was safe in saying that man is the master of the home. He was several thousand miles from home when he said it.

EYE TEST—Lt. Cdr. John L. Murphy, USN (right), skipper of the USS Outpost, YARG-10, newly converted radar picket ship which was commissioned at the Philadelphia Naval Base this week, watches as crew technicians demonstrate marking of simulated radar contact. They are Harry Cheyney, ETI (left), and Chris Hooper, RD-SN. The Outpost, a Liberty ship in World War II, has a crew of 112 men and 11 officers. Holds once filled with cargo are now jammed with myriads of electronic equipment, making the vessel a floating radar platform. (AP Wirephoto)

NAACP Says Coleman Has 'Wrong Facts'

JACKSON, Miss., Feb. 8 (AP)—The Mississippi chapter of the National Assn. for the Advancement of Colored People said today Gov. J. P. Coleman "must have been misinformed . . . when he said there is no intimidation of Negroes in Mississippi."

Coleman made the statement Wednesday before a House judiciary subcommittee studying proposed civil rights legislation. Coleman was invited to attend the meeting in Washington.

The NAACP said in a mimeographed statement:

"We deplore the statement (by the governor) that Negroes are not intimidated when teachers had to sign an oath that they were not members of the NAACP. Negroes who seek their civil and human rights are subject to economic reprisals."

"We are sure that he (Coleman) was not referring to Mississippi when he said the civil rights proposal was aimed at a patriotic section of the country. He has constantly stated that there will be no integration in Mississippi under his administration."

The NAACP said the civil rights legislation "may be late" for some Negroes, but it will not be too late for 985,000 Negroes who still live in a state where police brutality is on the increase. It will not be too late for Negroes in the state who cannot get justice in the courts, and where white people take the law in their own hands."

The NAACP took issue with Coleman's statement that four Negroes were killed by whites in 1955, saying no white man was convicted of these killings "but

the Negroes were convicted for the killing of white people."

Air-Conditioning Course Is Slated

Earl Lee Hammett, coordinator for the Ouachita Valley Vocational School, late yesterday announced a class in automobile air-conditioning, which will be held on Slack street in West Monroe. W. S. Desha will be instructor.

Casper Fires 65 To Grab Tucson Lead

Little Known Harris Blow Back In 2nd

By MURRAY SINCLAIR
TUCSON, Feb. 8.—Billy Casper, Jr. of Bonita, Calif., dropped a 45-foot chip shot on the 18th today to take a one-stroke lead at the halfway mark in the \$15,000 Tucson Golf Open.

Casper's 66-65-131 for the 6,434 yard par 70 Del Rio layout put him in front of Bob Harris, Winnetka, Ill., who had finished earlier with 68-64-132.

Casper, 36, a pro for the last week's Phoenix Open, appeared to have blown his chance for the lead when he flubbed a shot out of the trap beside the 13th green. The ball moved a few feet into a dip. The chip shot dropped for his only birdie of the second nine.

"Two lucky shots did it," he said. "The other was when I holed out from a sand trap on the third hole."

"I'm going to have to play a lot better golf if I'm going to win," Casper, a pro for only 30 months, went out in 30, five under par.

John Cleary of Hartford, Conn., a youngster who has played in only a few tournaments and never won one, and Julius Boros of Mid-Pines, N.C., are tied for third with 133.

Howie Johnson, Houston, Tex., the first round leader, Doug Ford, Mahan, N.Y., but money winner of the winter circuit to date, and Frank Stanahan, of Toledo, Ohio, are grouped at 134.

Among the eight golfers knotted at 135 are Mike Souchak, Grossinger, N.Y., one of the tourney favorites, and Henry Williams Jr., Reading, Pa., the only player entered who has won the event previously.

Casper birdied the first hole, third and eighth, and had an eagle-3 on the 550-yard ninth hole. He went over par on the 12th.

The 27-year-old Harris said he had a chance for a phenomenal round. "I was within easy putting distance for birdies on 16 of the holes," he said. "I dropped six of them, but a lot of the others were close to me. I'm not complaining. This was the best 3 holes I ever had."

Harris has never been a winner in a P.G.A. tournament, nor has Cleary.

The field was cut to 61 pros and 11 amateurs.

Billy Casper, Jr., Bonita, Calif. 66-65-131.
Bob Harris, Winnetka, Ill. 68-64-132.
John Cleary, Hartford, Conn. 69-64-133.

Romack, Dye Gain Palm Beach Final

PALM BEACH, Fla., Feb. 8.—Barbara Romack of Sacramento, Calif., pulled her erratic long putt, while Miss Romack golf came together on the 19th hole Friday to beat Polly Riley of Fort Worth, Tex., 1-up, in the 12th hole of the Palm Beach Amateur Championships.

Miss Romack, former women's winner of the Hollywood Four-Ball national amateur championship, will meet Mrs. Alice O'Neal Dye of Indianapolis, Ind., Saturday in the 18-hole final.

Mrs. Dye, 23-year-old mother of two, defeated Mary Ann Downey of Baltimore, 2-up, in the 18-hole final.

Miss Romack started out like she would make a runaway of her match with Miss Riley. The California miss dropped in putts of 25, 22 and five feet for birdies on three of the first five holes to go 3-up. She held the margin at the turn, carding a two-under-miss par 33. The discouraged Miss Riley, a three-time winner of this event, boeyed the 10th and the margin was 4-up for Miss Romack.

Miss Riley won the 12th with a seven-foot putt for a birdie-two and captured the next three holes with steady pars as Miss Romack's game unexpectedly went to pieces.

The veteran Miss Riley won in 1941. She was 12th in the 1942 tournament and captured the next three holes with steady pars as Miss Romack's game unexpectedly went to pieces.

LIGHT AND HEAVY EXERCISE FOR "MOOSE"—Bill "Moose" Skowron, Yankee first baseman, starts trimming off the "winter waistline" as training camp nears. On the light side he peels potatoes for a church supper at Austin, Minn. But vigor of his rope-skipping in the high school gym is attested by the identification tag flopping up to partly obscure his right eye. Moose says he is trying to hit 197 from "about 210." Redskins Fall To Lions

HAMMOND, La., Feb. 8.—The Southeastern Lions survived a scorching rally by Northeast State, in the last six minutes tonight to take a 77-74 Gulf States Conference basketball victory.

Southeastern led 73-51 going into the final six minutes, but Northeast hit for 20 points and trailed only 73-71 in the final minute.

Jimmy Casabat hit on two free throws to pad the Lions' margin to four points, but Sid Bradley cut the advantage with a jump shot. Casabat hit on two more free tosses as the game ended.

Huey Faciane's 22 points topped the Southeastern attack while Lloyd Crocker dumped in 16 to anchor the Northeast offense.

Grayson's Cagers Tumble To Neville

GRAYSON, La., Feb. 8 (Special)—The Neville High School Tigers of Monroe, who recently had a 26-game winning streak snapped, broke a string of home town triumphs for Grayson High's Warriors here tonight by handing the host quint its first loss on a home floor this season, 52-45.

Neville's girls also won the program opener over the Grayson sextet, 50-29.

Knight of Grayson was high scorer in the boys' contest and was backed by Crockett's ten, but the Tigers had a better point spread among their players to claim the victory as Johnny Blake led with 14, Bob Groves and 12, with Fred Southerland and Bob Mosley producing eight each.

Rounding out the Grayson scoring were Legg, 8; Ferrand, 7; Hester, 4; and Smith 3.

Ann McDonald led the Neville girls with 23 points, and Mixon was high scorer for Grayson with 13. Hemphill and Nubles backed McDonald with 12 each, Stamper supported Mixon with ten.

Casper Fires 65 To Grab Tucson Lead

Little Known Harris Blow Back In 2nd

By MURRAY SINCLAIR
TUCSON, Feb. 8 (UP)—Billy Casper, Jr. of Bonita, Calif., dropped a 45-foot chip shot on the 18th today to take a one-stroke lead at the halfway mark in the \$15,000 Tucson Golf Open.

Casper's 66-65-131 for the 6,434-yard par 70 Del Rio layout put him in front of Bob Harris, Winnetka, Ill., who had finished earlier with 68-64-132.

Casper, only poly winner of last week's Phoenix Open, appeared to have blown his chance for the lead when he flubbed a shot out of the trap beside the 18th green. The ball moved a few feet into a dip. The chip shot dropped for his only birdie of the second nine.

"Two lucky shots did it," he said. "The other was when I holed out from a sand trap on the third hole."

"I'm going to have to play a lot better golf if I'm going to win."

Casper, a pro for only 30 months, went out in 30, five under par.

John Cleary of Hartford, Conn., a youngster who has played in only a few tournaments and never won one, and Julius Boros of Mid Pines, N.C., are tied for third with 133.

Howie Johnson, Houston, Tex., the first round leader; Doug Ford, Mahopac, N.Y., big money winner of the winter circuit; and Frank Stanahan, of Toledo, Ohio, are grouped at 134.

Among the eight golfers knotted at 135 are Mike Souckach, Grossinger, N.Y., one of the tourney favorites, and Henry Williams, Jr., Reading, Pa., the only player entered who has won the event previously.

Casper birdied the first hole, third and eighth, and had an eagle-3 on the 550-yard ninth hole. He went over par on the 12th.

The 27-year-old Harris said he had a chance for a phenomenal round. "I was within easy putting distance for birdies on 16 of the holes," he said. "I dropped six of them, but a lot of the others had gone in. I'm not complaining. This was the best 3 holes I've ever had."

Harris has never been a winner in a P.G.A. tournament, nor has Cleary.

The field was cut to 61 pros and 11 amateurs.

GO-GO-GO!—This is what Howie Johnson of Houston, Tex., seems to be telling a slow rolling ball as he assists with some body English in the first round of the Tucson Open Thursday. It finally dropped in the cup to give Johnson a first round 64 to lead. But he skidded into a fifth place tie with a 70 yesterday as Billy Casper Jr. took command with 66-65—131. (AP Wire-photo)

Demonfish Oppose Texas Team Today

NATCHITOCHES, La., Feb. 8 (Special) — "Beat Texas!" has been the password echoing through the Northwestern State College Natatorium this week, as the Demonfish splashed

Skipper Vows Spaniard Will Settle Crown

MEXICO CITY, Feb. 8 (UPI) — Manager Jules Averin said Friday his Spanish fighter, Juan Cardenas, will settle the dispute over two bantamweight "world champions" by upsetting NBA kingpin Raul (Raton) Macias in their non-title bout here Sunday.

"Then Cardenas will knock over (IBC champion) Mario D'Agata, and that will leave only one world champion—Cardenas," Averin said.

Macias is a strong favorite for the 10-round outdoor clash in the big Plaza Mexico Bullring, but Averin said the young Spanish veteran is "in top physical condition" and expects to whip the NBA champion.

The fight is a "breather" for Macias who is seeking a crack at the undisputed world crown against D'Agata.

But the Mexican's manager, Luis Andrade, said Macias' frustration over his failure to come to terms with D'Agata "definitely gives Cardenas a psychological edge."

Cardenas recently lost a close decision to the Italian and would rate a return bout if he makes an impressive showing against Macias.

A crowd of between 35,000 and 50,000 is expected for the 6:30 p.m. (CST) fight.

Ridzik, Lennon Sign Pacts With Giants

NEW YORK, Feb. 8 (UPI) — Right-handed pitcher Steve Ridzik and outfielder Bob Lennon have signed their 1957 contracts with the New York Giants, it was announced Friday.

The Giants now have 33 of their 38 players signed for the forthcoming season.

Ridzik, appearing mostly in relief, posted a 6-2 won and lost record last season and had a 3.82 earned-run-average. Lennon opened the 1956 season with the Giants but later was shipped to Minneapolis, where he hit .266.

Cook, Arriving Early, Says Smith 'Mighty Good' Boy

Clarence Cook, the Louisiana middleweight fighting out of St. Louis, wants to take no chances with a bad cold this trip and arrived on the scene early yesterday for his February 18 main event 10-round date with Irish Ernie Smith at Gus Kallio's Arena here.

Cook surprised Promoter Gus Kallio yesterday by moving in a day earlier than expected, but Clarence explained he was making the move to get used to weather changes and avoid another cold such as stuffed him up for his bout here last month with Jimmy Martinez.

"Smith is a mighty good fighter and I want to be at my best to

Name Doherty Arizona Coach

Handed 1-Year Pact To Build Grid Fortunes

TUCSON, Ariz., Feb. 8 (AP) — Offense-minded Ed Doherty, who says he teaches football the way it will be played 25 years from now, today was named head coach at the University of Arizona.

The 38-year-old former Boston College star will be given a one-year contract, the maximum under university policy, to succeed Warren Woodson.

Woodson resigned at the end of a poor 1956 season, during which his teams won four games and lost six, to become a professor of physical education.

Doherty's salary was not disclosed, but it is believed to be about \$10,000 a year.

Becoming Arizona's 18th head coach in the 58 years since the school began playing football, Doherty now will have been on both sides of one of the Southwest's hottest athletic rivalries. From 1947 through 1950, he was grid boss at Arizona State College of Tempe.

His Arizona State teams won 26 games, lost 15 and, in Doherty's last two years on the job, State walked off Arizona by scores of 34-7 and 47-13. Doherty's ASC teams twice led the nation in rushing.

Doherty basically is a T formation coach, but he mixes in a lot of spreads and flankers.

"I like to think I coach the way football will be played 25 years from now," he said. "Win or lose, my type of football is crowd pleasing."

Doherty, who will assume his new duties next week, says he is familiar with the athletic setup at Arizona and "I know the Border Conference very well."

From the standpoint of attracting high school athletes to the university, he said:

"I'm in the fortunate position of having a close personal friendship with high school coaches in the state, several of whom are former players of mine who will be loyal to me."

Doherty, a native of Andover, Mass., is married and has six children.

Pancho Segrua Tops Gonzales In Net Meet

SYDNEY, Australia, Feb. 8 (UPI) — Pancho Segrua of Ecuador, who has been playing "second fiddle" to Pancho Gonzales for years, finally gained revenge Friday night by upsetting the husky Californian, 3-6, 4-6 6-3 6-4, 13-11, in the semifinals of the Ampol Professional Tennis Tournament.

Segrua will play former Australian Davis Cup star Frank Sedgman for the title and a \$4,500 purse Sunday in the finals of the world's richest tennis tournament.

Segdman gained the title round Thursday night by routing young Ken Rosewall in straight sets.

Few experts gave Segrua much of a chance against Gonzales, the reigning world pro champion and the star of Jack Kramer's world-touring troupe. Segrua has been a member of the Kramer troupe for several years but always has been cast in a supporting role.

However, in Friday night's match, witnessed by a capacity crowd at White City Stadium, the little Ecuadorian proved Gonzales' master in a thrilling three-hour long struggle.

Gonzales looked like an easy winner when he walked off with the first two sets. But then Segrua, employing his unorthodox two-fisted stroking, rallied to tie the match and then outlasted Gonzales in the decisive fifth set.

Gonzales' bullet-like service is his biggest weapon but it proved insufficient against the fast-retrieving Segrua, who handled these shots with ease and finished the long match looking much stronger and fresher than his opponent.

Little Rock, formerly an independent team, now has a working agreement with the Kansas City Athletics.

The tickets, ringside reserved and general admissions, are all on advanced sale in prices of \$4, \$3, and \$2. The tickets are available at Kallio's Arena on Walnut street since he has moved his business office from his former Jackson street residence back to the arena.

The British girls win PARIS, Feb. 8 (UPI) — Angela Buxton of Britain and Mrs. Thelma Long of Australia Friday won their semifinal matches in the International French Indoor Tennis championships. Miss Buxton beat Mrs. Susie Kormoczy of Hungary, 11-9, 6-1, while Mrs. Long defeated Britain's Ann Shilcock, 6-3, 13-11.

DeMarco Will Battle Ortega For 3rd Time

BOSTON, Feb. 8 (AP) — Former welterweight champion Tony DeMarco reaches the crossroads of his fistic career needing a "big" victory tomorrow night in a third 10-round meeting with Gaspar (Indian) Ortega of Mexico at the Boston Garden.

Ortega, a lanky 21-year-old battler from Tijuana, knocked DeMarco from his spot as the No. 1 welter contender by gaining a pair of divided decisions in nationally televised bouts in New York.

DeMarco is hopeful of knocking out the rugged Mexican, but would be willing to settle for a one-sided decision. He and his followers figure a close decision in his favor won't help.

Ortega has won five of his last eight bouts by getting the vote of two of three officials.

At 25, DeMarco has a record of 45 victories and a draw in 54 pro bouts.

Tomorrow's bout will not be telecast or broadcast. Promoter Johnny Buckley is hopeful of a \$60,000 gate. Each fighter will receive 27 1/2 per cent of the "net."

Ortega has risen swiftly in the welter ranks during the past few months with the help of split decisions. He has won five of his last eight bouts by getting the vote of two of three officials.

The Mexican made his Boston debut last October and gained a highly-disputed decision over Cuba's Isaac Logart in a nationally televised 10-rounder. Next he edged DeMarco in New York on Nov. 30, and then won the rematch Dec. 31.

The victories shot Ortega's standing in the national rankings. He now is rated the No. 2 contender, one notch ahead of DeMarco, in Ring ratings. Johnny Saxton is listed the top contender behind Champion Carmen Basilio, who lifted the crown from DeMarco in 1955.

Despite his losses in New York Tony will go into tomorrow's bout a 10-6 favorite. He ruled a 4-1 choice in his first bout with Ortega, and a 2-1 favorite in the second.

Ortega, who also was a 4-1 underdog in his Boston meeting with Logart, has a lifetime record of 37 victories and seven losses. He claims he had more confidence against DeMarco now because he has gone 20 rounds with the Boston slugger without being floored.

Student Driver Injured As Car Turtles In Race

DAYTONA BEACH, Fla., Feb. 8 (UPI) — The first serious mishap of the 1957 stock car carnival occurred on the Daytona Beach measured mile Friday when William Norkett, 29, was injured competing in the "Flying Mile."

Norkett, a Chicago student, suffered burns of the eyes and hands and possible internal injuries after his Ford Thunderbird, traveling at 130 miles per hour, hit a dip in the beach track and rolled over six times.

The accident occurred during competition among some 100 of the fastest American and European sports cars, which were slated to roar down the five-mile sand straightaway in the "Flying Mile," one of the feature events of the first week of the two-week speed tests. The time trials were called off temporarily after Norkett was hurt, delaying the event a second time.

The Flying Mile had been scheduled for Thursday, but ocean waves left a bumpy and dangerous track that caused the first delay.

Norkett was driving a 1955 Thunderbird when he lost control. The car zig-zagged some 500 feet and began rolling over, leaving a trail of spilled gasoline that caught fire and caused the burns.

In practice runs Thursday, the Chicago speedster had chalked up the high speed mark with an average of 133.958 miles per hour.

BRITISH GIRLS WIN
PARIS, Feb. 8 (UPI) — Angela Buxton of Britain and Mrs. Thelma Long of Australia Friday won their semifinal matches in the International French Indoor Tennis championships. Miss Buxton beat Mrs. Susie Kormoczy of Hungary, 11-9, 6-1, while Mrs. Long defeated Britain's Ann Shilcock, 6-3, 13-11.

Four-Minute Mile Faces Twin Threat

By STEVE SNIDER
NEW YORK, Feb. 8 (UPI) — Hungary's self-exiled distance runner, Laszlo Tabori, will attempt to snap Ron Delany's unbeaten record Saturday night in the Wanamaker Mile, which will feature the golden jubilee Millrose Games at Madison Square Garden.

It will mark the first meeting in track history of two sub-four minute milers on a board track. Both men have been clocked in 3:59 flat outdoors.

Delany, the Olympic 1,500-meter champion from Ireland, never has been beaten indoors. He returned to the smoke-filled arenas last week at Boston for the first time since winning his gold medal at Melbourne and posted a 4:07.5 clocking in winning the B.A.A. mile run. It was the Villanova College ace's ninth straight victory on the boards.

Tabori, who decided not to return to Hungary after finishing fourth in the metric mile event at Melbourne, still is looking for his first victory in the United States. However, he has been training well for his New York debut.

The curly-haired Hungarian skipped last week's Boston meet in order to be well-rested for his meeting with Delany. If the pace is fast enough, both are considered capable of lowering the world indoor mile mark of 4:03.6, set by Denmark's Gunnar Nielsen in this same race two years ago.

Bobby Seaman of UCLA, who finished second behind Delany last week at Boston, will be back for another crack at the slender Irishman. The other invited starters are former New York university miler George Kim, Barry Grim of Maryland and Jim Beatty of North Carolina.

In addition to Delany, five other Olympic champions will strut their stuff in New York's first indoor track meet of the season. They are Tom Courtney (800-meter), Charley Jenkins (400-meter), Lee Calhoun (110-meter high hurdles), Bob Richards (pole vault) and Milt Campbell (decathlon).

Courtney equalled the world's record of 1:09.5 for the 600-yard event last week at Boston but is skipping this race in the Millrose for another crack at Arnie Sowell in the 880. The Pittsburgh speedster has beaten Courtney in seven straight indoor meets going back to 1955.

"I still think I can beat Sowell on a banked track," the determined Courtney remarked. "In fact, I'm planning on a 1:49 race." The world record for the 880 indoors is 1:50.5, set by the late John Borican 15 years ago.

Top Cage Scorers In Action Tonight

NEW YORK, Feb. 8 (UPI) — Chet (The Jet) Forte's two-day reign as No. 1 scorer in college basketball goes under heavy fire Saturday night from his two closest rivals, Wilt (The Stilt) Chamberlain of Kansas and Grady Wallace of South Carolina.

Official NCAA statistics issued Friday credit Forte with 30.1 points per game, Chamberlain 29.8 and Wallace 29.4.

Forte, the five-foot, nine-inch Columbia whiz who gave the little man his day in the basketball sun by seizing the scoring lead from seven-foot Chamberlain on Wednesday night, goes back into action Saturday against Navy. Both his rivals will be playing, too.

Chamberlain, who has been outscored by Forte, 29.9 to 25.5, over the last 10 games for each, will lead Kansas against Nebraska.

And the six-foot, five-inch Wallace faces North Carolina State. Wallace, from Mare Creek, Ky., had a golden opportunity to pass both Forte and Chamberlain Thursday night when he needed 39 points against Wake Forest to nip Forte and 34 to top Chamberlain. He had 24 points with 10 minutes left, but took only one more shot and finished with 26 as South Carolina stalled to win.

Although Chamberlain lost his individual scoring lead during the past week, team leaders in scoring and defense remained the same.

Led by Forte, Columbia clung to its national scoring lead by improving its average slightly to 67.4 points per game. However, West Virginia gained ground by improving its mark to 87.1 and Illinois was a close third at 85.3.

The Oklahoma Aggies reduced their best-in-the-nation defense average to 52.4 points, but lost their season-long leadership in free throw shooting. The Aggies dropped all the way to fourth in that department as Duquesne took over with a .750 shooting mark.

Manhattan has the best field goal shooting average, .468. Texas ranked third behind Manhattan and Niagara in field goal accuracy with a .456 percentage.

Purse For Canadian Open Up To \$25,000

MONTREAL, Feb. 8 (UPI) — Prize money of the Canadian Open golf tourney was increased to \$25,000 from \$15,000, James P. Anglin, president of the Royal Canadian Golf Association, said today.

This year's Open will be played at Waterloo, Ont., July 10-13.

Only 5 Horses For McLennan Feature Today

MIAMI, Fla., Feb. 8 (AP) — Only five horses dared oppose Bardstown and Summer Tan in the \$50,000 added McLennan Handicap at Hialeah Park tomorrow, making this the smallest field in 22 runnings of the stake.

Calumet farm's Bardstown, winner of five stakes last year and of the Tropical Handicap last month, will carry top weight of 128 pounds but probably will be slight favorite at 9 to 10 or 4 to 5, with Willie Hartack riding.

Summer Tan, owned by Mrs. John W. Galbreath will pack 124 pounds, most of it jockey David Erb, and may be even money at post time. Summer Tan won three stakes last year and was an easy victor in his 1957 debut in an overnight race at Hialeah.

Running as an entry with Summer Tan will be Mrs. C. Ulrick Bay's Greek Spy, under 108 pounds with Conn McCreary up. Greek Spy and Summer Tan are both trained by Sherrill Ward.

Third choice probably will go to Forelli, stable jockey Switch On, with Sammy Boulmetis riding and 119 pounds. Switch On won the Palm Beach and McLennan last year and a win tomorrow would make him the first two-time winner of the McLennan and the Palm Beach.

Hasty House farm entered Sea O Erin, a capable mud runner but tough on a fast track, too. Sea O Erin will carry 110 pounds but no rider has been assigned since jockey Johnny Adams, his regular pilot, drew a suspension.

Maine Chance farm will be represented by Black Metal, under only 105 pounds with Ted Atkinson slated to ride.

The field is completed by Castle Rock farm's Mr. First, lightweight at 102 pounds and Charley Burr the jockey.

If all start, the race will have a gross value of \$62,400 and net the winning owner \$43,800. All McLennan entries are eligible for the \$100,000 added Widener Handicap, to be decided at a mile and a quarter two weeks hence.

The McLennan will be the first meeting of Bardstown and Summer Tan since October when they clashed in the Trenton Handicap at a mile and a quarter at Garden State Park, where Bardstown put on a furious stretch drive to beat Summer Tan by a neck.

Post time for the McLennan is 3:48 p.m. (CST) and the feature will be telecast nationally by NBC from 3:30 to 4 p.m.

D'Agata Signs For Defense Of Crown

VARESE, Italy, Feb. 8 (AP) — Contracts for a bantamweight title fight between Mario D'Agata of Italy and Alphonse Halimi of France were signed today in nearby Comerio. The bout was booked for April 1 in Paris.

D'Agata, a deaf mute, is recognized as the world champion by the European Boxing Union. Halimi's manager, Gilbert Benham, said he had been promised that the E.B.U. would accept the fight as valid for the title.

Previously, the European organization had threatened to deprive D'Agata of his title if he did not meet Raton Macias of Mexico, who is the 118-pound boss in the eyes of the U.S. National Boxing Association.

Cincinnati manager Birdie Tebbetts rates catcher Smokey Burgess as the best pinch hitter since Johnny Mize.

Bosseler Signs Two-Year Pact With Redskins

WASHINGTON, Feb. 8 (UPI) — Don Bosseler, Miami University All-America fullback, signed a two-year contract Friday with the Washington Redskins of the National Professional Football League.

Bosseler, the Redskins' No. 1 draft choice, flew here from his Batavia, N.Y., home Friday morning and signed after a brief conference with head coach Joe Kuharich.

In three years with Miami, Bosseler gained nearly 2,000 yards running. He also has been a standout pass receiver, punt receiver and defense back. In his final season with Miami last year, he gained 723 yards in 161 carries and never was thrown for a loss.

He was the star of the recent Senior Bowl game, leading the South to a 21-7 victory over the North team coached by Kuharich. In that game, Bosseler scored two touchdowns and gained 189 yards in 28 tries. He is 21 years old and weighs 205 pounds.

Name Doherty Arizona Coach

Handed 1-Year Pact To Build Grid Fortunes

TUCSON, Ariz., Feb. 8 (UP)—Offense-minded Ed Doherty, who says he teaches football the way it will be played 25 years from now, today was named head coach at the University of Arizona.

The 33-year-old former Boston College star will be given a one-year contract, the maximum under university policy, to succeed Warren Woodson.

Woodson resigned at the end of a poor 1956 season, during which his teams won four games and lost six, to become a professor of physical education.

Doherty's salary was not disclosed, but it is believed to be about \$10,000 a year.

Becoming Arizona's 18th head coach in the 56 years since the school began playing football, Doherty now will have been on both sides of one of the Southwest's hottest athletic rivalries. From 1947 through 1950, he was grid boss at Arizona State College of Tempe.

His Arizona State teams won 20 games, lost 15 and, in Doherty's last two years on the job, State wallowed Arizona by scores of 34-7 and 47-13. Doherty's ASC teams twice led the nation in rushing.

Doherty basically is a T formation disciple, but he mixes in a lot of spreads and flankers.

"I like to think I coach the way football will be played 25 years from now," he said. "Win or lose, my type of football is crowd pleasing."

"Win or lose, my type of football is crowd pleasing."

Doherty, who will assume his new duties next week, says he is familiar with the athletic setup at Arizona and "I know the Border Conference very well."

From the standpoint of attracting high school athletes to the university, he said:

"I'm in the fortunate position of having a close personal friendship with high school coaches in the state, several of whom are former players of mine who will be loyal to me."

Doherty, a native of Andover, Mass., is married and has six children.

Pancho Segura Tops Gonzales In Net Meet

SYDNEY, Australia, Feb. 8 (UP)—Pancho Segura of Ecuador, who has been playing "second fiddle" to Pancho Gonzales for years, finally gained revenge Friday night by upsetting the husky Californian, 3-6, 4-6, 6-3, 6-4, 13-11, in the semifinals of the Ampol Professional Tennis Tournament.

Segura will play former Australian Davis Cup star Frank Sedgman for the title and a \$4,500 purse Sunday in the finals of the world's richest tennis tournament. Sedgman gained the title round Thursday night by routing young Ken Rosewall in straight sets.

Few experts gave Segura much of a chance against Gonzales, the reigning world pro champion and the star of Jack Kramer's world-touring troupe. Segura has been a member of the Kramer troupe for several years but always has been cast in a supporting role.

However, in Friday night's match, witnessed by a capacity crowd at White City Stadium, the little Ecuadorian proved Gonzales' master in a thrilling three-hour long struggle.

Gonzales looked like an easy winner when he walked off with the first two sets. But then Segura, employing his unorthodox two-fisted stroking, rallied to tie the match and then outlasted Gonzales in the decisive fifth set.

Gonzales' bullet-like service is his biggest weapon but it proved insufficient against the fast-retrieving Segura, who handled these shots with ease and finished the long match looking much stronger and fresher than his opponent.

Little Rock, formerly an independent team, now has a working agreement with the Kansas City Athletics.

The tickets, ringside reserved and general admissions, are all on advanced sale in prices of \$4, \$3, and \$2. The tickets are available at Kallio's Arena on Walnut street since he has moved his business office from his former Jackson street residence back to the arena.

Clarence Cook, the Louisiana middleweight fighting out of St. Louis, wants to take no chances with a bad cold this trip and arrived on the scene early yesterday for his February 13 main event 10-round date with Irish Ernie Smith at Gus Kallio's Arena here.

Cook surprised Promoter Gus Kallio yesterday by moving in a week earlier than expected, but Clarence explained he was making the move to get used to weather changes and avoid another cold such as stuffed him up for his bout here last month with Jimmy Martinez.

"Smith is a mighty good fighter and I want to be at my best to

outs, also for other boxers of the area, are open to the public.

Promoter Kallio also said the advanced sale of tickets for his next fight show is already "as good or better" than for the Cook-Martinez fight in which the Arizona better handed Clarence the first loss of his career in a Monroe ring and his third defeat in 34 professional engagements.

DeMarco Will Battle Ortega For 3rd Time

BOSTON, Feb. 8 (UP)—Former welterweight champion Tony DeMarco reaches the crossroads of his fistic career needing a "big" victory tomorrow night in a third 10-round meeting with Gaspar (Ind.) Ortega of Mexico at the Boston Garden.

Ortega, a lanky 21-year-old brawler from Tijuana, knocked DeMarco from his spot as the No. 1 welter contender by gaining a pair of divided decisions in nationally televised bouts in New York.

DeMarco is hopeful of knocking out the rugged Mexican, out would be willing to settle for a one-sided decision. He and his followers figure a close decision in his favor won't help.

Ortega has won five of his last eight bouts by getting the vote of two of three officials.

At 25, DeMarco has a record of 45 victories and a draw in 54 pro bouts.

Tomorrow's bout will not be telecast or broadcast. Promoter Johnny Buckley is hopeful of a \$60,000 gate. Each fighter will receive 27 1/2 per cent of the "net."

Ortega has risen swiftly in the welter ranks during the past few months with the help of split decisions. He has won five of his last eight bouts by getting the vote of two of three officials.

The Mexican made his Boston debut last October and gained a highly-disputed decision over Cuba's Isaac Logart in a nationally televised 10-rounder. Next he edged DeMarco in New York on Nov. 30, and then won the rematch Dec. 31.

The victories shot Ortega's standing in the national rankings. He now is rated the No. 2 contender, one notch ahead of DeMarco, in Ring ratings. Johnny Saxton is listed the top contender behind Champion Carmen Basilio, who lifted the crown from DeMarco in 1955.

Despite his losses in New York Tony will go into tomorrow's bout a 10-6 favorite. He ruled a 4-1 choice in his first bout with Ortega, and a 2-1 favorite in the second.

Ortega, who also was a 4-1 underdog in his Boston meeting with Logart, has a lifetime record of 37 victories and seven losses. He claims he had more confidence against DeMarco now because he has gone 20 rounds with the Boston slugger without being floored.

Student Driver Injured As Car Turtles In Race

DAYTONA BEACH, Fla., Feb. 8 (UP)—The first serious mishap of the 1957 stock car carnival occurred on the Daytona Beach measured mile Friday when William Norkett, 29, was injured competing in the "Flying Mile."

Norkett, a Chicago student, suffered burns of the eyes and hands and possible internal injuries after his Ford Thunderbird, traveling at 130 miles per hour, hit a dip in the beach track and rolled over six times.

The accident occurred during competition among some 100 of the fastest American and European sports cars, which were slated to roar down the five-mile sand straightaway in the "Flying Mile," one of the feature events of the first week of the two-week speed tests. The time trials were called off temporarily after Norkett was hurt, delaying the event a second time.

The Flying Mile had been scheduled for Thursday, but ocean waves left a bumpy and dangerous track that caused the first delay.

Norkett was driving a 1955 Thunderbird when he lost control. The car zig-zagged some 500 feet and began rolling over, leaving a trail of spilled gasoline that caught fire and caused the burns.

In practice runs Thursday, the Chicago speedster had chalked up the high speed mark with an average of 133.958 miles per hour.

BRITISH GIRLS WIN

PARIS, Feb. 8 (UP)—Angela Buxton of Britain and Mrs. Thelma Long of Australia Friday won their semifinal matches in the International French Indoor Tennis championships. Miss Buxton beat Mrs. Susie Kormoczy of Hungary, 11-9, 6-1, while Mrs. Long defeated Britain's Ann Shilcock, 6-3, 13-11.

Four-Minute Mile Faces Twin Threat

By STEVE SNIDER

NEW YORK, Feb. 8 (UP)—Hungary's self-exiled distance runner, Laszlo Tabori, will attempt to snap Ron Delany's unbeaten record Saturday night in the Wanamaker Mile, which will feature the golden jubilee Millrose Games at Madison Square Garden.

It will mark the first meeting in track history of two sub-four minute milers on a board track. Both men have been clocked in 3:59 flat outdoors.

Delany, the Olympic 1,500-meter champion from Ireland, never has been beaten indoors. He returned to the smoke-filled arenas last week at Boston for the first time since winning his gold medal at Melbourne and posted a 4:07.5 clocking in winning the B.A.A. mile run. It was the Villanova College ace's ninth straight victory on the boards.

Tabori, who decided not to return to Hungary after finishing fourth in the metric mile event at Melbourne, still is looking for his first victory in the United States. However, he has been training well for his New York debut.

The curly-haired Hungarian skipped last week's Boston meet in order to be well-rested for his meeting with Delany. If the pace is fast enough, both are considered capable of lowering the world indoor mile mark of 4:03.6, set by Denmark's Gunnar Nielsen in this same race two years ago.

Bobby Seaman of UCLA, who finished second behind Delany last week at Boston, will be back for another crack at the slender Irishman. The other invited starters are former New York university miler George King, Burr Grim of Maryland and Jim Beatty of North Carolina.

In addition to Delany, five other Olympic champions will strut their stuff in New York's first indoor track meet of the season. They are Tom Courtney (800-meter), Charley Jenkins (400-meter), Lee Calhoun (110-meter high hurdles), Bob Richards (pole vault) and Milt Campbell (decathlon).

Courtney equalled the world's record of 1:09.5 for the 600-yard event last week at Boston but is skipping this race in the Millrose for another crack at Arnie Sowell in the 880. The Pittsburgh speedster has beaten Courtney in seven straight indoor meets going back to 1955.

"I still think I can beat Sowell on a banked track," the determined Courtney remarked. "In fact, I'm planning on a 1:49 race."

The world record for the 880 indoors is 1:50.5, set by the late John Borican 15 years ago.

Friday credit Forte with 30.1 points per game, Chamberlain 29.3 and Wallace 29.4.

Forte, the five-foot, nine-inch Columbia whiz who gave the little man his day in the basketball sun by seizing the scoring lead from seven-foot Chamberlain on Wednesday night, goes back into action Saturday against Navy. Both his rivals will be playing, too.

Chamberlain, who has been outscored by Forte, 29.9 to 25.5, over the last 10 games for each, will lead Kansas against Nebraska.

And the six-foot, five-inch Wallace faces North Carolina State. Wallace, from Mare Creek, Ky., had a golden opportunity to pass both Forte and Chamberlain Thursday night when he needed 39 points against Wake Forest to nip Forte and 34 to top Chamberlain. He had 24 points with 10 minutes left, but took only one more shot and finished with 26 as South Carolina stalled to win.

Although Chamberlain lost his individual scoring lead during the past week, team leaders in scoring and defense remained the same.

Led by Forte, Columbia clung to its national scoring lead by improving its average slightly to 87.4 points per game. However, West Virginia gained ground by improving its mark to 87.1 and Illinois was a close third at 85.8.

The Oklahoma Aggies reduced their best-in-the-nation defense average to 52.4 points, but lost their season-long leadership in free throw shooting. The Aggies dropped all the way to fourth in that department as Duquesne took over with a .750 shooting mark.

Manhattan has the best field goal shooting average, .468.

Texas ranked third behind Manhattan and Niagara in field goal accuracy with a .456 percentage.

Purse For Canadian Open Up To \$25,000

MONTREAL, Feb. 8 (UP)—Prize money of the Canadian Open golf tourney was increased to \$25,000 from \$15,000, James P. Anglin, president of the Royal Canadian Golf Association, said today.

This year's Open will be played at Waterloo, Ont., July 10-13.

Only 5 Horses For McLennan Feature Today

MIAMI, Fla., Feb. 8 (UP)—Only five horses dared oppose Bards-town and Summer Tan in the \$50,000 added McLennan Handicap at Hialeah Park tomorrow, making this the smallest field in 22 runnings of the stake.

Calumet farm's Bardstown, winner of five stakes last year and of the Tropical Handicap last month, will carry top weight of 128 pounds but probably will be slight favorite at 9 to 10 or 4 to 5, with Willie Hartack riding.

Summer Tan, owned by Mrs. John W. Galbreath will pack 124 pounds, most of it jockey David Erb, and may be even money at post time. Summer Tan won three stakes last year and was an easy victor in his 1957 debut in an overnight race at Hialeah.

Running as an entry with Summer Tan will be Mrs. C. Ulrich Bay's Greek Spy, under 108 pounds with Conn McCreary up. Greek Spy and Summer Tan are both trained by Sherrill Ward.

Third choice probably will go to Formella stable's Switch On, with Sammy Boulmetis riding and 119 pounds. Switch On won the Palm Beach and McLennan last year and a win tomorrow would make him the first two-time winner of the McLennan and the Palm Beach.

Hasty House farm entered Sea O Erin, a capable mud runner but tough on a fast track, too. Sea O Erin will carry 110 pounds but no rider has been assigned since jockey Johnny Adams, his regular pilot, drew a suspension.

Maine Chance farm will be represented by Black Metal, under only 105 pounds with Ted Atkinson slated to ride.

The field is completed by Castle Rock farm's Mr. First, lightweight at 102 pounds and Charley Burr the jockey.

If all start, the race will have a gross value of \$62,400 and net the winning owner \$43,800. All McLennan entries are eligible for the \$100,000 added Widener Handicap, to be decided at a mile and a quarter two weeks hence.

The McLennan will be the first meeting of Bardstown and Summer Tan since October when they clashed in the Trenton Handicap at a mile and a quarter at Garden State Park, where Bardstown put on a furious stretch drive to beat Summer Tan by a neck.

Post time for the McLennan is 3:48 p.m. (CST) and the feature will be telecast nationally by NBC from 3:30 to 4 p.m.

D'Agata Signs For Defense Of Crown

VARESE, Italy, Feb. 8 (UP)—Contracts for a bantamweight title fight between Mario D'Agata of Italy and Alphonse Halimi of France were signed today in nearby Comerio. The bout was booked for April 1 in Paris.

D'Agata, a deaf mute, is recognized as the world champion by the European Boxing Union. Halimi's manager, Gilbert Benham, said he had been promised that the E.B.U. would accept the fight as valid for the title.

Previously, the European organization had threatened to deprive D'Agata of his title if he did not meet Raton Macias of Mexico, who is the 118-pound boss in the eyes of the U.S. National Boxing Association.

Cincinnati manager Birdie Tebbetts rates catcher Smokey Burgess as the best pinch hitter since Johnny Mize.

Bosseler Signs Two-Year Pact With Redskins

WASHINGTON, Feb. 8 (UP)—Don Bosseler, Miami university All-America fullback, signed a two-year contract Friday with the Washington Redskins of the National Professional Football League.

Bosseler, the Redskins' No. 1 draft choice, flew here from his Batavia, N.Y., home Friday morning and signed after a brief conference with head coach Joe Kuharich.

In three years with Miami, Bosseler gained nearly 2,000 yards running. He also has been a standout pass receiver, punt retriever and defense back. In his final season with Miami last year, he gained 723 yards in 161 carries and never was thrown for a loss.

He was the star of the recent Senior Bowl game, leading the South to a 21-7 victory over the North team coached by Kuharich. In that game, Bosseler scored two touchdowns and gained 189 yards in 23 tries. He is 21 years old and weighs 205 pounds.

Running as an entry with Summer Tan will be Mrs. C. Ulrich Bay's Greek Spy, under 108 pounds with Conn McCreary up. Greek Spy and Summer Tan are both trained by Sherrill Ward.

Third choice probably will go to Formella stable's Switch On, with Sammy Boulmetis riding and 119 pounds. Switch On won the Palm Beach and McLennan last year and a win tomorrow would make him the first two-time winner of the McLennan and the Palm Beach.

Folsom Charges Guard Plan Like 'Military' Rule

WASHINGTON, Feb. 8 (UP) — Gov. James E. Folsom of Alabama said Friday that the Army's order requiring six months training for national guardsmen could be the first step toward "military dictatorship."

He also accused military "professionals" of prodding defense secretary Charles E. Wilson into making his recent charge that the Guard was used as a "draft-dodging" outfit by youths seeking to avoid front-line service during the

Korean War.

Folsom, who previously had demanded Wilson's ouster, testified before a House Armed Services Subcommittee studying the National Guard and reserve programs. The governor said he joined the Guard when he was 13 years old.

Folsom told the subcommittee there had been a "constant concerted effort" by the Defense Department and the Budget Bureau to "downgrade the National Guard to such an extent that it would fall easy prey to the federal government."

At the same time, he said, an effort had been made to "up-grade" the reserves which, Folsom said, were "completely amenable to the whim and caprices of Department of Defense control."

He charged that if the reserves and Guard were placed under "complete Pentagon control" there would be "the making of a military dictatorship." Such a dictatorship, he said, "could be overthrown only by bloodshed."

"If you do not believe this," he said, "look south of the border where some of our neighbors have done this very thing."

Folsom urged the subcommittee to back the National Guard's fight against the six months training plan for guardsmen. He backed the guard's substitute 11-week training plan but said he also would support a "split" program of three months training a year for two years.

President Eisenhower has spoken out against the guard plan but has not ruled out a possible compromise.

Folsom said the Army's six-months training program for reserves had been a "colossal failure" and now was "being foisted on the National Guard."

Folsom also said that his experience in the guard convinced him the age for enlisting should be reduced from 18 to 16. He said he joined at 13 and was discharged "when I was just old enough to get in." He said he felt he was a better soldier at 15 than he was later at college age.

Richland Jury Indicts 5 Men

RAYVILLE, Feb. 8 (Special) — A Richland parish grand jury indicted five salesmen representing a Baton Rouge sewing machine firm on fraud charges.

A total of eight indictments were returned by the jury.

The Richland parish district attorney's office supplied the information to the grand jury that the five salesmen had presented sewing machines to people in the parish with the statement that the machines had been "won" in a local contest.

Salesmen were reported to have collected sums of money as "tax," but it was revealed that the machines were not given away, but that the supposed "winners" had actually signed a chattel mortgage for the machinery.

The five men are Hubert Eugene James, address unknown; Jerry Lee Lewis, Ferriday, A. H. Birmingham, Jr., of Baton Rouge; Claude Houston, of Baton Rouge; and J. R. Hopkins, of Winnfield.

W. B. Conen, assistant district attorney, said that the five men would be arraigned Tuesday on the eight indictments.

At present all five are under bond, the Richland parish sheriff's office said.

Daniel Seeks Full Report On Defunct Firm

AUSTIN, Feb. 8 (UP) — Gov. Price Daniel Friday called for a full report from the State Insurance Commission on the threatened collapse of the dominantly labor-owned ICT Insurance Co.

"I particularly regret to hear of this company's insolvent condition because of the many working people who were led to invest in the company," the governor said.

will consider every possible means of preventing in the future whatever circumstances are responsible for the present status of this company," Daniel said.

Gov. Daniel expressed hope the stockholders will be able to raise sufficient funds to save the company and its policyholders during the 10-day period allowed by the insurance commission.

Daniel also expressed the hope that insurance committees of both the House and Senate will make a thorough study and investigation of the situation to determine whether additional legislation is needed.

Sheriff Posts Bond; Charged With Assault

WILBURTON, Okla., Feb. 8 (UP) — Sheriff Dee Sanders today pleaded innocent to a charge of second degree rape involving the 15-year-old bride of a prisoner in his jail.

He was released after posting \$2,500 bond and faces preliminary hearing Feb. 13.

Meanwhile, Sanders' wife withdrew a divorce suit filed against him about six months ago. She had alleged adultery in her petition.

Latimer county Atty. Ben T. Choate said Mrs. Paul McGill had signed a two-page statement alleging her relations with Sanders, a former baseball player with the McAlester Rockets of the Sooner State League.

Officers said the girl, from Lindsay, Calif., was married to Paul McGill, 22, of Kiowa, Okla., in the Pittsburgh County jail Monday night after traveling here from her home. McGill was held on a warrant from Tulare County, Calif., charging statutory rape.

Choate said the girl's statement related that Tuesday night Sanders promised to assist her and her husband if she would go with him to Robbers Cave Park in Latimer County. She said she refused at first, then decided it would be the thing to do.

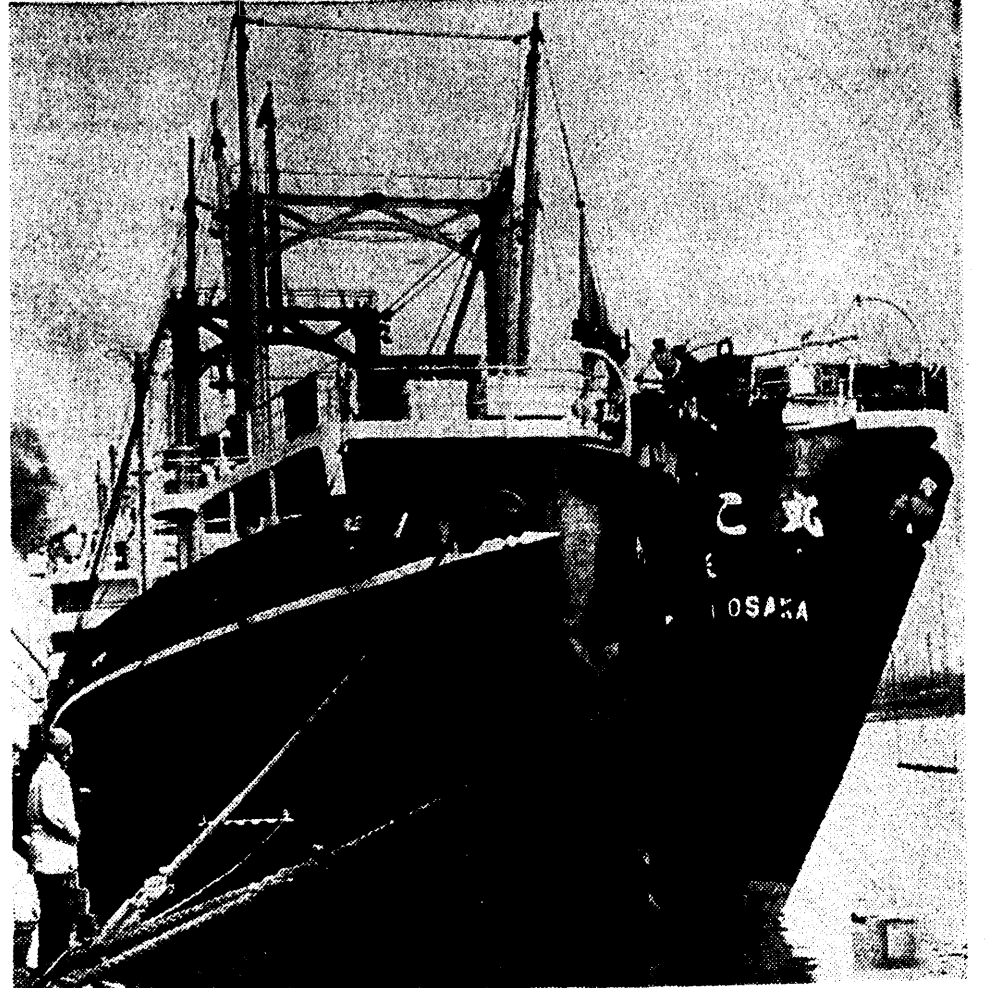

Choate reported Sanders told him he and the girl had gone to the cabin but said his wife was also along.

"Me and my wife were both there and I was trying to help her (Mrs. McGill) in any way possible as long as it was consistent with the law," Sanders said in a statement issued at McAlester.

The girl reportedly told her husband of the incident Wednesday while the sheriff was in Shreveport, La., on business. McGill then related his wife's story to Pittsburgh County attorney Ewing Sadler.

Sanders, his wife, and the girl drove to Wilburton yesterday where he was arrested and charged. Sanders said the girl had repudiated her story, but Choate said she stuck to it.

"The year of 1960 will be one to avoid," says a seer. Maybe so, but we aren't going to avoid it if we can avoid it.

DAMAGED FREIGHTER—Japanese crewmen and dock workers look over the damage suffered by the Mexican Maru after the Japanese freighter was rammed in the stern by the freighter African Crescent in a dense fog on Chesapeake Bay Thursday night. The African Crescent received minor damage and was able to make Baltimore under its own power. (AP Wirephoto)

Three-Month Divorce Law Passes Arkansas House On Second Vote

LITTLE ROCK, Ark., Feb. 8 (UP) — Legislative action was completed today on a Senate bill for persons seeking "quickie" divorces.

Proponents denied this assertion that the bill was necessary to clear up conflicting court decisions on residence requirements under Arkansas' three months divorce law. Two of these decisions are cited in the emergency clause, which was adopted to make the bill effective immediately upon signing by Gov. Faubus.

The bill, which passed in the Senate without a negative vote, lacked two votes of getting House approval yesterday.

The problem of determining whether county school supervisors are necessary—a subject frequently debated in the Legislature—would be passed on to county boards of education under a bill which passed the state Senate today.

Folsom Charges Guard Plan Like 'Military' Rule

WASHINGTON, Feb. 8 (UP) — Gov. James E. Folsom of Alabama said Friday that the Army's order requiring six months training for national guardsmen could be the first step toward "military dictatorship."

He also accused military "professionals" of prodding defense secretary Charles E. Wilson into making his recent charge that the Guard was used as a "draft-dodging" outfit by youths seeking to avoid front-line service during the

Korean War.

Folsom, who previously had demanded Wilson's ouster, testified before a House Armed Services Subcommittee studying the National Guard and reserve programs. The governor said he joined the Guard when he was 13 years old.

Folsom told the subcommittee there had been a "constant concerted effort" by the Defense Department and the Budget Bureau to "downgrade the National Guard to such an extent that it would fall easy prey to the federal government."

At the same time, he said, an effort had been made to "up-grade" the reserves which, Folsom said, were "completely amenable to the whim and caprices of Department of Defense control."

He charged that if the reserves and Guard were placed under "complete Pentagon control" there would be "the making of a military dictatorship." Such a dictatorship, he said, "could be overthrown only by bloodshed."

"If you do not believe this," he said, "look south of the border where some of our neighbors have done this very thing."

Folsom urged the subcommittee to back the National Guard's fight against the six months training plan for guardsmen. He backed the guard's substitute 11-week training plan but said he also would support a "split" program of three months training a year for two years.

President Eisenhower has spoken out against the guard plan but has not ruled out a possible compromise. Folsom said the Army's six-months training program for reserves had been a "colossal failure" and now was "being foisted on the National Guard."

Folsom also said that his experience in the guard convinced him the age for enlisting should be reduced from 18 to 16. He said he joined at 13 and was discharged "when I was just old enough to get in." He said he felt he was a better soldier at 13 than he was later at college age.

BEFORE CONGRESSMEN—Gov. James Folsom of Alabama poses with a paper in his hand before the start of his testimony in the National Guard dispute yesterday. (AP Wirephoto)

Daniel Seeks Full Report On Defunct Firm

AUSTIN, Feb. 8 (UP) — Gov. Price Daniel Friday called for a full report from the State Insurance Commission on the threatened collapse of the dominantly labor-owned ICT Insurance Co.

"I particularly regret to hear of this company's insolvent condition because of the many working people who were led to invest in the company," the governor said.

"... I hope that the legislature

will consider every possible means of preventing in the future whatever circumstances are responsible for the present status of this company," Daniel said.

Gov. Daniel expressed hope the stockholders will be able to raise sufficient funds to save the company and its policyholders during the 10-day period allowed by the insurance commission.

Daniel also expressed the hope that insurance committees of both the House and Senate will make a thorough study and investigation of the situation to determine whether additional legislation is needed.

Sheriff Posts Bond; Charged With Assault

WILBURTON, Okla., Feb. 8 (UP) — Sheriff Dee Sanders today pleaded innocent to a charge of second degree rape involving the 15-year-old bride of a prisoner in his jail.

He was released after posting \$2,500 bond and faces preliminary hearing Feb. 13.

Meanwhile, Sanders' wife withdrew a divorce suit filed against him about six months ago. She had alleged adultery in her petition.

Latimer county Atty. Ben T. Choate said Mrs. Paul McGill had signed a two-page statement alleging her relations with Sanders, a former baseball player with the McAlester Rockets of the Sooner State League.

Officers said the girl, from Lindsay, Calif., was married to Paul McGill, 22, of Kiowa, Okla., in the Pittsburgh County jail Monday night after traveling here from her home. McGill was held on a warrant from Tulare County, Calif., charging statutory rape.

Choate said the girl's statement related that Tuesday night Sanders promised to assist her and her husband if she would go with him to Robbers Cave Park in Latimer County. She said she refused at first, then decided it would be the thing to do.

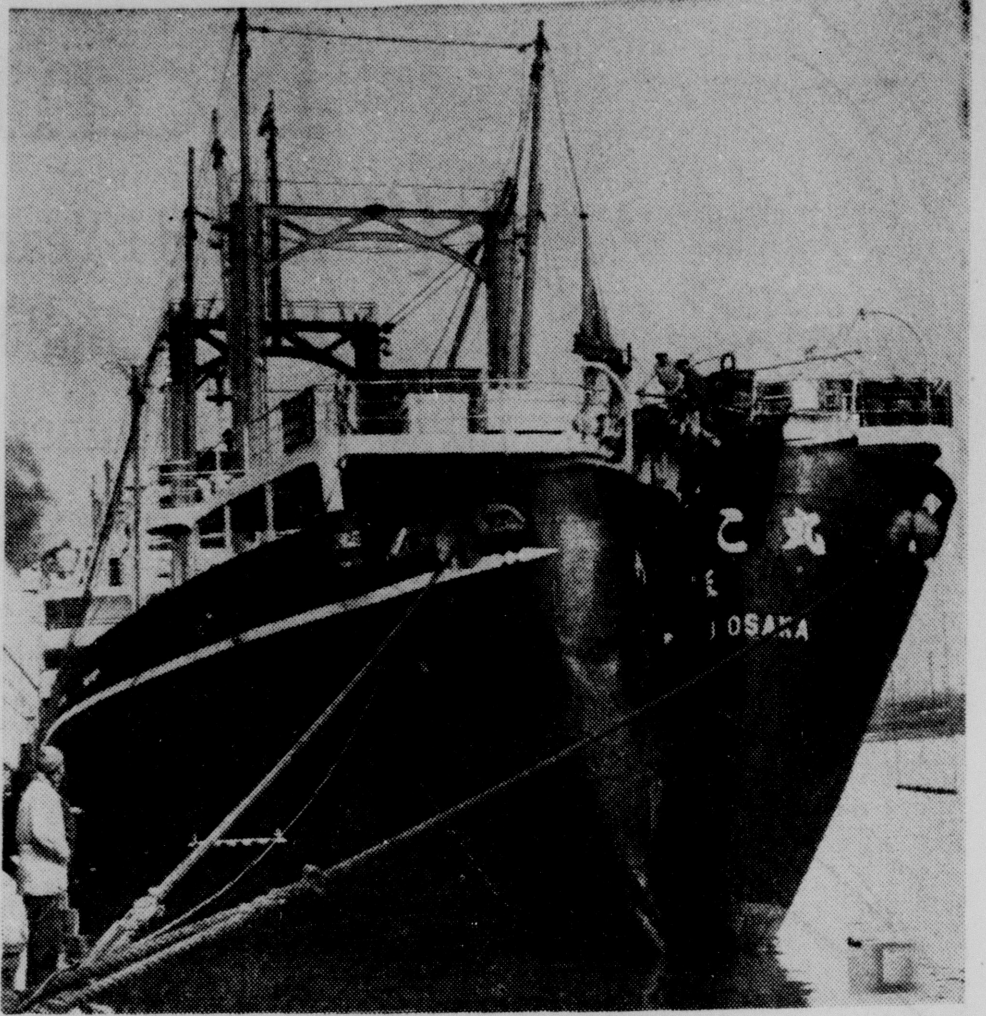

Choate reported Sanders told him he and the girl had gone to the cabin but said his wife was also along.

"Me and my wife were both there and I was trying to help her (Mrs. McGill) in any way possible as long as it was consistent with the law," Sanders said in a statement issued at McAlester.

The girl reportedly told her husband of the incident Wednesday while the sheriff was in Shreveport, La., on business. McGill then related his wife's story to Pittsburgh County attorney Ewing Sadler.

Sanders, his wife, and the girl drove to Wilburton yesterday where he was arrested and charged. Sanders said the girl had repudiated her story, but Choate said she stuck to it.

"The year of 1960 will be one to avoid," says a seer. Maybe so, but we aren't going to avoid it if we can avoid it.

DAMAGED FREIGHTER—Japanese crewmen and dock workers look over the damage suffered by the Mexico Maru after the Japanese freighter was rammed in the stern by the freighter African Crescent in a dense fog on Chesapeake Bay Thursday night. The African Crescent received minor damage and was able to make Baltimore under its own power. (AP Wirephoto)

Three-Month Divorce Law Passes Arkansas House On Second Vote

LITTLE ROCK, Ark., Feb. 8 (UP) — Legislative action was completed today on a Senate bill for persons seeking "quickie" divorces.

House opponents declared the bill would make Arkansas a mecca for persons seeking "quickie" divorces. Proponents denied this assertion, saying the bill was necessary to clear up conflicting court decisions on residence requirements under Arkansas' three months divorce law. Two of these decisions are cited in the emergency clause, which was adopted to make the bill effective immediately upon signing by Gov. Faubus.

That left up to Gov. Orval Faubus the final decision on whether the bill becomes a law.

The bill, which passed in the Senate without a negative vote, lacked two votes of getting House approval yesterday.

The problem of determining whether county school supervisors are necessary—a subject frequently debated in the Legislature—would be passed on to county boards of education under a bill which passed the state Senate today.

News About Women

MRS. ROBERT T. FARR, president of the Bayou DeSiard Garden Club is shown at the Wednesday night meeting of the club with Mrs. Winona A. Chaffee, assistant Home Gardening Specialist, from Baton Rouge, and guest speaker for the evening, and Mrs. Euna D. Spielman, Home Demonstration Agent, of Ouachita Parish.

Garden Clubs And Husbands Are Guests At Bayou DeSiard Garden Club Meeting

The February meeting of the Bayou DeSiard Garden Club was held Wednesday night at United Gas Building auditorium. Members and their husbands of the College Heights, Lakeshore and Twig and Sprig Garden Clubs were guests at the meeting.

Miss Winona Chaffee, of the Extension Office gave a very enlightening talk on landscaping. Miss Chaffee originated her talk around a lovely selection of color slides taken of homes around Monroe and other areas. Also included in the slides were some beautiful pictures of various types of magnolia.

Hostesses for the occasion were Mrs. J. H. Huffman, Mrs. J. F. Johnson, Mrs. A. H. Smith and Mrs. R. C. Holler.

Guests and members present were: Mrs. Dan Cox, Mr. and Mrs. Alfred Ware, Mr. and Mrs. R. D. Buddy Tolson, Mrs. A. G. Horns-ing, by Mr. and Mrs. John H. Mc-Carter, Jr., Mrs. James C. Bryan, Mrs. Reagan Wilson, Mrs. B. L. Talton, Mrs. J. P. Kuykendall, Mrs. F. R. Stickley, Mrs. Mildred Swift.

And Mrs. C. E. McKenzie, Mrs. H. F. Shepard, Mrs. G. M. Heidenreich, Mrs. F. T. Smith, Jr., Mr. and Mrs. Crusan Gillette, Mr. and Mrs. B. F. Pate, Arthur H. Smith, Mrs. Dayne I. DeMaster, Mrs. R. T. Farr, Mrs. R. D. Mrs. Alfred Ware, Mr. and Mrs. R. D. Buddy Tolson, Mrs. A. G. Horns-ing.

HAVE YOU HEARD

DR. AND MRS. WILLIAM BENDEL and Mrs. A. L. Harrington will arrive home this weekend after a two weeks stay at the Grand Hotel, Pt. Clear, Ala. During their visit Mrs. Harrington entertained with a bridge party, her guests, friends of Mrs. John Richard Miller, Jr. of nearby Bruton, Ala. Mr. Miller, his mother Mrs. John R. Miller, and Mr. J. E. Kirch were guests the same day.

CELEBRATING their birthdays with a three week vacation in Mexico are Foster and Will Wallace and their wives. Mr. and Mrs. Bill Connell, of Muncie, Ind., joined the Foster Wallaces here and in Laredo, Texas they met the Will Wallaces of Wichita Falls, Texas. The three couples then flew to Mazatlan, a winter resort on the Pacific coast of Mexico and are guests at the Hotel Plaza. Mrs. C. W. Wallace left Thursday for Wichita Falls to be with the Wallace children while their parents are away.

MRS. C. D. BOUCHILLON, of Jackson, Miss., is the guest this weekend of Mrs. Frederick Fischer, in the home of her mother, Mrs. Marion Gray on Park Ave. Mrs. Bouchillon and Mrs. Fischer were roommates at the University of Arkansas.

MR. AND MRS. RALPH T. COWAN, JR. of Sanford, Florida are the parents of a son born January 30. He has been named for his father. His grandparents are Mr. and Mrs. C. B. Braun of this city and Mrs. R. T. Cowan of Sanford. His sister is named Gail.

YOUR PROBLEMS

Cab Driver Asks Break For Men In Column

By ANN LANDERS

Dear Ann: Why don't you ever give us men a break? I'm always catching heat at home because of something my wife read in your column.

I've been driving a cab 18 years and I've seen plenty of what goes on in this world. I know more about life than some college professors who talk about it all day long. I see it — at its best and at its worst.

For every empty bar — stool there's a loving wife at home. For every drunk in a tavern there's a nagging miserable complaining woman who drove him to it. I didn't learn this out of a psychology book either. It's all first-hand.

Of course you don't have the nerve to print this because the dames would have your scalp. — The Hacker

What do you think? — Greg

Keep looking. If this woman's idea of "discipline" is to slap a 4-year-old child across the mouth, she's making a poor mother. Children learn best by example and not by being beaten by a rod.

If you want to do your daughter a real favor, stay single until you meet someone you're genuinely fond of. Merely to "tolerate her personality" is not enough. The best thing parents can do for their children is to love one another.

Dear Ann: I'm a nurse and still single. Men patients frequently ask for my name and address as they would like to become better acquainted after leaving the hospital. Do you think this is proper? Some of my girl friends who aren't in nursing say it's not respectable. What do you say? — Miss S.

Your girl friends are all wet. If the men are single and interested in pursuing the friendship, why not? One of the pleasant aspects of nursing is the wonderful people you meet.

A nurse has the opportunity to show her finest qualities in this chosen career. It's not uncommon for romance to blossom in a hospital. Many a nurse has married her patient and continued to take his pulse for the rest of his life.

Dear Ann Landers: My conscience is killing me. Maybe you can help. I grew up with a swell kid. We've lived next door to each other since elementary school days. I never had another boy friend and he never dated another girl. We're both 20 now. I have a very interesting position and meet fabulous people all day long. He's a garage mechanic and is still sweet and wonderful but somehow his interests bore me and we don't have fun together any more.

He's talking about marriage and I'm getting scared. Our parents are dear friends and everyone else...

Style Show To Have Children As Models

Mrs. Ralph Reed and Mrs. Wood Sers were hostesses when Mrs. Charles Oxford entertained the Cultura Book Club this week.

Mrs. Harry Liner, president, presided during the meeting.

Committee reports were given on the children's style show to be held March 22 in the West Monroe High School auditorium. Proceeds from the fashion show will go to the Cerebral Palsy School.

Mrs. A. R. Nix and Mrs. Fred Billhorn were welcomed as new members.

Mrs. Oxford, program chairman, introduced the guest speaker, Miss Frances Flanders, who gave interesting highlights of several books which are currently best sellers.

At the conclusion of the program, the hostesses served a refreshment course to Mesdames Kenneth Adams, Kenneth Aswell, Clyde Albritton, Bill Armstrong, Bob Branch, Gene Hardin, Jeff Hennessy, Harry Liner, Donald Logan, Billy Newlson, Dan Nevils, Charles Oxford, Ralph Reed, Wood Sers, Bud Shepherd, Gene Williams, Henry Young, Lake Oxford, Henry Camp, Fred Billhorn, A. R. Nix, and club guests, Miss Flanders, Mrs. Mabel Spencer and Mrs. Neva Lee.

Peggy Pierce President Lt. Bowmar Chapter CAR

The Lieutenant Bowmar Chapter of the Children of the American Revolution met at the home of Mary Jo Strausser, Jane Williams called the meeting to order with the pledge of allegiance to the flag.

A program on American music was presented by Mary Jo. Penny profit played several MacDowell selections to illustrate one type of American music.

The group discussed plans for the annual state C.A.R. convention which will be held in Monroe, March 8 and 9.

Jane Moore read a chronological history of the Lieutenant Bowmar chapter which had been compiled by Mrs. S. W. McLean, senior president.

Officers for the next year were elected and will be installed in April. They are, Peggy Pierce, president; Gay Demmay, vice-president; Patty Proffit, secretary; Linda Eby, treasurer; Mary Jo Strausser, reporter; Alice Guy-of Tallulah, and Mrs. S. W. McLean, parliamentarian; Dottie Daw-

son, chaplain; Sally Moore, registrar; Nancy Snellings and Donna Guyton, phoning committee.

The meeting was closed by a prayer given by Mary Elizabeth Webster.

Those present were, Sally Moore, Jane Moore, Linda Eby, Peggy Pierce, Mary Coon, Gay Demmay, Noel Standley, Nancy Wilson, Mary Wilson, Gayle John, Dally Hinkle, Dottie Dawson, Lynn Theus, Helen Theus, Jane Williams, Penny Proffit and Mr. Jim Mulhearn.

And Miss Linda Steele, West Monroe, Miss Marilyn Gallman, Rayville, Myrtis and Fred Wyly, Jo Strausser, reporter; Alice Guy-of Tallulah, and Mrs. S. W. McLean, parliamentarian; Dottie Daw-

Lean the senior president.

YOUR BABY AND MINE

Growing Children Need Protective Vitamins

By MYRTLE MEYER ELDRED

Unless a doctor orders an adult to take extra vitamins, it may be assumed that an individual who eats a normally balanced and generous diet will get his allotment of vitamins daily.

But children are growing rapidly. They do not eat as conscientiously as an adult might and so must have those protective vitamins which prevent them from developing any deficiency ailment, such as rickets or scurvy.

ENOUGH?

Mrs. A. K. writes, "I have two small children two and six. I give each of them a teaspoon of plain cod liver oil a day. Is that enough of the vitamins? They eat lots of oranges, apples and raw carrots, but do not like milk or any other vegetables."

Because their diet is deficient in itself, then there is more reason than usual to stress a product containing all the vitamins. Otherwise your present product which supplies A and D would be a good one. Milk is a serious lack and I would try to remedy this by offering foods made with milk. Custards, home-made ice creams, milk sauce on vegetables or puddings, cream soups, milk beaten into eggs and mashed potatoes — all of these will use up considerable milk in a day.

You also can use powdered milks, which can be added to any food, to provide additional protein and calcium which they need. 1Tribune Syndicate, 1957.)

am taking it for granted that neither of them is allergic to milk.

VEGETABLES, TOO

As for vegetables, these, too, can be incorporated into other foods, so that they may not seem just like the vegetables served by themselves at the family table.

If they like raw carrots they may also like pieces of raw turnip or cauliflower with their meals. You can grind up a variety of raw vegetables and add them to soup, or mix with salad dressing as a sandwich, or mix them with flavored gelatin. In any of these ways the child gets the value of the vegetables and will develop a "taste" for them.

Mrs. T. R., you use the top of the carrot in order to make a feathery plant. Cut it off about one inch below the top and then drop it in a pot of water. It should sprout nicely. I am so happy that your house-bound children have enjoyed the other ideas about plants which literally grow before their eyes.

If you would like our new 10-cent booklet "Introducing The Arts to Your Child," send 10 cents and a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

(Released by The Register and Tribune Syndicate, 1957.)

Bonnie Bonnet

By ALICE ALDEN

THE brim turns up in many of the new hats, no matter the type, the medium, the style. All of which means that the traditional roller is very much in the fashion picture, especially for the blithe, young wearer. Mr. John, that brilliant designer, has done a whole series for young sub-debs who some day will be wearing his more sophisticated creations. For them he interprets the roller in turns of caramel colored straw with a darker velvet band and side-bow rosette.

WHY GROW OLD

Don't Overlook Simple Health, Beauty Routines

By JOSEPHINE LOWMAN

Many of the best rewards in life, maybe most of them, are the result of the ability to invest wholeheartedly in seemingly unimportant daily routine.

The job you have may not seem very exciting and the little things you do for a daily beauty routine may not seem so either. HOW-EVER, and it is a BIG however, we cannot even calculate the dividends of enthusiastic self-investment in any category!

I would like to bat this idea about further and will do so in some future column, but today I want to remind you of some of the simple health (and therefore beauty) routines, which the medical profession has known about for years but which we, in our wish for something dramatic to cure our physical ills and our heartaches, have not taken seriously.

Here, then, are some simple health routines which are being

highlighted by more and more medical research!

1. Take advantage of all that is known now about nutrition. This is at least one of the most important steps of the ladder to happiness and success and a vibrant long life.

2. Exercise unless there is some reason for not doing so. Ask your doctor about this. There is great and exciting and accumulative data which seems to indicate that we are dying of poor nutrition, lack of physical exercise and boredom.

These are the three big culprits! Avoid them as you would a plague! It seems that we are dying of "rocking chairitis," overweight from the fat of the land, and boredom — in an era which provides the most information about nutrition, and exercise, offers the most in adult education, and is probably the most challenging and exciting era anyone ever lived in.

Of course you need an adequate amount of sleep, but if you eat correctly and exercise and are on fire with interests, I think you will sleep very well.

(Released by The Register and Tribune Syndicate, 1957)

Heart Pizza Romantic For Valentine's

How about a pizza pie party for Valentine's Day? Not romantic you say? Just serve 'em and see how popular you become with the boys.

Your invitation and pizzas could be heart-shaped. The pie is pretty goey, so it's a good idea to serve apron-bibs to your guests. Make them out of wax paper or newspaper. A quickly made type may be pinned to dress or jacket or you may roll string around the neckline, fastening it with tape. If you want to do the apron up chic, make initials of colored tape and fasten to each apron, giving them out when guests arrive.

Your pie may be one of the quick-mix kind topped with oil, tomato sauce and mozzarella cheese or perhaps you'd enjoy one of anchovies, the anchovies being used to spell out "I Love You." One Apian Way pizza recipe involves a topping of shrimps and peppers. Really delicious.

Pizza mix is easy to use no matter what brand. Get the oven good and hot, preheating it. Then add lukewarm water to yeast that comes with the package. Mix flour and stir. Dust your hands in flour before molding dough.

Make the pizza heart shaped for Valentine's day. Just cover a heart-shaped cardboard with tin foil on both sides. Place dough in center of the heart, spreading with fingers and kneading it slightly until foil is covered with dough about 1/4 inch thick. Then place the pizza on a cookie sheet.

You can make the dough in advance, cover it with wax paper and refrigerate. It's a good idea to make several more balls of dough than you think you'll need — pizzas go like hot cakes. You can have the other fixings ready too, so that all you have to do is cover your pie pan, put the toppings on and put it in the oven.

Serve the pie on paper plates. Use paper napkins, and be prepared with plenty of ketchup. Pizzas are the most absolutely delicious food, but they are drippy.

It may even be a good idea to put your party on a casual basis — not dungarees, necessarily, specify sweater or blouse and skirt for girls, slacks and sports shirt or sweater for boys. That way you won't feel responsible if tomato sauce and oil mess up the clothes.

Board Of YMCA Makes Selection Of Committees

Constructive work of area youth groups was discussed at a monthly board meeting here of the Young Women's Christian Association, and new committees were selected.

New officers of the board for 1957 are Mrs. A. E. Allen, president; Mrs. Charles Chisholm, vice-president; Mrs. L. F. Whitte, recording secretary; Mrs. I. T. Landy, corresponding secretary; Mrs. B. L. Mulhearn, treasurer.

Association committees of the Y.W.C.A. are as follows: Executive committee: Mrs. Allen, Mrs. Chisholm, Mrs. Whitte, Mrs. Mulhearn, Mrs. I. T. Landy, Mrs. E. P. Cudd, Mrs. J. Norman Coon, Mrs. H. A. McDonald, Mrs. C. L. Taylor, Mrs. E. B. Ellison, Mrs. Sam Humphries, Mrs. John Lewis, and Mrs. Milling Bernstein.

Nominating committee for board members: Mrs. Cudd, Mrs. Chisholm, Mrs. Davis, Mrs. J. E. Walsworth, and Mrs. Irving Kilpatrick. Finance and budget committee: Mrs. Coon, Mrs. Ellison, Mrs. Frank Eason, Mrs. Mulhearn, and Mrs. Sam Humphries.

Building management and grounds: Mrs. H. A. McDonald, Mrs. J. E. Baugh, Mrs. J. B. Thornhill, Miss Juanita Porter and Mrs. Metris Bell.

Membership: Mrs. C. L. Taylor, Mrs. Wesley Saunders, Mrs. E. O. Hinton, Mrs. Paul Johnson, Jr., Mrs. Jack Howard, Mrs. Eugene Flournoy, Mrs. W. E. McGough, and Mrs. Thomas Pitt.

Special meetings: Mrs. Ellison.

NEWS ABOUT Women

PICTURED HERE are Mr. and Mrs. James Van Campbell of Clarksdale, Mississippi, who celebrated their 50th wedding anniversary recently. They were married Feb. 3, 1907 at Oak Grove, and spent most of their married life at Eudora, Arkansas. Mrs. Campbell is the former Miss Frances Murphy. They have ten children, eight of which attended the anniversary celebration. They have, also, 34 grandchildren, and 15 great grandchildren. George Murphy of Kilbourne, is Mrs. Campbell's brother.

Music Guild Hears Talk On Louisiana Folk Music

The Lotus Club was the setting Wednesday when the Music Guild entertained at their annual business and luncheon meeting with Mrs. J. M. Shipp and Mrs. Cecil Hill hostesses.

During the business session presided over by Mrs. C. L. Dillingham, president, minutes of the previous meeting were read by Mrs. R. L. Morgan, secretary. A letter from the national president of music clubs commending the Music Guild on their yearbook was also read by Mrs. Morgan.

Highlighting the meeting was the election of officers for the coming year. Mrs. Rabun Wroten was selected as president. Serving with her will be Mrs. J. Norman Coon, vice - president; Mrs. C. W. Thacker, secretary; Mrs. R. W. Cretney, treasurer; Mrs. R. T. Watson, parliamentarian; Mrs. J. M. Shipp, historian; Mrs. L. C. Noland, Jr., reporter; Mrs. W. W. Bullock, Jr., choral director; and Mrs. Seymour.

Guests welcomed by the president were Mrs. T. A. Calloway, Mrs. Vester Headrick, Mrs. Lamar Moore, Mrs. Margaret Jacobs, Mrs. Earl Brimberry and Mrs. Seymour.

Members attending were Mrs. Robert Bliss, Mrs. Bullock, Mrs. Coon, Mrs. Dan Cox, Mrs. Cretney, Mrs. Robert Davis, Mrs. Dillingham, Mrs. Cecil Hill, Mrs. Hopkins, Mrs. B. B. Martin, Mrs. R. L. Morgan, Mrs. T. Earl Ogg, Mrs. P. A. Poag, Mrs. Shipp, Mrs. Thacker, Mrs. Watson, Mrs. W. E. Williams, Mrs. Rabun Wroten and Mrs. Robert Wroten.

Advisory board: Mr. J. Norman Coon, Mr. Frank Eason, Mr. E. B. Ellison, Mr. H. A. McDonald, Mr. T. H. Scott, Mr. Duncan Smith, Mr. J. E. Baugh, representative of the Ministerial Association, and a representative of the Y.M.C.A. board.

Program committees of the organization are as follows:

Young adults: Mrs. Humphries, Mrs. Bernstein, Mrs. L. M. Copes, Mrs. W. G. Bartlett, Mrs. Hewitt B. Johnson, Mrs. P. A. Poag, and Mrs. Harry Liner, Jr.

Y-Teens: Mrs. John Lewis, Mrs. I. T. Landy, Mrs. Jack Masur, Mrs. Wayne Gray, Mrs. Mike John, Jr., Mrs. Thornhill, Mrs. Russell Kettering, Mrs. Coon, and Mrs. J. H. McCarter, Jr.

Religion: Mrs. N. W. McHenry. Public affairs: Mrs. A. M. Bernstein, Mrs. C. L. Taylor, and Mrs. E. O. Hinton.

World Fellowship: Mrs. Chisholm and Mrs. Wesley Saunders. Publicity: Mrs. Jack Herron, Mrs. T. Michel, Miss Ella Pearl Sutton, Mrs. J. T. Hood, and Mrs. Milling Bernstein.

Miss Montgomery, Popular Bride-Elect Of Tallulah Is Honored This Week

Miss Flora Montgomery, whose approaching marriage to King Belser Trieschman of Lake Providence is of paramount interest to a host friends in Northeast Louisiana was the inspiration for a beautiful announcement party on Saturday afternoon. Hostesses for the affair, which took place at the American Legion Home west of Tallulah were, Mrs. George W. Webb, Mrs. George M. Webb and Miss Margaret Webb.

Pink camellias, blue iris and pink carnations were attractively arranged at vantage points throughout the spacious assembly hall.

Receiving with the bride-elect, wearing an ashes of roses satin cocktail dress, were the hostesses Mrs. Hugh Montgomery, mother of the honoree, Mrs. McFarland Long, mother of the groom-elect, and Mrs. Flora E. Bowers, the bride's grandmother.

In charge of registration in the guest book were Judy Kell, Dianne and Peggy Webb.

The party table with its embroidered cut-work cloth held an all white arrangement of tulips and stock with a silvered wedding bell in upright position in the center and silver wedding bells at the base. On either side pale pink tapers burned in silver candleabra. Extending from the floral centerpiece to the corners of the table were streamers of pale pink tulle which ended in bows centered with pink camellias. On the streamers were inscribed in silver the names of the prospective bride and groom "King" and "Flora."

Mrs. William S. Spilman, Miss Frances Baxter, Mrs. Jane Buckner and Miss Betty Deloney of New Orleans alternated in serving coffee and tea.

Assisting in the courtesies were Miss Alma Maxwell of Baton Rouge, Miss Cornelia Kell, Mrs. Jimmy Garrett and Mrs. W. E. Regenold.

The delightful affair was attended by approximately three

hundred friends and relatives of the popular couple from Lake Providence, Delhi, Vicksburg and Tallulah.

Mrs. Will Adams and Mrs. Cliff Adams entertained with a coffee and sherry party at the former's home on Monday afternoon honoring Miss Montgomery.

Daffodils and camellias in different colors decorated the reception rooms and a pink color scheme was used in the dining room featuring Pink Perfection camellias and pink candles.

Assisting in the courtesies were Mrs. George M. Webb, Mrs. Elizabeth Kincaid, Mrs. W. E. Regenold and Miss Cornelia Kell. Other guests in attendance were Miss Montgomery, Mrs. Hugh Montgomery, Mrs. Edward Eiland, Mrs. W. P. Sevier, Mrs. J. K. Post Jr., Miss Dorothy Anne Woodyear.

Miss Katherine Ward, Mrs. Henry Sevier Jr.

And Mrs. J. D. Smith of Hartford, Conn., Mrs. J. G. Wyly, Mrs. Robert Holstead, Mrs. Robert Todd, Mrs. James Garrett, Mrs. George W. Webb, Miss Margaret Webb, Mrs. T. P. Kell, Mrs. Flora E. Bowers, Mrs. Rufus Yerger, Mrs. W. B. R. Mitchell, Mrs. Maxwell Yerger, Mrs. Robert W. Gandy Jr., Mrs. William Spilman, Mrs. Field Montgomery, Mrs. J. J. Sherwin, Mrs. Jack Folk, Mrs. Horace Lee, Mrs. Hubert Watts and Mrs. Robert Grimes.

Mrs. Willys Hopkins, accompanist. In keeping with the month's study of Louisiana folk music, Mrs. J. Norman Coon introduced Mrs. F. O. Seymour who entertained the group with an interesting discussion of folk songs, interspersing various types, as she spoke. Among those discussed by Mrs. Seymour were old French songs, Cajun songs, Creole songs, Negro plantation songs and the blues.

Guests welcomed by the president were Mrs. T. A. Calloway, Mrs. Vester Headrick, Mrs. Lamar Moore, Mrs. Margaret Jacobs, Mrs. Earl Brimberry and Mrs. Seymour. Members attending were Mrs. Robert Bliss, Mrs. Bullock, Mrs. Coon, Mrs. Dan Cox, Mrs. Cretney, Mrs. Robert Davis, Mrs. Dillingham, Mrs. Cecil Hill, Mrs. Hopkins, Mrs. B. B. Marun, Mrs. R. L. Morgan, Mrs. T. Enri Ogg, Mrs. P. A. Poag, Mrs. Shipp, Mrs. Thacker, Mrs. Watson, Mrs. W. E. Williams, Mrs. Rabun Wroten and Mrs. Robert Wroten.

Neville Valentine Dance Is Scheduled

Neville High's student Council will present its annual Valentine Dance tonight at the school with a number of beauties vying for queen honors.

At junior high festivities last night, Sandra Guyton was crowned junior queen by student body president, Bobby Johnson. Each contestant was presented as Valentine of her homeroom.

TOMATO FOR "TOMATO"

NEW YORK (UP) — The tomato was a popular illustration on valentine cards 100 or more years ago, reference books disclose. The tomato, then thought inedible, was regarded as a flower and often was known as the "love apple."

The Alabama extension service says that rusty tap or pipe connections can be loosened with a few drops of household ammonia.

Juvenile 'Delinquents' Are Convicted, Freed On Bond

By Walter Winchell

Two of the four midtown "juvenile" delinquents, who sent three newspapers to St. Clare's Hospital last Fall, were found guilty last week. The candidates for Sing Sing prison (Joe Ware and Richard Nelson) were promptly released on \$1,000 bail. The last time these two bad boys for the human race were freed on bail they were soon arrested for allegedly attempting a robbery. The police said one had a lethal switchblade knife on him. One of the slugged newsmen (photographer Lenny Morgan of the N. Y. Journal-American) had to be hospitalized for almost 3 weeks. Doctors announced that the unprovoked beating left Morgan with an injury to a heart artery. He is 46 and the parent of several children. As Nelson was tearing at him for the second time cameraman Morgan snapped his picture—and then went down—the blood gushing from all parts of his head. It was that photo that helped convict Nelson and Ware. It also helped save two others—because the on-the-spot shot showed them trying to stop the maniacal Nelson. What puzzles this column is why His Honor let Nelson and Ware free on bail. Considering that they thumbed their noses at law and order the last time they were arrested on the attempted burglary charge. You'd think these "cage animals" (they call 19 teenagers) were old enough to know that the long arm of the law has a knockout punch.

The coldly clinical psychiatric estimate of juvenile delinquents is that they are "emotionally disturbed." The innocuous phrase fails to convey the blood and terror of the problem. In reality, juvenile delinquency means burglary, drug addiction, vandalism, sexual perversion sadism, rape and murder. "Emotionally disturbed" creates the impression that JD is a mild disease—no worse than the common cold. Tragically, some well-meaning people are treating a perilous epidemic as an ordinary sniffle. Not many Americans are aware of two shocking facts: According to Attorney General Brownell, over one million new delinquents invade our communities each year. And John Edgar Hoover has reported that half our adult criminals are former juvenile delinquents.

The demands for stern methods in dealing with juvenile delinquents have been echoed by leading newspapers as well as police officials and jurists. For instance, the Herald-Tribune's editorialist, "A little more toughness by police and courts might work wonders in raising the standards of juvenile behavior by applying pressure at the family hearth."

Reader's Digest makes this important point: "We confine sick children whose disease is communicable, regardless of whether they feel 'hostile' or 'rejected.' Nor do the quarantine laws inquire into the patient's age or cause of his disease. The laws are concerned exclusively and correctly with the threat of epidemic. If crime is to be called sickness

RIPLEY'S—Believe It Or Not

PRINCESS ALEXANDRA ZAJONCHIK, wife of the Governor of Poland, SLEPT FOR 76 YEARS IN AN UNHEATED ROOM WITH CAKES OF ICE UNDER HER BED. SHE REMAINED IN PERFECT HEALTH AND LIVED TO THE AGE OF 90.

THE CANADIAN BEAVER CARRIES ITS YOUNG IN ITS ARMS.

CAMPDEN HOUSE, a palatial estate in Kensington, England, WAS WON BY SIR BAPTIST HICKS IN A SINGLE GAME OF CARDS.

it must be treated as sickness, society, social agencies and law enforcement.

The Reader's Digest summation has an eloquent accuracy: "Punishment is not revenge; it is a means of discipline. It must be used to instill fear of the consequences of criminal acts, in order to protect the law-abiding."

The foregoing nutshells the problem: It has reached a point where the streets are unsafe, young criminals are protected—and the cops are handcuffed. Of course, there is no finer ideal than mercy. The loftiest concepts, however, can be perverted. When mercy aids society's enemies and endangers the decent—then mercy is not mercy. It is sheer stupidity. This reporter was shocked and outraged by the wanton attack on newsmen by delinquents. Nevertheless, this column is not written as a demand for revenge. It is a plea for justice—a stern justice. Without such justice, your family will be unsafe.

A recent Reader's Digest included a provocative essay authored by Dr. Ruth Alexander. Instead of explaining or whitewashing delinquents, the article comes to the defense of society. It properly contends: "A thousand sociologists are literally, intellectually stimulating and often far beyond the cause of bounds of reality. A cop seldom deals in visionary theories or idealistic concepts. He is a vital and real part of reality. And reality is treacherous, heart-breaking and hazardous. A street can become his battlefield and the criminal is his foe intent on killing him. In many cases, a cop's survival depends on being quick-on-the-trigger. Legislatures pass laws and courts provide justice. Nevertheless, our whole legislative and judicial structure would collapse without the support of the cop on the beat."

In the commission of a crime against him a citizen is entitled to more than permission to purchase a pistol. He is entitled to the assistance of the police. And those who obstruct the police in any manner—becomes fellow criminals.

FBI-chief J. Edgar Hoover has declared: "The solution of the problem of juvenile delinquency lies in an intelligent, co-ordinated adult action—action which demands full cooperation of adult so-

Insurance Co. Head Hopes To Salvage Firm

DALLAS, Feb. 8 (UP)—ICT Insurance Co. President James G. Case said Friday he hoped to pull his company out of a \$4 million hole by selling controlling interest to a wealthy Texas individual.

Case said he thought the chance for the sale was "excellent." The ICT Insurance Co. was put out of business temporarily Thursday when District Judge Charles O. Betts at Austin issued a restraining order at the request of the State Insurance Commission.

The commission alleged that the company, a stock fire and casualty company which operates independently of the ICT Corp and the ICT Life Insurance Co., was \$4,460,235 in the red.

The commission said that the company must produce \$1.5 million by a show cause hearing Feb. 19 or have its license revoked. Case said Friday that the company's main and possibly only hope of raising the \$1.5 million was by sale to the person he said he could identify only as a "Texan."

He said there were several other prospective buyers, but none as "hot."

TALE OF A SHIRT—MEMPHIS (UP)—Elton W. Moore was on the ninth floor of a building here when he overheard conversation that a patient in a doctor's office had lost his shirt. When Moore got downstairs he found a shirt about one block distant, brought it back. Sure enough, it was the lost shirt which had blown out of the window.

Oil Man's Will Sets Up Trusts
RAYVILLE, Feb. 8 (Special)—The provisions of a will filed in the Richland parish clerk of court's office contained provisions for two public educational and charitable trusts.

The will of Ed E. Hurley, wealthy Shreveport oil man who died last summer, was filed in Richland parish as he had wide spread real estate and oil holdings in the parish.

The foundation, designated as the Ed E. and Gladys Hurley Foundation, was set up in the will under two trusts, one to be administered by the First National Bank of Shreveport, and to include all holdings in Louisiana and other states except Texas.

According to the will financial aid "to worthy and deserving young people" shall be granted on decision of the trustees. It provides that those desiring to attain education as ministers, missionaries and other religious workers of the Protestant faith will be given necessary funds without obligation to repay and aid will be granted any such students, with no restrictions as to their place of residence.

Those desiring to attend other colleges must be selected from applicants from Louisiana, Arkansas, and Texas, and assistance granted will be in form of a loan, repayable at two per cent interest in eight years from date of first loan. The maximum to be allowed any one student is \$1,000 per year, with no one student to receive aid for over six years.

Farmerville City Election April 9
FARMERVILLE, Feb. 8 (Special)—A municipal election here has been set for April 9 by the Democratic executive committee of Farmerville, according to Bolton Tabor, chairman.

In the event a second primary is necessary the date has been fixed as April 30. Offices to be filled are mayor, marshal, and five members of the board of aldermen.

One reason there's so many divorces now is that more people than ever before can afford them.

WISHING WELL

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Juvenile 'Delinpunks' Are Convicted, Freed On Bond

By Walter Winchell

Two of the four midtown "juvenile" delinquents, who sent three newspapermen to St. Clare's Hospital last Feb., were found guilty last week. . . . The candidates for Sing Sing prison (Joe Ware and Richard Nelson) were promptly released on \$1,000 bail. . . . The last time these two bad ads for the human race were freed on bail they were soon arrested for allegedly attempting a robbery. The police said one had a lethal switchblade knife on him. . . . One of the slugged newspapermen (photographer Lenny Morgan of the N. Y. Journal - American) had to be hospitalized for almost 3 weeks. . . . Doctors announced that the unprovoked beating left Morgan with an injury to a heart artery. . . . He is 46 and the parent of several children. . . . As Nelson was tearing at him for the second time cameraman Morgan snapped his picture — and then went down — the blood gushing from all parts of his head. . . . It was that photo that helped convict Nelson and Ware. . . . It also helped save two others — because the on-the-spot shot showed them trying to stop the maniacal Nelson. . . . What puzzles this column is why His Honor let Nelson and Ware free on bail. . . . Considering that they thumbed their noses at law and order the last time they were arrested on the attempted burglary charge. You'd think these "teen-age animals" they call 19 teenagers were old enough to know that the long arm of the law has a knock punch.

The coldly clinical psychiatric estimate of juvenile delinquents is

that they are "emotionally disturbed." The innocuous phrase fails to convey the blood and terror of the problem. In reality, juvenile delinquency means burglary, drug addiction, vandalism, sexual perversion sadism, rape and murder. "Emotionally disturbed" creates the impression that JD is a mild disease — no worse than the common cold. Tragically, some well-meaning people are treating a perilous epidemic as an ordinary sniffle. . . . Not many Americans are aware of two shocking facts: According to Attorney General Brownell, over one million new delinquents invade our communities each year. And John Edgar Hoover has reported that half our adult criminals are former juvenile delinquents.

The demands for stern methods in dealing with juvenile delinquents have been echoed by leading newspapers as well as police officials and jurists. For instance — the Herald - Tribune has editorialized: "A little more toughness by police and courts might work wonders in raising the standards of juvenile behavior by applying pressure at the family hearth."

Reader's Digest makes this important point: "We confine sick children whose disease is communicable, regardless of whether they feel 'hostile' or 'rejected.' Nor do the quarantine laws inquire into the patient's age or cause of his disease. The laws are concerned exclusively and correctly with the threat of epidemic. If crime is to be called sickness

it must be treated as sickness. Young criminals must be taken out of the hands of professional welfare workers, who protect lawbreakers, and put back into the hands of law enforcement officers who protect the law-abiding."

Although delinquents live in obedience to brutality and acquire the guile and terror of beasts, sociologists and psychiatrists describe them as "sick boys and girls." Incredibly, JDs receive protection rather than justice in numerous communities. In many States, you will be stunned to learn, cops remove their uniforms and bring in delinquents in ordinary cars — so that the darling rats will not be publicly humiliated.

The battle against crime is not an athletic contest. It is a fight for life. The police do not act as referees between lawbreakers and lawful citizens. He stops the criminal with superior force. Failure to protect one lawful citizen is a signal to all criminals that the community is unprotected. In brief, there is either full law or no law.

Psychiatrists and sociologists are quick to offer solutions for criminal problems. Their answers are literate, intellectually stimulating and often far beyond the bounds of reality. A cop seldom deals in visionary theories or idealistic concepts. He is a vital part of reality. And reality is frequently dirty, heartbreaking and hazardous. A street can become his battlefield and the criminal is a foe intent on killing him. In many cases, a cop's survival depends on being quick-on-the-trigger. . . . Legislatures pass laws and courts provide justice. Nevertheless, our whole legislative and judicial structure would collapse without the support of the cop on the beat.

In the commission of a crime against him a citizen is entitled to more than permission to purchase a pistol. He is entitled to the assistance of the police. And those who obstruct the police—in any manner—becomes fellow criminals.

FBI-chief J. Edgar Hoover has declared: "The solution of the problem of juvenile delinquency lies in an intelligent, co-ordinated adult action — action which demands full cooperation of adult so-

ciety, social agencies and law enforcement."

The Reader's Digest summation has an eloquent accuracy: "Punishment is not revenge; it is a means of discipline. It must be used to instill fear of the consequences of criminal acts, in order to protect the law-abiding."

The foregoing outshells the problem: It has reached a point where the streets are unsafe, young criminals are protected — and the cops are handicapped. Of course, there is no finer ideal than mercy. The loftiest concepts, however, can be perverted. When mercy aids society's enemies and endangers the decent — then mercy is not mercy. It is sheer stupidity. . . . This reporter was shocked and outraged by the wanton attack on newsmen by delinquents. Nevertheless, this column is not written as a demand for revenge. It is a plea for justice — stern justice. Without such justice, your family will be unsafe.

A recent Reader's Digest included a provocative essay authored by Dr. Ruth Alexander. Instead of explaining or whitewashing delinquents, the article comes to the defense of society. It properly contends: "A thousand sociologists pleading the cause of the juvenile delinquent. I plead the cause of his victims, the cause of society, the cause of you and me. Night and day dangerous young criminals stalk the streets, the parks, the playgrounds, the corridors of public schools. Not only are their crimes softened by the word "delinquency" but youthful crime is called "sickness."

Insurance Co. Head Hopes To Salvage Firm

DALLAS, Feb. 8 (UP)—ICT Insurance Co. President James G. Cage said Friday he hoped to pull his company out of a \$4 million hole by selling controlling interest to a wealthy Texas individual.

Cage said he thought the chance for the sale was "excellent." The ICT Insurance Co. was put out of business temporarily Thursday when District Judge Charles O. Betts at Austin issued a restraining order at the request of the State Insurance Commission. The commission alleged that the company, a stock fire and casualty company which operates independently of the ICT Corp and the ICT Life Insurance Co., was \$4,460,235 in the red.

The commission said that the company must produce \$1.5 million by a show cause hearing Feb. 19 or have its license revoked. Cage said Friday that the company's main and possibly only hope of raising the \$1.5 million was by sale to the person he said he could identify only as a "Texan."

He said there were several other prospective buyers, but none as "hot."

Oil Man's Will Sets Up Trusts

RAYVILLE, Feb. 8 (Special) — one student is \$1,000 per year, with no one student to receive aid for over six years.

The provisions of a will filed in the Richland parish clerk of court's office contained provisions for two public educational and charitable trusts.

The will of Ed E. Hurley, wealthy Shreveport oil man who died last summer, was filed in Richland parish as he had wide spread real estate and oil holdings in the parish.

The foundation, designated as the Ed E. and Gladys Hurley Foundation, was set up in the will under two trusts, one to be administered by the First National Bank, of Dallas, Tex., and to include all holdings in the state of Texas, and the other to be administered by the First National Bank of Shreveport, and to include all holdings in Louisiana and other states except Texas.

According to the will financial aid "to worthy and deserving young people" shall be granted on decision of the trustees. It provides that those desiring to attain education as ministers, missionaries and other religious workers of the Protestant faith will be given necessary funds without obligation to repay and aid will be granted any such students, with no restrictions as to their place of residence.

Those desiring to attend other colleges must be selected from applicants from Louisiana, Arkansas, and Texas, and assistance granted will be in form of a loan, repayable at two per cent interest in eight years from date of first loan. The maximum to be allowed any

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

FROM NINE TO FIVE By Jo Fischer

Look, Mr. Wump... you're in the new "Who's Who" among the also rans.

Young Bossier Traveller Who Went To England As Stowaway Missing Again

BOSSIER CITY, La., Feb. 8 (AP) —Young Eugene Hart, who once traveled from his home here to England on eight cents, apparently is off on another one of his unguided tours.

Mrs. Hilda Hart notified police Capt. J. A. Jones today that her 14-year-old son was missing again. She said her wandering son failed to come home from a school Tuesday. But the next day, she said, relatives in Beaumont, Tex., called with the news that Eugene was there.

The relatives said they would put him on a bus for Shreveport later in the day. They called later and advised they had done just that. The bus arrived in Shreveport Thursday morning, but Eugene wasn't on it, Mrs. Hart said.

Capt. Jones wasn't too surprised when he received the report that Eugene was missing.

"Well, I guess it's just that time of the year for Eugene to start seeing the country again," he said.

Last year, Eugene, who apparently feels there's only one remedy for itchy feet, disappeared. He was found a week later in Heber, Ark.

Eugene usually gets a lot more mileage than that out of his money. About three years ago the 5-foot 4 youth left home with 18 cents. A week later, after stowing away on a luxury liner, he arrived in England. He still had 10 cents in his pockets.

Capt. Jones said he has asked officers in the nearby states of Arkansas, Texas and Mississippi to be on the lookout for the youth, who weighs about 100 pounds and has dark brown eyes and hair.

New York Man, Wife Slay Daughier, Jump To Deaths

NEW YORK, Feb. 8 (UP) — A seven-year marriage. Kennedy, described by a friend as a brilliant financial analyst, had been unable to work because of a stomach ailment. His wife had asthma. Valerie also had been ill.

Behind them they left dozens of medicine bottles and unpaid bills of several hundred dollars for medical care and medicines. There were no notes.

Police said relatives had contributed to the upkeep of the family and the \$105-a-month rent on the apartment.

Committee Gives Crossett Report

CROSSETT, Feb. 8 (Special) — A committee, selected by property owners of North Crossett, reported that the proposed improvement district to provide city water, gas, and fire protection is in the final stages of preparation to determine the feasibility of the project and the approximate cost of providing the services.

The committee, composed of H. A. Etheridge, Jr., Tom Norsworthy, and Lowell Alexander, said that the consulting engineer firm, Albert Switzer and Associates of Jackson, Miss., have completed a survey here of the proposed district and have made tentative cost estimates.

Assessed valuation lists of the property included in the proposed district is being prepared by Tom Durham, county tax assessor, and when these lists are completed they will be furnished the engineers, who will then advise the property owners, in a meeting to be called, on the cost of the project, what property may be included, and what taxes and revenues will be necessary to pay for the services to be provided.

Building Permits

The following building permits were issued today by City Building Inspector Sam Aul:

King Wright, Jr., to rebuild a one-story frame auto repair shop at 1302 Griffin Street at a cost of \$800.

King Wright, Jr., to add two rooms to a one-story frame home at 1302 Griffin street at a cost of \$400.

Cliff Ferguson, to add to a one-story frame home one room at 1607 Alabama street at a cost of \$1394.

R. W. Lee, to erect a one-story home containing two baths, carport and six rooms at 415 Paragoud Drive at a cost of \$10,000.

Otto Passman, to erect a one-story brick veneer home containing two baths, carport and seven rooms at 2705 Oak Drive at a cost of \$18,000.

Spain Still Plagued By Mob Rioting

MADRID, Spain, Feb. 8 (AP) — Police thumped demonstrating students' heads today while the Spanish Cabinet sought a solution of growing difficulties which have caused three high cost of living boycotts within a month.

The Cabinet met throughout the day with Gen. Francisco Franco at his Prado Palace just outside Madrid. There was no announcement of matters discussed but sources close to the government said the wave of unrest throughout the country was at the head of the agenda.

While the ministers met, the capital's police broke up a demonstration of university students. They used rubber truncheons. It was the second such conflict in two days. A citywide boycott of municipal transport continued on a reduced scale through its second day in protest against the rising cost of living.

Similar boycotts took place for 10 days in Barcelona beginning Jan. 14 and in Sevilla on Jan. 15. The Madrid boycott seemed only about 25 per cent effective today, compared to about 50 per cent the day before.

Overshadowing today's developments, however, was growing fear of graver disturbances tomorrow. That will be a holiday honoring students of the Falange party killed during the Spanish civil war.

Communists To Open U.S. Convention

NEW YORK, Feb. 8 (AP) — American Communists will go into a four-day convention here tomorrow in a showdown struggle on future policy.

The question is whether the party will adopt what some party members call "an American road to socialism" or stand fast to the traditional Marxist-Leninist line handed down by the Kremlin.

The 300 delegates representing some 25,000 members will convene in the Chateau Gardens, a Lower East Side hall that rents space for meetings and dances.

The Daily Worker, Communist newspaper, described the hall as "inconveniently located for most delegates," but said that it was chosen only after 60 other places had been refused party attempts to find convention space.

It said a score of hotels and twice that number of halls had rejected Communist offers of rental.

The convention, the party's 16th, will be its first since 1950. The seven-year lapse came while a number of the party's leaders were in prison on Smith Act charges of teaching and advocating violent overthrow of the government.

In an unprecedented move, the party's National Committee proposed this week that a group of non-Communists interested in civil liberties, peace and church movements be invited to attend the convention.

They will be admitted, however, only if the delegates vote approval of the idea.

Convention sessions in the past have been closed to the press. That policy was expected to hold for this convention, too.

A party spokesman said Norman Thomas, American Socialist leader; Dorothy Day, editor of the Catholic Worker; and the Rev. A. J. Muste, an ardent pacifist, had been invited.

3 Teen-Aged Boys Held For Texas Robbery

BELTON, Tex., Feb. 8 (UP) — The sheriff held three teen-aged boys Friday who said two older men coaxed them into robbing a filling station in Belton after they had stolen a car in Albuquerque, N.M.

Police Chief A. O. Schier of Taylor arrested the boys, ages 15, 16, and 17, and said they admitted the crimes in Albuquerque Wednesday night and Belton Thursday night.

But he said they blamed two men, believed to be in their 20s, whom they met in Hereford, Tex., for putting them up to the robbery. They said the two men had a car of their own and they drove to Belton to deliver it.

They said that when they reached Belton, the two men gave them a pistol and told them to rob the service station. They got about \$70. The boys said the men continued in the direction of Austin when the boys were arrested in nearby Taylor.

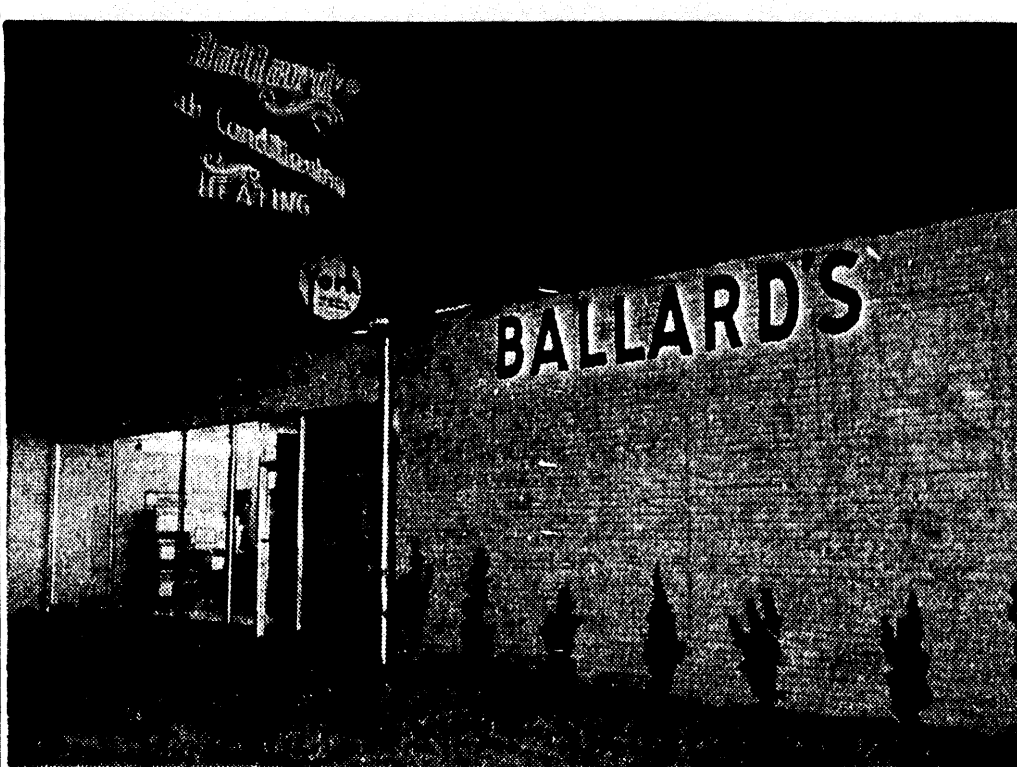

Three Charges Filed On Sale Of Liquor

Mose Jones, Ward 7, Ouachita parish Negro, who was arrested earlier this week, yesterday was charged with three counts of selling alcoholic beverages without a license.

Total bond was set at \$1500. Sheriff officers arrested Jones, 68, early yesterday afternoon at his home.

In other action, deputies arrested a 35-year-old Bawcomville man and charged him with a \$30.50 theft.

The man, Marvin Foster, is being held in the parish jail in lieu of a \$750 bond.

NEW QUARTERS—Shown above is an outside view of the new quarters for Ballard's, Inc., engineering specialists in air conditioning, heating, refrigeration and plumbing. The new building is located at 1003 Hudson Lane, and its formal opening is being held today. The public is invited to see the new building.

Formal Opening Of Building Is Set For Today

The general public is being invited to the formal opening today of the new building of Ballard's, Inc. This marks the climax of tremendous growth for the firm, classified as engineering specialists in air conditioning, heating, refrigeration and plumbing.

The firm was established here over five years ago as an individual dealership for York air conditioning. Since that time Ballard has been recognized for his outstanding merchandising and promotional abilities by receiving appointments from the York factory to represent them as distributor in more and more territories. Today, in addition to serving as a retail dealer, Ballard's distributes the entire York line to all of North Louisiana, parts of Texas, Arkansas and Mississippi.

L. M. "Mac" Ballard, owner, in commenting on the progress his firm has made, gives much of the credit to the confidence of home builders and contractors in this area and to the "superior products we represent."

Along with the formal opening of the new quarters, Ballard announced their appointment as a dealer for Crane plumbing fixtures and stated that the firm would now offer complete plumbing service.

Refreshments and favors will be provided to everyone attending the opening.

Slayer Minor Sorber Put To Death In Gas Chamber

PARCHMAN, Miss., Feb. 8 (AP) — Minor Sorber, confessed killer of two, died today in Mississippi's gas chamber for a third slaying, which he denied. He said he welcomed death because "I found God."

The 33-year-old Dayton, Ohio, mobster appeared to embrace death. He stepped quickly into the iron chair of the gas chamber in Mississippi penitentiary's maximum security unit.

He helped place the heavy leather straps around his bulky body. When the cyanide fumes slid down a chute into a receptacle of acid, he leaned forward eagerly and breathed deeply. A whisp of deadly vapor arose.

"The Lord is my Shepherd," chanted Dr. Kermit Canterbury, Baptist minister, from the 23rd Psalm, as the former saw-cracker lost consciousness and his head lifted and fell forward. The death was officially recorded at 10:10:40 a.m. (CST), an estimate because no one could enter the chamber until an exhaust fan cleared the fumes.

Sorber left \$4 and some change in his cell to William A. Wetzel, the Seneca Falls, N. Y., native, jointly condemned with the Ohioan for the April 14, 1953 slaying of Edgar (Sonny) McGraw in a prison field. Both denied they slit McGraw's throat and won numerous execution stays in the courts.

One of Sorber's last prayers was for the salvation of those who testified against him in the McGraw case.

But Sorber had readily admitted killing George Zavakos, 39-year-old wealthy Dayton businessman for \$2,000 May 24, 1947, and killing a C. Landrum, Hinds County jailer, Sept. 12, 1954.

Landrum was fatally beaten with an iron pipe when Sorber and Gerald Galego, a condemned killer, fled the "escape-proof" Jackson, Miss., jail. Sorber, his clothes and bare feet torn, was captured five days later after a manhunt by 300 armed officers.

When he stepped out of his cell in death row, Sorber turned and shook hands with Wetzel, who had been scheduled to die yesterday while the U. S. Fifth Circuit Court of Appeals in New Orleans considers an appeal from denial of a habeas corpus writ by Federal District Judge Allen Cox at Oxford, Miss.

Sorber then shook hands with death row's other two condemned men, Naudon, Belina of Long Beach, Miss., and Robert Lee Goldsby, St. Louis, Mo. Belina and Goldsby, both Negroes, are scheduled to step into the gas chamber next week.

"Death loses its sting when God is by your side," Sorber wrote in a first-person story published to-

OWNER OF BALLARD'S — L. M. "Mac" Ballard is the owner of Ballard's, Inc., which is formally opening its new building at 1003 Hudson Lane today. Ballard is well known throughout this area as a tireless civic leader. He is currently serving as vice-president of MAID-CO.

Man Found Guilty In Assault Case

A pajama-clad Negro man was found dead at his home here yesterday afternoon. Dr. J. T. French, Ouachita parish coroner said he died of natural causes.

Dr. French identified him as John Woodin, 75, of 204 12th street.

City police were summoned to the scene yesterday about 2:55 p.m. to conduct an investigation into the man's disappearance. Neighbors said they had not seen him during the previous day.

Officers found the body in a sitting position on the floor against the side of the bed.

The body was taken to Lamothe Funeral Home here.

Spain Still Plagued By Mob Rioting

MADRID, Spain, Feb. 8 (AP) — Police thumped demonstrating students' heads today while the Spanish Cabinet sought a solution of growing difficulties which have caused three high cost of living boycotts within a month.

The Cabinet met throughout the day with Gen. Francisco Franco at his Prado Palace just outside Madrid. There was no announcement matters discussed but sources close to the government said the wave of unrest throughout the country was at the head of the agenda.

While the ministers met, the capital's police broke up a demonstration of university students. They used rubber truncheons. It was the second such conflict in two days. A citywide boycott of municipal transport continued on a reduced scale through its second day in protest against the rising cost of living.

Similar boycotts took place for 10 days in Barcelona beginning Jan. 14 and in Sevilla on Jan. 16. The Madrid boycott seemed only about 25 per cent effective today, compared to about 50 per cent the day before.

Overshadowing today's developments, however, was growing fear of graver disturbances tomorrow. That will be a holiday honoring students of the Falange party killed during the Spanish civil war.

Communists To Open U.S. Convention

NEW YORK, Feb. 8 (AP) — American Communists will go into a four-day convention here tomorrow in a showdown struggle on future policy.

The question is whether the party will adopt what some party members call "an American road to socialism" or stand fast to the traditional Marxist-Leninist line handed down by the Kremlin.

The 300 delegates representing some 25,000 members will convene in the Chateau Gardens, a Lower East Side hall that rents space for meetings and dances.

The Daily Worker, Communist newspaper, described the hall as "inconveniently located for most delegates," but said that it was chosen only after 60 other places had rebuffed party attempts to find convention space.

It said a score of hotels and a score that number of halls had rejected Communist offers of rental.

The convention, the party's 16th, will be its first since 1950. The seven-year lapse came while a number of the party leaders were in prison on Smith Act charges of teaching and advocating violent overthrow of the government.

In an unprecedented move, the party's National Committee proposed this week that a group of non-Communists interested in civil liberties, peace and church movements be invited to attend the convention.

They will be admitted, however, only if the delegates vote approval of the idea.

Convention sessions in the past have been closed to the press. That policy was expected to hold for this convention, too.

A party spokesman said Norman Thomas, American Socialist leader; Dorothy Day, editor of the Catholic Worker; and the Rev. A. J. Muste, an ardent pacifist, had been invited.

3 Teen-Aged Boys Held For Texas Robbery

BELTON, Tex., Feb. 8 (UP) — The sheriff held three teen-aged boys Friday who said two older men coaxed them into robbing a filling station in Belton after they had stolen a car in Albuquerque, N.M.

Police Chief A. O. Schier of Taylor arrested the boys, ages 15, 16, and 17, and said they admitted the crimes in Albuquerque Wednesday night and Belton Thursday night.

But he said they blamed two men, believed to be in the 20s, whom they met in Hereford, Tex., for putting them up to the robbery. They said the two men had a car of their own and they drove to Belton together.

They said that when they reached Belton, the two men gave them a pistol and told them to rob the service station. They got about \$70. The boys said the men continued in the direction of Austin when the boys were arrested in nearby Taylor.

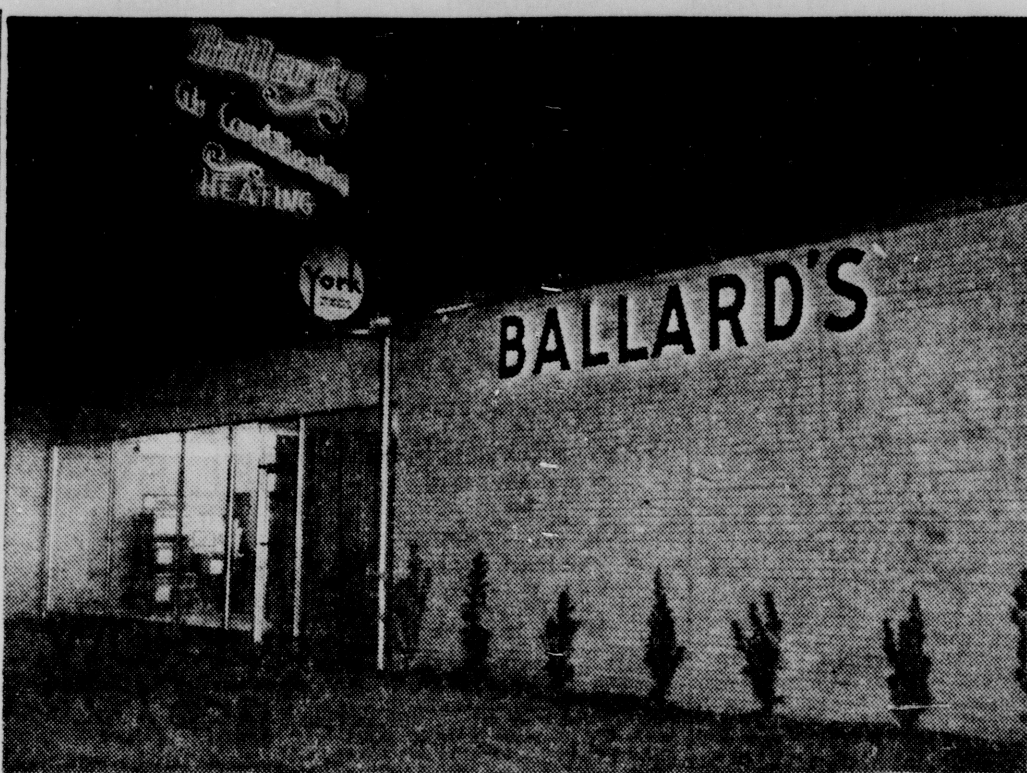

Three Charges Filed On Sale Of Liquor

Mose Jones, Ward 7, Ouachita parish Negro, who was arrested earlier this week, yesterday was charged with three counts of selling alcoholic beverages without a license.

Total bond was set at \$1500. Sheriff officers arrested Jones, 63, early yesterday afternoon at his home.

In other action, deputies arrested a 35-year-old Bawcomville man and charged him with a \$30.50 theft.

The man, Marvin Foster, is being held in the parish jail in lieu of a \$750 bond.

NEW QUARTERS—Shown above is an outside view of the new quarters for Ballard's, Inc., engineering specialists in air conditioning, heating, refrigeration and plumbing. The new building is located at 1003 Hudson Lane, and its formal opening is being held today. The public is invited to see the new building.

Formal Opening Of Building Is Set For Today

The general public is being invited to the formal opening today of the new building of Ballard's, Inc. This marks the climax of tremendous growth for the firm, classified as engineering specialists in air conditioning, heating, refrigeration and plumbing.

The firm was established here over five years ago as an individual dealership for York air conditioning. Since that time Ballard has been recognized for his outstanding merchandising and promotional abilities by receiving appointments from the York factory to represent them as distributor in more and more territories. Today, in addition to serving as a retail dealer, Ballard's distributes the entire York line to all of North Louisiana, parts of Texas, Arkansas and Mississippi.

L. M. "Mac" Ballard, owner, in commenting on the progress his firm has made, gives much of the credit to the confidence of home builders and contractors, in this area and to the "superior products we represent."

Along with the formal opening of the new quarters, Ballard announced their appointment as a dealer for Crane plumbing fixtures and stated that the firm would now offer complete plumbing service.

Refreshments and favors will be provided to everyone attending the opening.

OWNER OF BALLARD'S—L. M. "Mac" Ballard is the owner of Ballard's, Inc., which is formally opening its new building at 1003 Hudson Lane today. Ballard is well known throughout this area as a tireless civic leader. He is currently serving as vice-president of MAIDCO.

Slayer Minor Sorber Put To Death In Gas Chamber

PARCHMAN, Miss., Feb. 8 (AP) —Minor Sorber, confessed killer of two, died today in Mississippi's gas chamber for a third slaying, which he denied. He said he welcomed death because "I found God."

The 33-year-old Dayton, Ohio, mobster appeared to embrace death. He stepped quickly into the iron chair of the gas chamber in Mississippi penitentiary's maximum security unit.

He helped place the heavy leather straps around his bulky body. When the cyanide fumes slid down a chute into a receptacle of acid, he leaned forward eagerly and breathed deeply. A whisp of deadly vapor arose.

"The Lord is my Shepherd," chanted Dr. Kermit Canterbury, Baptist minister, from the 23rd Psalm, as the former saw-cracker lost consciousness and his head lifted and fell forward. The death was officially recorded at 10:10:40 a.m. (CST), an estimate because no one could enter the chamber until an exhaust fan cleared the fumes.

Sorber left \$4 and some change in his cell to William A. Wetzel, the Seneca Falls, N. Y., native jointly condemned with the Ohioan for the April 14, 1953 slaying of Edgar (Sonny) McGraw in a prison field. Both denied they slit McGraw's throat and won numerous execution stays in the courts.

One of Sorber's last prayers was for the salvation of those who testified against him in the McGraw case.

But Sorber had readily admitted killing George Zavakos, 59-year-old wealthy Dayton businessman for \$2,000 May 24, 1947, and killing J. C. Landrum, Hinds County jailer, Sept. 12, 1954.

Landrum was fatally beaten with an iron pipe when Sorber and Gerald Gallego, a condemned killer, fled the "escape-proof" Jackson, Miss., jail. Sorber, his clothes and bare feet torn, was captured five days later after a manhunt by 300 armed officers.

When he stepped out of his cell in death row, Sorber turned and shook hands with Wetzel, who had been scheduled to die yesterday. Wetzel has won another delay while the U. S. Fifth Circuit Court of Appeals in New Orleans considers an appeal from denial of a habeas corpus writ by Federal District Judge Allen Cox at Oxford, Miss.

Sorber then shook hands with death row's other two condemned men, Nauldon Belina of Long Beach, Miss., and Robert Lee Goldsby, St. Louis, Mo. Belina and Goldsby, both Negroes, are scheduled to step into the gas chamber next week.

"Death loses its sting when God is by your side," Sorber wrote to a first-person story published to

day in the Jackson Daily News. "For over two years I have been waiting for death. Now I find myself looking forward to it."

"If you're right with God, only eternal life and happiness await you. Not everyone has time to prepare for death. Only people afflicted with an incurable disease and condemned men receive this blessing. Yes, I said blessing because of the suffering we go through before Jesus mercifully accepts us."

Sorber said "threat of capital punishment does not deter men from committing crime" and argued that imprisonment alone can be worse than death when loved ones need you or die.

Saying fear of death "is a lack of faith and trust in our Lord," the doomed man wrote that he was going to "a place beautiful beyond description."

He was dressed in gay pink, red and gray pajamas and wore fluffy house slippers as he walked alongside Sunflower County Sheriff Ed Williams to the gas chamber. "Don't feel bad about this, sheriff," he remarked nervously to Williams, who was tense. "I don't feel bad about it." He winked to newspaper reporters and said, "so long, fellows."

It was disclosed his family visited him recently, and he had a hearty meal of his choice yesterday. His pretty daughters, Donna, 18, and Sheila, 20, visited Feb. 2 and 3, the same day his sister, Mrs. Verna Gearhart, was here. His father, Ralph, and his brother, Ralph, Jr., came to see him Jan. 26 and 27. All are of Dayton.

The body is scheduled to arrive Saturday in Dayton. He will be buried in a blue suit which he asked be set aside for that purpose. Dr. Canterbury, pastor of First Baptist Church at Indianola, Miss., who shared Sorber's last hours, will go to Dayton and take part in the funeral.

With the prison chaplain, the Rev. R. B. Hicks, and two prison officials, Dr. Canterbury knelt in prayer at Sorber's cell at 9:40 a. m. shortly before Sorber's walk to death.

MEMORY MOST IMPORTANT ATLANTA, Feb. 8 (UP) —The memory of a fallen Confederate soldier proved more important than the plans for a super highway Friday.

Man Found Guilty In Assault Case

A pajama-clad Negro man was found dead at his home here yesterday afternoon. Dr. J. T. French, Ouachita parish coroner said he died of natural causes.

Dr. French identified him as John Woodin, 75, of 204 12th street.

City police were summoned to the scene yesterday about 2:55 p.m. to conduct an investigation into the man's disappearance. Neighbors said they had not seen him during the previous day.

Officers found the body in a sitting position on the floor against the side of the bed.

The body was taken to Lamothie Funeral Home here.

Financial News

Stock Prices Near '56 Low

NEW YORK, Feb. 8 (AP)—The stock market fell again today, almost touching its 1956 bottom, but made a partial recovery.

The Associated Press average of 60 stocks declined 90 cents to \$172.20 with the industrials down \$1.50, the rails down 60 cents to a new 1956-57 low and the utilities down 20 cents.

The 1956 low of \$171.60 for the 60-stock average was established Jan. 23, 1956.

Of 1,160 issues traded, declines outnumbered advances by 602 to 308. There were 76 new 1956-57 lows and three new highs.

Volume totaled 2,120,000 shares compared with 1,840,000 yesterday.

Corporate bonds were lower.

U. S. government bonds were mixed in over-the-counter dealings.

Hearing Delay On Air Service Asked By Line

Texas Airlines has requested a postponement of a hearing involving the Monroe-to-Lake Charles direct air service, the aviation committee of the Monroe Chamber of Commerce has learned.

The hearing was originally slated for the first of March by the Civil Aeronautics Board.

In its recent move, Trans-Texas may delay the hearings possibly two weeks. However, the CAB must act on the "reconsideration move" by the airlines.

Local Chamber of Commerce officials after being notified of the action expressed the thought that the Trans-Texas was utilizing legal maneuvers to stall a full hearing on the desired Monroe-to-Lake Charles segment.

Southern Airways, Inc., is seeking a direct air route between Monroe and Lake Charles, via Alexandria, Trans-Texas has opposed the request. Recently the CAB included the Monroe-to-Lake Charles segment in a south Louisiana hearing.

In a direct communication this morning with Joseph A. Fitzmaurice, hearing examiner for the board, Louis D. Smith, chairman of the committee, was notified that the local group will be heard in the hearing, when it is heard. Tentatively that briefs were to be submitted by Tuesday. However, with this delay, it would appear that the additional hearing would be moved up until mid-March, Smith said.

"Did Slain Girls Tour Bars with Adults?"—Headline. If they did, they were rather lively for slain girls.

Charters Filed By Area Firms

Domestic Charters filed with secretary of state, Wade O. Martin, Jr., during the past week, included six for the northeast area. Also filed was one charter amendment.

The new charters filed included: Howard Griffin, Inc., 712 South Grand street, Monroe, wholesaler and retail sales and merchandising, \$150,000; Southern Mud Logging Services, Inc., 103 Azalea Drive, Monroe, general contracting and construction, \$5,000; Richard Homes, Unit 2, Inc., Rayville, construction and operation of a housing project, \$100 and 13 shares no par value; Richard Homes, Unit 1, Inc., Rayville, construction and operation of housing project, \$100 and 13 shares no par value.

Concordia Homes, Unit 1, 2, 3, and 4, Inc., Ferriday, construction and operation of housing projects, \$100 and 15 shares no par value.

The single amendment to domestic charters for northeast Louisiana involved the Style Shop, Inc., of Monroe, increasing the capital stock to \$150,000.

Change Announced In Meeting Plans

FERRIDAY, Feb. 8 (Special)—A meeting to re-establish the Southeast District of the Ouachita Valley Council has been changed to Wednesday at 7:30 p.m.

The meeting will be held in the Ferriday High School cafeteria and Lloyd Love urged all persons interested in Scouting in this area to be present.

Scouters planning to attend are asked to contact Love or Mrs. Ben Green for meal reservations.

Highlights From The Ticker Tape

Penn-Texas yesterday filed notice with the Securities and Exchange Commission that it owns 55,000 shares of Fairbanks, Morse common stock. This is about 40 per cent of Fairbanks' 1,372,170 shares outstanding January 31.

Western Development Co. of Delaware reported a discovery oil well in Northern Eddy county, New Mexico. The No. 1 Spencer. Logging tested through a one inch opening for a daily potential of approximately 300 barrels of oil.

General Electric booked a \$53.4 million Air Force contract for production of J-79 Jet engines.

Ralston Purina Company has entered into a partnership arrangement with a Colombian company for the immediate manufacture of the full line of Purina Feeds in that country.

Directors of Airborne Instruments Laboratory, Inc. and of Aircraft Radio Corp. have reached substantial agreement on the general terms of a statutory merger. The proposal will be submitted to stockholders of both companies as soon as details have been worked out.

The Franklin Life Insurance Company is considering plans for a stock dividend, probably of 50 per cent and expects to have a definite recommendation ready by late May or early June.

Steel operations in the Youngstown district are scheduled at about 100 per cent of capacity next week, off about two points from this past week.

Naval Stores

SAVANNAH, Ga. (AP)—Gum naval stores today: receipts, turpentine 199, rosin none; shipments, turpentine 90, rosin none; stock, turpentine 4,242, rosin 112.

LIVESTOCK

KANSAS CITY (UP—USDA)—Livestock:
Hogs 1,500. Moderately active. Generally steady. Bulk mixed 1s to 3s 195-240 lbs. 17.75-17.85. Top 18. Sows 550 lbs. down 15.75-17.
Cattle 400, calves none. Part of today's meager receipts put away for Monday. Not enough of any class on offer for adequate test of prices.
Sheep 50. Hardly enough on offer to make an adequate test of trade. Few small lots 80-100 lb. woolled slaughter lambs about steady at 18.50 to 20. Few good woolled slaughter ewes 6.

CHICAGO (AP—USDA)—Salable hogs 5,900; No. 2-3 mixed grade lots 190-230 lb butchers 17.50-17.75; several lots No. 1-2 these weights 17.75-18.00; 81 head lot No. 1 210 lb uniform in weight and grade 18.25; No. 2-3 240-290 lb 17.00-17.50; small lots mostly 300-325 lb 16.75-17.00; mixed grade 350-550 lb sows 15.75-16.50; mixed butchers and sows 330-350 lb 16.75.
Salable cattle 700; calves 100; mixed choice and prime 1213 lb 23.00; good to average choice 18.00-21.50; good and choice 965 lb heifers 19.50; good to average choice heifers 18.00-21.00; utility and commercial cows 11.50-13.00; canners and cutters 9.50-11.75; utility bulls 14.50-15.75; weighty commercial bulls up 16.75; choice vealers sold up to 28.00; utility to good vealers 13.00-25.00.

GRAIN

CHICAGO, Feb. 8 (AP)—Soybeans sank a little further on the Board of Trade today and their weakness eventually undermined a firm tone in most other cereals.
Wheat closed 1/2 lower to 3/4 higher, corn 1/4 lower to 1/2 higher, oats unchanged to 1/4 lower, rye 1/4 to 1 cent lower, soybeans 1 1/2 to 2 1/2 lower and lard 5 to 15 cents a hundred pounds lower.
Wheat:
Mar 2.31 1/4-3/4; May 2.29 3/4-5/8; Jly 2.22 1/2-3/4; Sep 2.24; Dec 2.27 1/2.
Corn:
Mar 1.29 1/4; May 1.33 1/4-3/8; Jly 1.35 1/4; Sep 1.35 1/2; Dec 1.30 1/2.
Oats:
Mar 75; May 73 1/2-3/4; Jly 67 1/2; Sep 67 1/2.
Soybeans: Mar 2.42 1/4-1/2; May 2.43 1/4-3/4; Jly 2.40 1/2-3/4; Sep 2.31 3/4; Nov 2.29 1/4.
Lard: Mar 14.90; May 14.95-92; Jly 14.95; Sep 14.67; Oct 14.50.

POTATOES

CHICAGO (AP—USDA)—Potatoes old; arrivals 89; track 249; total U. S. shipments 723; old; supplies moderate; demand slow; market dull to barely steady; Minnesota, North Dakota, Red River Valley, potatoes 2.25-2.50; Wisconsin Russets 2.35; new; arrivals 1; track none; supplies light; demand moderate; market about steady; no track sales reported.

POULTRY

CHICAGO (AP)—Live poultry about steady; receipts 573 coops; (yesterday 172 coops; 30,000 lb) f.o.b. paying prices unchanged; heavy hens 14 1/2-16; light hens 12-12 1/2; old roosters 12 1/2-1.
